Justice Merrill continued two cases this morning, and gave judgment in the case of Shepler against Tenney, for $8.

AVENGED A WRONG.

A Doctor Shot by His Victim's Father.

Omaha, Neb., Sept. 25.—While hundreds of people were hurrying along Farnam street just after noon yesterday, John J. Wills, an old man with long, snow-white beard, drew a revolver in front of the Commercial national bank and fired at Dr. B. H. Birney, a young physician who was passing. The bullet struck the doctor's watch and glanced off, and before Wills could shoot again he was overpowered. Both men were arrested. Wills claims that Birney had wronged his daughter and had refused to make reparation.

WOMEN FILL THE BILL.

They Score a Greater Success Than the Men.

Female Inspectors of Meat Will Probably Soon be on the Government Payroll.

Washington, Sept. 25—Secretary Rusk, who is establishing meat inspection stations at South Omaha, Kansas City, Milwaukee, Boston, Chicago and other cities, says that it has been found by experts that women are better adapted to the preparatory work of meat inspection than men.

At Chicago 16 men and the same number of women were tried at this work and the result was largely in favor of the women.

The work is such that women can perform, being light and clean and requiring care, skill and deftness—qualities which women show in abundance.

HIDING THEIR SHAME.

Ottawa, Ont., Sept. 25.—The motion to adopt the minority report of the committee on privileges and elections, finding ex-Minister of Public Works Langevin guilty of complicity in the boodling in connection with his department, was lost at 3 o'clock this morning, by a vote of 104 to 83.

DESTROYED BY FIRE.

Bethlehem, Pa., Sept. 25.—The largest fire for years visited the boro of Slatington last night. Gross, Fritzinger & Co.'s hardware store, Horlacher's saloon, Neff's hotel and several private residences were destroyed. Loss, $50,000; mostly insured.

HER POWER WANES

England Grows Weaker as Time Rolls On.

Alarming State of Affairs in India.

The Natives are Ready for a Rebellion.

Grief Over the Death of the Czar's Sister-in-Law.

The Dardanelles Incident Should be Settled Between Russia and Turkey, Says the Czar—Foreign Mention.

London, Sept. 25.—The sudden death of the Grand Duchess Alexandria has broken up the family party at Fredensborg, and imperial family of Russia and the royal houses of Denmark and Greece will have to go into mourning in reality, and other European royalties will mourn by courtesy.

The death of the grand duchess will probably make a change in the plans of the czar and may lead to the omission of the proposed interview between the czar and the kaiser.

Paul is the czar's favorite brother, and the affliction which he suffers in the loss of his young wife cannot fail to excite the liveliest sympathy of the autocrat.

Paul was deeply devoted to his wife, who was 21 years of age.

As a rule the Russian grand dukes do not get along very well with their wives, but Paul was an exception, and the devotion of the pair to each other has excited frequent remark.

Besides the son, whose birth was followed by her own death, the grand duchess leaves a daughter about 17 months old. The children will probably be taken charge of by their grandparents, the king and queen of Greece.

The Dardanelles.

A Constantinople despatch says the Russian minister, Nelidoff, had a long conference with the sultan in regard to the sultan's circular to the powers, relative to the passage of the Dardanelles by Russian vessels.

The wording of the circular is said to be not satisfactory to the Russians, who claim that the incident was a matter for settlement between Russia and Turkey alone, and that neither country owes anybody else any explanation on the subject.

British Power Waning.

A Calcutta despatch says the viceroy is much alarmed by the sullen tone of the native populace who have been particularly aggressive of late.

The Age of Consent law is said to be the chief foundation for popular anger. It is interfering with the customs of the Hindoos more than was at first expected and several husbands have already been prosecuted for taking their child wives home under the legal age.

The priests are especially angry at the bill, which tends to deprive their order of certain old-fashioned privileges.

The lack of cohesion among the natives is the strongest factor in making successful rebellion almost impossible.

At the same time many Europeans claim that British rule in India is really in danger, owing to the rash course of the viceroy, both in domestic affairs and in the severe punishment of the leaders in the Manipur insurrection.

The rulers of the feudatory states of India, are said to feel uneasy in consequence of the way in which the royal family of Manipur was treated and they are asking each other what the fate would be any of any other Indian prince who might be driven by intolerable tyranny into armed resistance against British authority.

The hanging of the senaputty was especially offensive to the Hindoos, that being considered a most disgraceful form of execution, and, although England has not formally annexed Manipur, the state is to remain virtually within a complete control of English officials. All these circumstances go to influence the Hindoo mind and make it receptive of disloyalty sentiments against Great Britain.

Will Russia Attack the Turks?

A Paris dispath says that, although the belief prevails that war will soon break out, nobody anticipates that it will be a war between France and Germany.

Last night's advices from Constantinople state that the foreign residents are more aroused than they have been for years and that no doubt is entertained that Russia will soon attack the Turks.

So pronounced is this belief that some of the foreign residents are preparing to leave Stamboul for Italy, and thus escape being crushed between the combatants.

The prince of Reuss has ordered that all socialists and other agitators shall be driven out of the principality.

To-morrow, Saturday, Sept. 26, will be the last day the Bee will be issued from its old quarters, which it has so completely outgrown in the past few years. Its new home is one of the finest in the city.

MISSOURI PACIFIC

Dividend Payments Have Been Suspended.

A Sensation Created in Railroad and Financial Circles by the Action.

Chicago, Sept. 25.—Much excitement was caused in railroad and financial circles here yesterday by the news from New York that the Missouri Pacific had suspended dividend payments for the present.

At first the report was not believed, as it was thought that the road was in sound financial condition and well able to pay a dividend. Later, however, full confirmation of the news was received.

It was learned that the directors had discussed the matter at their meeting yesterday and decided to take no action on the dividend.

The consideration of the matter, it is understood, had been postponed indefinitely and no action will be taken until the next quarterly meeting.

The Bee's new Hive on St. Clair street, between Adams and Madison, is one of the most central locations in the city. It is only a few steps from postoffice, Boody House, Produce Exchange, Ketcham's National Bank and Northern National Bank.

ROUGH ON VINCENT.

His New York Sermon Created Little Surprise.

Chicago, Sept. 25.—Little surprise was created in Presbyterian circles in Chicago by the sermon preached by Dr. Marvin R. Vincent at the opening of the Union Theological seminary in New York yesterday, in which he pleads for an intelligent exegesis and liberal criticism of the Bible.

Since Dr. Briggs took his famous stand for a conceptual inspiration the attitude of the seminary has been generally understood by clergymen of the Presbyterian faith and it was expected that the faculty of that institution would to a great extent get in line with Dr. Briggs.

The ministers are inclined to look lightly upon Dr. Vincent's claims as a theologian. He was formerly a Methodist, and even after he became a Presbyterian he was known as a preacher rather than a student. It is only within the last few years that he has made any claim to be a theologian.

JOHN MORAN ACQUITTED.

Nashville, Tenn., Sept. 25.—John Moran, who has been on trial here for two days for the murder of Mary Ann Dolan at his home in this city last June was acquitted yesterday. The murder was a very sensational one, and the facts were widely published at the time. The acquittal was brought about by the chief witness, Miss Charlotte Racknitz, a 15-year-old girl, retracting her charges in court.

SAMUEL BISSICKS DEAD.

Nyack, N. Y., Sept. 25.—Samuel Bissick, one of the best known citizens of Rockland Lake, died last night in his 65th year. He was born in Bristol, Eng., and came to this country 49 years ago. He was a widower.

SEAL DAMAGES.

Ottawa, Ont., Sept. 25.—It has been ascertained that the sum which the British government will have to pay the Canadian sealers as damages on account of the modus vivendi is $500,000 and may be as high as $700,000. The minister of marine is in possession of the figures.

NEW COLLECTOR.

Washington, Sept. 25.—The president to-day appointed Charles D. Eddy, of Rhode Island, to be collector of customs for the district of Bristol and Warren, R. I.

NO OPIUM IN ANY FORM.

Cough and croup syrups usually rely upon laudanum or paragoric to relieve a patient. This is injurious. Dr. Hoxsie's Croup Cure cures without. 50 cents.

DEATH OF AN AGED MAN.

Newark, O., Sept. 25.—Joseph Anmidon, aged 90, died at Granville.

THE MIANTONOMOH.

A War Ship to Guard New York Harbor.

It Has Taken Years to Finish the Work Mapped Out by Tilden and Cleveland.

New York, Sept. 25.—New York harbor will have its first armored protector about October 1. The monitor Miantonomoh lacks only the placing of two great guns in the fore turret to be complete. The guns are done and are already on the decks of the monitor as she lies at a dock in the Brooklyn navy yard.

She is to be placed in commission at once even if the work is not entirely complete. The finishing touches can be put on later. The Miantonomoh will be under command of Capt. Montgomery Sicard.

The Miantonomoh will probably make her first cruise to Gardiner's Bay for the trial of her new 10-inch guns.

The big double turreted monitor has a long history. She was one of the fleet of ironclads built toward the close of the civil war after the model of the famous little monitor. At that time Uncle Sam had, for the second time in his history, the most powerful navy in the world, and the Miantonomoh was the most formidable ship in it.

Originally she was built of oak. She was 257 feet long, 53 feet broad, and drew 15 feet 4 1-2 inches. Her armor, which was of iron, was bolted on over her hull.

In 1872 she was rebuilt in iron, together with the Amphitrite, Terror, and Monadnock, and placed in commission for a second time. In 1883 she was brought again to the Brooklyn navy yard, and has remained there ever since, nearly all the time in repair or alteration.

The monitor now has 12 1-2 inches of blended steel and iron on her sides, and two Coles turrets, each holding two 10-inch modern rifles. Her length is 259 1-2 feet and her beam 55 1-2 feet. She is not completely modern even now, after all her struggle to catch up with progress in naval architecture.

The armor is part of the nickel steel which will probably encase the Maine and other big war ships. But the mingled steel and iron are amply sufficient for a ship of her build, for she squats down in the water so that she practically presents no target except her slight superstructure, and these can be shot away without crippling her.

The Miantonomoh is the first really formidable ship of the new navy. She is a battle ship in one sense of the word, for there is no ship of war afloat in any water which she could not meet with some chance of victory. But she is primarily a harbor defense ship.

Her business is not to go out to meet an enemy in other waters, but to lie in wait for an approaching foe. To such a foe she would give a welcome worthy of her flag, for in every respect except her armor she is powerfully modern.

The enormous 10-inch rifles in her turrets are the largest and most effective marine guns ever built in this country. They throw solid steel projectiles weighing 500 pounds each with an effective fighting range of seven miles, and can hurt them 13 miles.

Besides these big guns, she will carry on her superstructure and military mast two 6-pounders and two 2-pounder rapid fire guns, two 37-pounder revolving cannon, and two Gatlings. These will be useful for close fighting and to drive off torpedo boats. She will be a welcome addition to the fleet of swift cruisers, which will flash their white sides in our waters.

She is not graceful nor swift, but she can fight and they cannot. As the Miantonomoh bears her period of activity the work upon her sisters, the Puritan and the Terror, grows more lively. Both will probably be completed in the spring or early summer of 1892.

DYING FROM THIRST.

Terrible Scenes of Suffering in the West.

Ham and Bacon Selling for a Dollar a Pound, Lemons 25 Cents Each, Water a Dollar a Quart.

Guthrie, O. T., Sept. 24.—A courier just in from Chandler says the situation there is a terrible one and that hundreds of people are leaving. Muddy, nauseating water sells for $1 a quart, and horses are dying by the score for the want of it.

On the road back no water is to be had for 20 miles and the side of the road is lined with exhausted teams and people. The crowd is becoming desperate.

Bread is 50 cents a loaf, lemons 25 cents each, ham and bacon $1 a pound and other things in proportion.

CENTRAL OHIO M. E. CONFERENCE

THE THIRD DAY.

Business Progressing Slowly but Surely.

Rev. Dr. Belt Elected to General Conference

On the First Ballot—Reports of Delaware and Findlay Districts—General Work of the Body.

The first half hour of the conference this morning Bishop Newman spoke to the young preachers on "Practical Homeletics," and continued his suggestions for a regime which can be followed to advantage by preachers young and old. The principal part of the talk was on hints and points for the preparation, deliverance and object of a sermon. "The first sentence should strike fire," said the bishop, "and the preacher should fasten his hold on the congregation at the start." He impressed upon them the importance of taking plenty of time for study and properly preparing their sermons, then they would not only be able to deliver a better sermon, but they would also be ready if called upon, to speak extemporaneously.

The bishop especially urged upon the preachers to keep up with the times, find out what the people are thinking about and what they desire light upon. Then speak on live topics and make the sermons interesting as well as convincing, and full of spiritual enthusiasm. He made many other suggestions by which the preachers might profit, and especially urged the necessity of going into the work with their whole soul and having a object for all their work and sermons, and then putting this object forward in a convincing manner.

At the close of the Bishop's remarks the business session of the conference opened. After the reading of the minutes, Prof. Williams presented a resolution appointing Doctors Waters, Fish and Love a committee to carry the fraternal greeting of this conference to the lay conference then in session at St. Paul's, and to formally invite them to attend the conference this afternoon, also that when the conference adjourn it be to this afternoon. The resolution was adopted.

The twentieth question was then continued, and the character of the pastors in the Defiance district were passed.

Dr. L. M. Albright, presiding elder of the Delaware district, then read his report:

DELAWARE DISTRICT.

Rev. L. M. Albright's Report as Submitted To-Day.

The limit of time and space for my annual report compels me to crowd a large chapter of church history into a few brief sentences. On a careful review of the work of 21 pastors and 7,000 members for the year, I see much that deserves a more extended report.

With great diligence in business and fervency of spirit the pastors have served the Lord and the people, and the great head of the church has owned and blessed their labors. A thousand souls have been converted and added to the church. The local and connectional work has been carefully looked after. Building and repairing churches and paying debts, organizing Sunday schools and Epworth leagues, instructing the children, visiting from house to house, visiting the sick and burying the dead and raising benevolent collections, have kept the toilers busy all the year.

The geography of the district remains the same as last year, but a new mission field has been opened up in Marion and Hardin counties, with headquarters at Morrell. This is a village on the C., H. V. & T. road, eight miles north of Marion. There are four preaching places where the people give reverent attention to the preaching of the gospel, two Sabbath schools and one small society of church members.

If a missionary appropriation of about $100 could be made to this charge for two or three years it could be developed into a self-supporting charge, and in a short time return to the missionary treasury more money than it received. I am persuaded that the young men and women and neglected children of Ohio are as worthy of our care as the colored children of the South or the pagan abroad. Not that I would give less to them, but more at home. Rev. W. S. Buckney has toiled faithfully in this field, reaching his appointments on a bycicle, and received in compensation about $124.

Agosta charge has added one society at DeCliffe. We have no church at that place. Our services are held in the school house. Brother Littell held a very successful revival at that place, and the church was strengthened by a goodly number of accessions. This young and growing society is expecting to build a church at no distant day. The church at Green Camp has been painted and put in fine condition. The contract for the building of a new church at Mt. Olive has not been let.

Old Williams Street, the mother of churches, has sent out more missionaries and ministers to all parts of the world than any other church in Methodism, and is still a busy working hive. The people throug this old histor.c church to hear the gospel and worship at its altars. The stranger finds a home here and the children of the church are coming up to take the places of the veterans that are falling out of the ranks. This has been a year of great prosperity. One hundred members have been added to this church, making the number of members about 600. The last quarterly conference, by a unanimous vote, requested the return of their pastor, Rev. F. L. Wharton, another year.

Asbury, with a working force of 450 members and a church edifice worth $40,000 in the growing part of the city, is still making progress. It has lived out its probation and established its right to exist and to be ranked among the excellent charges of the conference. The last quarterly conference by a unanimous vote invited Dr. E. D. Whitlock to return another year.

Delaware circuit, for many years a waning charge by reason of deaths and removals, touched the lowest point last year. But a new day has dawned upon old Delaware circuit. The old parsonage at Radnor was put in order and a new pastor with his bride moved into it and began the work of reconstruction. Gracious revivals followed, and the charge has been strengthened by many accessions. The salary will be paid in full and a good report will be made on all the benevolent collections. The church at Waldo has been painted, and the church at Newton reconstructed at a cost of several hundred dollars. Hereafter the pastor will live among his people at Radnor, and Radnor will be the name of the charge.

Forest & Patterson, two miles apart, are connected by rail and an excellent turnpike road. This is a pleasant charge and the people desire the return of their pastor, Rev. I. N. Hall, the third year.

The name of Fowler charge has been changed to Harpster, to correspond with the new name of the village and postoffice. Early in the year Rev. G. W. Farley, the pastor, was charged with immoral conduct, and after a careful investigation and examination before seven elders, was found guilty and suspended, and Rev. Dr. J. S. Blair was appointed in charge for the rest of the year, and Rev. William Craig was sent to West Mansfield, the charge to which Dr. Blair was sent by the last annual conference. The work at Harpster has been exceedingly difficult. But the grace of God and the firmness and wisdom of the pastor have triumphed in spite of all discouragements.

Kenton circuit has been favored with gracious revivals, and the pastor has had his hands and heart full during the past year. The great need of this circuit is a parsonage in Kenton. Bro. Smith moved into a rented house which was sold, and at the end of six months he was compelled to find another house and move.

Larne is a beautiful circuit with three societies all connected by turnpike roads. The present pastoral term has been noted for extensive revival work.

Marion is building one of the largest and finest churches in the conference at a cost of $47,000. It will be ready for dedication before the holidays. With a membership of 600 and still increasing and an elegant church edifice Marion is one of the most desirable charges in our conference. But there will be no change of pastors this

REV. RICHARD WALLACE, OF MARRION.

year, if the wishes of the people and the pastor and the presiding elder are consulted. In spite of failing health Bro. Wallace has served the charge so well that all desire his return for the fifth year.

Marseilles has had a general awakening the past year and 100 accessions to the church. This ought to be and is destined to be one of the best circuits in Delaware district. Large possibilities await the workers here when all parties work together at their best. McKendre society has about two hundred members with more wealth and brains than often come together in one society in the country. Marseilles has a good parsonage and a very old church which needs to be replaced by a new one. Of for a revival that will reach the pocketbooks all 'round the circuit.

Marysville has had a prosperous year. A revival added 50 members to the church and another revival added $200 to the pastor's salary. The salary was advanced to $1,000 last year and this year to $1,200, and if Bro. Waters will remain long enough and grow in grace every year as much as he has the past two years and induce the same growth in the member of his flock this charge will take rank among the best stations in the conference.

Marysville circuit has been revived and reconstructed and changed its name and place of the pastor's residence. At the first quarterly conference Kenton society, which was nine miles from the center, was taken off the work, leaving Dover, Ryan and Amanda, and Dover [illegible] and by the [illegible] quarterly conference is to be the place of the pastor's residence. The new plan has proved to be a great success. Dover has preaching every Sabbath and a large share of pastoral work. A revival was held at this place which resulted in 170 conversions. This society numbers about three hundred members. A similar work at Amanda added 50 members to that society. The name of the circuit will be New Dover, and happy will he be whose lot is cast there.

Mount Victory has never been in better condition than now. Brother Parlette has had two years of great success in revivals and excellent work on all lines, and by a unanimous vote of the last quarterly conference is invited to return next year.

North Lewisburg is a growing charge. Never in the memory of the oldest men has this charge been so greatly prosperous as in the last two years. Brother Bigley came to this charge two years ago very reluctantly, but it was a providential appointment and his people desire his return.

Rev. Caleb Hill has filed the five years' limit at Prospect, and unless the clock can be taken off he will move. This is the third time he has served this charge. During the last term of service an extensive revival resulted in a large number of accessions to the church, but death has made a heavy draft upon this charge in the last few years.

Richwood is a neat little station, with 360 members. It is a pleasant situation. The people provide a good home for the preacher and take pleasure in listening to good sermons. The pastor has just completed the work of repairing and papering the church at a cost of $150. If it were possible to make the two extremes of Richwood circuit meet, this would be one of the best circuits in the conference.

Finley society has a membership of nearly two hundred, and Milliville about one hundred. Both are blessed with financial strength. But they are about 17 miles apart, and during the winter season the work is hard on the pastor. If Finley, Fulton Creek and Magnetic Springs should conclude to support the preacher and receive all his services, giving Finley morning preaching every Sabbath, this would become a very desirable work. Thos. Scott has spent most of the winter in protracted meetings, with excellent success; and his return to the work next year is very much desired.

Upper Sandusky, the first mission field of the M. E. church in the world, has become a prosperous station. The work of the year has been successful, and the people will rejoice if Brother Wiltsee is returned.

West Mansfield has been supplied this year by Rev. Wm. Craig. He has done good work, and a hundred souls have been saved and added to the church.

Rev. A. E. Smith was returned to York by the last conference, for the fourth year. Great success attended his labors on all lines of work—church building, repairing, and paying church debts, and raising money for benevolent purposes, and more than all, in soul-saving. In the middle of the year Bishop Andrews removed him to Celina Station, and Rev. E. A. Brother was sent to York for the rest of the year. He exactly fits in the niche made vacant by the removal of Brother Smith, and the people sent a petition for his appointment to that charge next year.

The financial pressure has been unusually severe in Delaware district this year. We have had no gas, nor oil, nor real estate boom to bring in money, and the crops in this region were a failure last year, and many of our farmers were compelled to borrow money to buy feed to keep their horses and cattle over the winter. For three-fourths of the year the collection of the pastor's salary in the rural districts was almost impossible. A bountiful harvest has brightened the prospects for the future, but there will be a deficiency on many of the circuits this year. In view of the stringency in money matters it was deemed expedient to put forth an extraordinary effort to awaken an interest in missions. Six missionary conventions were held in the district, and the people listened attentively to stirring appeals in behalf of our benevolent enterprises, and in spite of all discouragements the district reports —— dollars for missions.

Broadway will be reconstructed and strengthened by the addition of Newton, which is to be the home of the pastor. The name of the charge will be Newton. The golden age of this charge is in the future. To God alone, the preacher and people look with great confidence for a glorious future. And why not? The country is beautiful, the roads are excellent, pikes to all the preaching places. There are four comfortable churches and one more to be built this coming year. Brother Wm. Hains has served a part of this work faithfully and well for the last few years.

The senior member of our conference is no longer among us. For 61 years Rev. Henry E. Pilcher answered to the roll call of the conference on the first day of the session. But he has been translated to the general conference and church of the first born in heaven. Henry E. Pilcher was born in Virginia April 28, 1802, was converted on his 18th birthday, entered the Ohio conference in 1829 at the age of 27, continued in the active work 50 years, took a superannuated relation in 1879, and died in February, 1891, full of faith and full of years.

MISCELLANEOUS.

Revs. Berry and Ayers Change Their Relations.

At the close of Rev. Albright's report, Rev. G. H. Priddy presented the first report of the board of stewards on the apportionment for superannuated preachers and widows. He stated that about 50 per cent. of this would be paid.

The relation of Rev. Arkinson Berry was changed from that of supernumerary to superannuated, and he was referred to the board of stewards.

Dr. Rutledge insisted on enforcing a rule of the last conference which required presiding elders to report the amounts raised for general conference expenses. Three reports had been read, and this had not been done. He did not think this matter should be slighted, as the last general conference had borrowed $14,000 and never repaid it.

The presiding elders who had reported then announced how much they had raised.

Rev. Ayam reported on the matter of the second year class who had demanded another examination in logic. He stated that they had changed their minds and considered their examination fair and were willing to go over for another year.

The Delaware district pastors reported and their characters were passed.

An Aged Worker.

Dr. Belt stated that Rev. Joseph Ayers, the oldest effective minister in any conference in the United States had at last decided that he must give up and he moved that his relations be changed from effective to superannuated.

Dr. Ayers was introduced to the conference, and spoke briefly on his 60 years' work in the ministry of the Methodist church. In 1830 he united with the Central Ohio conference, two years later he went into Troy conference, where remained for 20 years, then he went into the North Ohio conference where he remained until the Central Ohio conference was organized, when he went into that and has there remained.

The speech of Dr. Ayers was very touching, and the scene was most affecting as this aged preacher stood before the conference and addressed them.

Tears stood in many eyes and his relations were changed by a unanimous vote, and the conference sang with feeling "Blessed be the tie that binds."

Dr. Ayers is at present residing at Columbus with his son.

Electing Delegates.

The election of four delegates to the general conference was then taken up, and considerable discussion and parliamentary wire pulling took place before the conference got to balloting.

Rev. A. C. Barnes introduced a long resolution, providing that if any more than four candidates received a majority of votes the four receiving the highest number of votes shall be declared elected. Also that ballots containing more or fewer names than the number to be voted for be cast out.

The Bishop remarked that the latter part of this resolution was hardly the thing, but he was not heeded.

On motion of Rev. Holdington, it was decided to divide this resolution and vote on the two parts separately.

After numerous amendments had been offered and considerable confusion, the first part was adopted.

Dr. Ayres then moved as an amendment that the conference elect delegates one at a time.

Rev. S. L. Roberts objected to this on the ground that it would take up too much time. This motion was lost.

After more discussion the latter part of the resolution regarding the throwing out of ballots that did not contain the proper number of names was laid on the table.

Prof. Williams moved that no ballot be counted that contained more names than the number to be voted for.

Dr. Belt moved as an amendment that ballots containing "more or less" names be thrown out.

Rev. Ayam raised the point of order that this was the same as the resolution that had been tabled.

The bishop first declared the point well taken, but afterwards reversed his ruling.

Rev. W. J. Hodges then presented a substitute looking to the same end but worded differently, as it provided that ballots containing "fewer or more names" than the number to be voted for be cast out.

Rev. Roberts spoke in favor of this substitute. Rev. Ayam opposed it, and Rev. Holding raised the point of order that this was the same as the resolution which had been tabled.

The bishop, however, overruled the point and the substitute carried.

Rev. W. J. Hodges, H. J. Bigley, C. R. Havighorst, J. L. Albritton and N. B. C. Love were appointed tellers, and Assistant Secretary Marsh was chosen to assist the tellers.

All full members of the conference were called within the bar, and the tellers received their instructions. The ballot was taken and the tellers retired.

The ballot resulted only in the election of Dr. Belt and was as follows:

Whole number of votes cast, 161; necessary to a choice, 81.

[illegible] 92; Whitlock, 76; Leave, 72; Pope, 53; Henderson, 68; Barnes, 76; Webster, 19; Albright, 51; Rutledge, 23; Young, 1; Waters, 11; Harmount, 4; Williams, 52; Fish, 14; Roberts, 7; Hodges, 1; Bethards, 8; Rowand, 1; Lance, 7; H. J. Bigley, 1; Ayam, 2; Helding, 1; Newton, 2; C. Hill, 1; Tanneyhill, 1; Wiltsie, 1; Donnan, 1.

The conference then proceeded to take another ballot.

There was some discussion as to whether the conference should remain in session until the second ballot was announced. The principal candidates were all anxious for this, but a motion to that effect was lost by a vote of 62 to 61. It was decided that when the conference adjourn it be until 2 o'clock this afternoon, and at that time the ballot should be announced.

American Bible Society.

While the tellers were counting the first ballot, Dr. Sanford Hunt, of the American Bible society, was introduced to the conference, and spoke for 15 minutes on the work of the society. "The American Bible society," said he, "is largely your society and for more than fifty years it has been recognized by the general conference as the agent for doing the Bible work of the Methodist Episcopal church. It is also an efficient and necessary arm of the foreign missionary service."

He then stated the financial condition of the society, and made a plea for more funds. Last year the society spent $74,000 more than it received and if this continued for another year all the surplus will be spent and the society will be obliged to cut down on appropriations. He also related at length the work of the society in foreign fields.

In this connection he gave the following figures showing the increase of Bible work. While at the beginning of this century there were but a few versions of the Bible, now the scriptures or parts thereof are printed in 113 languages and dialects of Asia, 60 languages and dialects of Africa, 45 of the North American Indians, and in over 60 of the island languages, besides the numerous languages of civilized countries. Thus the work of the society is increasing every year, but the collections to sustain it are not keeping pace. Dr. Hunt is a fine speaker of pleasing address and his re

FIRE ON ALL SIDES.

Brave Men Die While Fighting the Monster.

Hundreds of Cattle Killed by the Heat.

Men, Women and Children Barely Escape From the Path of the Conflagration With Their Lives.

St. Paul, Sept., 25.—J. A. Westby, government surveyor, has just come in from the upper Mississippi by way of the Duluth road and reports terrible devastation along the line.

He says hundreds of cattle are burned and many homesteads destroyed.

The train on which he came down stopped at one place and took on 18 men, women and children, settlers who barely escaped with their lives.

Unless heavy rains fall at once all the little villages and homesteads along the St. Paul & Duluth for 60 miles will be burned. There is no doubt, he says, that many human lives are lost and expensive logging outfits burned.

As to the losses in this vicinity no reliable estimate can yet be given. A. J. Lammars has lost four lumber camps and the Brennan Lumber company loses three.

A man came in and reports all the region between here and the lake burned over. Sandenberg & Berklaw Lumber company have had about 10,000,000 feet of standing pine burned; Lamb & Son, 25,000,000 feet, and Brennan probably 50,000,000.

Just what the loss on this will be cannot be discovered, until it is possible to enter the woods and make an examination. It will, however, be not less than one-third, and may possibly go as high as one-half of the the whole amount.

The danger is over at Finlayson, 12 miles north of here, and the women and children sent here for safety have returned to their homes.

One Mass of Flame.

Hinckley, Minn., Sept. 25.—From Wednesday morning until Thursday afternoon the destruction of the town was looked upon as almost a certainty, and as it is, the damage is by no means ended. Every possible precaution has been taken to prevent the disaster. Fire breaks have been plowed entirely around the town, the brush has been back-fired and every 200 feet barrels are placed, with bucket brigades constantly on the watch. Patrols are kept going night and day and the citizens are beginning to feel comparatively safe.

The forests are aflame in every direction. Clouds of smoke obscure the sun, and there is a pungent odor of burning pine.

Found Their Dead Bodies.

A party of six men started from one of the Brennan Lumber Co.'s camps to go to another, about two miles away. Dan Sullivan, his brother, and Thomas Johnson were of this party. After going a short way they got in front of the fire, and Dan Sullivan, missing his brother, went back with Johnson to look for him. That was the last seen of them alive. Their remains were found by John Brodie and their camp mates. The bodies were both badly burned.

From Various Points.

Pine City, Minn., Sept. 25.—Terrific forest fires are raging in this vicinity, and rapidly approaching the town. Several farmers in the vicinity lost their homes and other buildings yesterday, and two school houses were burned, the pupils escaping with difficulty. It is estimated that the loss of timber in this section has already reached $200,000, and that this is being increased fully $700 every hour.

Cumberland, Wis., Sept. 25.—Forest fires have been raging throughout Barron, Polk, Washburn and Burnett counties for several days, endangering all kinds of property and in several instances endangering life. The villages of Perley and Comstock in Barron county have been partially burned, also the sawmill, boarding house, shops, barns, lumber, etc., of O. A. Ritan & Co., of this city, located in Burnett county. Numerous farm houses, barns, wood, etc., have been burned throughout this section. Several hundred thousand feet of standing pine in Burnett county have been burned.

The smoke is almost suffocating in this city and fire is still raging on both sides.

Milwaukee, Wis., Sept. 25.—The forest fires completely surround the towns of Pittsville and Dexterville, Wood county, and the entire population is out fighting the flames. The gravest fears are felt tonight for both places. The 300 acre cranberry marsh of Samuel Bliss, near Dexterville, is entirely burned; loss, $25,000. Dispatches from Hurley report that rain have quieted the fire in that region. Near Weyauwauga, Waupaca county, two men are reported to have been burned to death.

OHIO WESLEYAN.

Dr. Hartupee Endows a Chair of History.

Delaware, O., Sept. 25.—The Ohio Wesleyan university, of this city, has become the recipient of a generous gift from Rev. G. H. Hartupee, of New London, O.

It consists of a deed to the university of a piece of Toledo property valued at $50,000. The property is located on Superior street, near the corner of Jefferson, and yields an income of $2,400 yearly. The gift was made to endow a history chair.

Dr. Hartupee is a graduate of the university and is now one of its trustees. He was for eight years a professor at Baldwin university, and was later elected to the presidency of the Central Tennessee college.

Another gift of $10,000 has been made to the university by a gentleman of London, O., who wishes his name withheld for the present. The gift is for the founding of a chair on the relation of philosophy to Christianity.

THEY FEARED DEATH.

Why Vicuna and Vidaurre Had to Flee.

They Were Officers of the Court Which Caused Eighteen Boys to be Put to Death.

Lima, Peru, Sept. 25.—The mysterious refugees who were smuggled aboard the flagship San Francisco in the harbor of Valparaiso the night before the vessel sailed, a fact which gave rise to the rumor that Balmaceda was one of them, were two in the number, Ovalle Vicuna, the deputy, and Colonel Vidaurre, the president of the court that tried the young men for conspiracy at Los Canos.

The prisoners, 42 in number, whose ages ranged from 16 to 18 years, were afterward massacred. It would have feared very hard with these two gentlemen had they been captured, as the men had they been in any way feeling against all those in any way connected with the massacre was very bitter. There are 50 Balmaceda refugees in Lima. They express doubts as to the stability of the present government in Chili and denounce its acts.

BY A BIG MAJORITY.

The Ohio M. E. Conference Votes in Favor of Women.

Zanesville, O., Sept. 25.—The principal event of the second day's session of the Ohio M. E. conference was the vote on the admission of women as lay delegates to the general conference, the vote standing 124 to 26 in favor of their admission.

Short breath, palpitation, pain in chest weak or faint spells, smothering, cured by Dr. Miles' New Heart Cure. Sold at druggists. Free treatise by mail. Miles Med. Co., Elkhart, Ind.

THE FIRELANDS.

The Quarterly Meeting Held in Greenwich.

Norwalk, O., Sept. 25.—The quarterly meeting of the Firelands Historical society was held in the M. E. church in Greenwich, Wednesday, September 23, a large number of the pioneers and their friends being in attendance.

The meeting opened at 10 o'clock a. m. with prayer by Rev. G. H. D Kay, of Greenwich. Mayor F. B. Nickerson then delivered an earnest and appropriate address of welcome, which was pleasantly responded to by the president, G. T. Stewart. N. S. Guthrie, a pioneer of Richland county, was introduced, and sang "Hail Columbia" in the old style, to the great delight of the audience. The president then addressed the meeting, making references to the pioneer history of Greenwich, as compiled by Marcus Mead, of that place.

A large number of interesting and valuable relics were presented and explanations of them given by the exhibitors.

A call was made requesting all persons over 85 years to announce themselves, and the following reported: G. W. Mattoon, 85 years; Mrs. May Fowler, 89; Joseph Bartlett, 87; Mrs. Hannah Hammond, 88; Mrs. Abbie Mead, 92; Jesse Hoag, 94, and a lady aged 93 whose name we failed to get.

Nine persons over 80 and under 85 years of age responded, and 12 between 75 and 80. Responses were then called for from those whose fathers served in the revolutionary war, and quite a large number responded, and still more when those were called whose grandfathers served in that war.

The meeting then adjourned for dinner, which was served in the hall by the citizens, and where the large audience was treated to a most elaborate repast, of which all partook with great relish.

The meeting assembled at 2 o'clock and first listened to a very eloquent and interesting address by Hon. L. C. Laylin upon "The Influence of Pioneer Organization upon the State."

Mr. Laylin's address was followed by more singing by Mr. Guthrie, and the remainder of the afternoon was given over to the pioneers present, who related their experiences in the settlement of Greenwich and other townships in the vicinity. They were intensely interesting to all, and at a late hour the meeting closed.

The local committee of arrangements, of which T. L. Mead was chairman, are entitled to the thanks of the association and its guests for the admirable arrangements made for the success of the meeting and the pleasure and comfort of all who were in attendance.

MILLIONS IN PENSIONS.

Commissioner Raum's Annual Report.

A Vast Sum of Money Distributed Among the Soldiers Who Stood In With the Administration.

Washington, Sept. 25.—The annual report of Commissioner Raum, of the Pension Bureau shows that on June 30, 1891, there were 676,100 pensioners borne on the rolls of the bureau, being 138,216 more than were carried on the rolls at the close of the last fiscal year.

They are classified as follows: Widows and daughters of Revolutionary soldiers, 23; army invalid pensioners, 413,597; army widows, minor children, etc., 108,537; navy invalid pensioners, 5,449; navy widows, minor children, etc., 2,568; survivors of the war of 1812, 7,590; survivors of the Mexican war, 16,579; widows of soldiers of the Mexican war, 6,946.

Following are the number of pensioners of the several classes granted under the act of June 27, 1890: Army invalid pensioners, 97,136; army widows, minor children, etc., 12,209; navy invalid pensioners, 3,976; navy widows, minor children, etc., 1,436. During the last fiscal year first payments were paid upon 131,160 original claims, requiring $31,391,538 for their payment. This is an increase in the number of original pensions over the year 1890 of 64,532. The aggregate cost, however, was $1,087,302 less.

There were 222,521 first payments of every description, requiring $38,552,274, being $60,592 less than was required for the 130,514 first payments made during the last fiscal year. The average value of first payments made during the year was $239.33, and the average value of first payments on claims allowed under the act of June 27, 1890, was $71.28. The average value of first payments for the preceding year was $485.71, being a reduction in the average first payments of $246.88.

The aggregate annual value of the 676,150 pensions on the roll June 31, 1891, was $89,247,200, and the average annual value of each pension was $139.99, and the average annual value of each pension under the act of June 27, 1890, was $121.51.

At the close of the fiscal year there were 38,604 pensioners on the roll who remained unpaid for the want of time, and who were entitled to receive $4,883,242, which will be paid out of the appropriation for the current fiscal year, and there remained at the close of the fiscal year in the hands of the several pension agents the sum of $5,713,852.84, which has since been covered into the treasury. This amount added to $3,607,133.22 of the pension amount not drawn from the treasury aggregates $9,320,986.06 of the appropriation which was not expended. There will be a deficiency in the appropriation for the payment of fees and expenses of examining surgeons of about $80,000.

The total amount disbursed on account of pensions, expenses, etc., during the fiscal year was $118,548,959.71, as compared with $106,493,890.19 disbursed during the preceding fiscal year. So that it appears that 138,216 pensions were added to the rolls during the fiscal year just closed, at an increased cost to the nation of $12,055,069, as compared with the expenditures for the previous fiscal year, and said expenditure includes $4,357,347 paid upon vouchers remaining unpaid at the close of the year. The largest number of certificates issued to any class was 4,693 to men who served thirty-six months. The age of the greatest number of pensioners under both the old and new law was forty-seven years. During the last 20,525 pensioners were dropped from the rolls for various causes, and of this number 13,229 were dropped by reason of death. The loss to the pension rolls by the decease of widows and dependent mothers and fathers was at the rate of 25 per thousand in 1891. It is estimated that of the soldiers who served the country during the late war 1,004,658 were killed in battle or died during and since the war. On June 30, last, 124,750 of these deceased soldiers were represented on the pension rolls by their widows or other dependents.

There are about 1,208,707 soldiers of the Union now living, and of the survivors 520,158 are now on the pension rolls. There are, therefore, 688,549 survivors who are not pensioned, and 879,908 deceased soldiers not represented on the pension rolls. The Commissioner renews his recommendation of last years as to the readjustment of the pension ratings under the act of March 3, 1883, and March 4, 1890.

FIENDS AT WORK.

Several Attempts Made to Wreck Trains in Ohio.

Akron, O., Sept. 25.—Railroad trackmen last night found a tie across the Erie track and two more near the southern corporation limits on the Cleveland, Akron & Columbus track. When they went to remove the ties three men threw stones at them. Officers hunted them for two hours but could not capture them. Express trains passed through on the Erie and C., A. & C. shortly afterwards, and torpedoes were put on the tracks to warn the later trains to go slow. A tie was found by Sheriff Buen the night before on the C., A. & C. track about a mile further south.

SENSATIONAL SCENES.

New York, Sept. 25.—A special to the Sun from Ottawa says there was an exciting scene yesterday in the committee which was investigating the serious charges formulated against Secretary of State Chapleau. Lister had evidence of a most convincing character against the secretary, and he directly charged him with boodling.

Chapleau called his majority to vote Lister down, and then a wild scene followed. The government, however, by bulldozing and bluff, carried the day.

O'CONNOR WON THE RACE

Hanlon Defeated by Half a Length.

The Two Australians Not In the Contest.

A Splendid Regatta in Which Much Money Changed Hands—The Race in Detail.

New Westminster, B. C., Sept. 25.—The boat race between Hanlon and O'Connor, of Canada, and Dutch and Stevenson, of Australia, yesterday, attracted a huge crowd. The weather was all that could be desired.

Five thousand persons came from Vancouver and Victoria and other points sent as many more. Every possible place for obtaining a view of the event was black with people.

Pools sold half an hour before the start were: OConnor, 10; Dutch, 6; Hanlan and Stevenson, 6.

At least 25,000 persons viewed the contest which was well fought between the Torontonians, but was a mere farce after the first mile as far as the Australians, Dutch and Stevenson were concerned.

At 1 o'clock a fast tide was running out but the breeze was directly upstream. The water, however, was calm. Shortly after 1 o'clock the men got into position as follows: Near side Dutch; next Stevenson and O'Connor, the Australians having the advantage of positions.

The referee and starter was J. S. Clute. At 1:25 the word "go" was given and all the men got away in splendid style. Dutch pulled 31 strokes to the minute, Stevenson the same number, while O'Connor and Hanlan pulled 30 strokes with apparently a more effective result.

For a time the race was a fine exhibition, the boats keeping well in line, with O'Connor, perhaps, having a slight lead. Hanlan was next and the Australians brought up the rear.

After the first 300 yards they increased their strokes to 32, but the distance between their boat and that of the Canadians gradually increased. At the turn O'Connor led by four lengths, while Dutch and Stevenson followed Hanlan in procession form.

The time at the turn was as follows: O'Connor, 9:25; Hanlan, 9:29; Dutch, 9:55 and Stevenson 10 minutes.

Dutch now made a desperate effort to catch the leaders, and although he decreased the difference between himself and Hanlan he failed to gain any appreciable advantage.

Opposite the woolen mills it was evident that the race was virtually over as far as the Australians were concerned. The cheering from the shore at this time was tremendous and many steamers added to the din by tooting their whistles.

Near Wilson's boat house Hanlan rested on his oars and took a drink from the Frazer river. He then settled down to work, and gave a spurt which augured well in his effort to overtake O'Connor.

O'Connor seemed in no way disconcerted by Hanlan's effort. At Mary street the distance between the Torontonians was not more than two lengths. The Australians were nowhere. Dutch was evidently much distressed, pulling a wild and uneven stroke, and showing a lack of that staying power with which his friends had credited him. Stevenson was way behind and demoralized.

From this on Hanlon did some splendid spurting but failed to overtake O'Connor, although he had got within half a length of him when O'Connor crossed the line. The winner's time was 20 minutes 55 seconds.

Dutch was at least ten lengths behind Hanlan at the finish, while Stevenson was five lengths behind him. A large amount of money changed hands on the result. There were virtually but two in the race after the first half mile. O'Connor and Hanlan sticking well together, Dutch and Stevenson doing likewise far in the rear. There was tremendous enthusiasm over the result.

SOMEBODY BLUNDERED,

And Seven Dead Bodies are the Result.

A Freight Crashes Into a Work Train and Scatters Death On All Sides.

New Castle, Pa., Sept. 25.—A terrible wreck occurred on the Pittsburg & Western railroad at McKim's Siding, a station a short distance on the other side of Zelienople, Butler county. At this point a work train with a force of 50 men was engaged in putting down a new track.

Yesterday morning the wreck train got out of the way of a freight train going west, but the crew did not know that a second section of the same number was following five minutes later.

The wreck train again pulled out on the main track, and the men were engaged in throwing off dirt when the second section struck the work train with great force. Cars were piled up in a shapeless mass. The engines were a mass of iron and wood, and the hot steam and boiling water poured over the unfortunate ones caught in the jam.

For a moment after the collision there was silence. Then the air was broken by the shrieks of the dying, making the scene so terrible that one of the trainmen who had escaped injury fainted with horror.

The trainmen and laborers who were not injured began at once to assist those imprisoned in the debris. Several arms and legs were found in several different places, and the head of an Italian was found 20 feet way from the body. The engineer, John Houghton, who had bravely done his best to stop his engine attached to the freight train, was found wedged in broken and shapeless iron.

By 11 o'clock the bodies of six Italian laborers had been taken from the wreck, and with the killing of Engineer Houghton this swells the number to seven. There were at least twenty men injured, several of whom cannot recover. Engineer Houghton was the only American killed.

Assistance was telegraphed for to Zelienople, and in a short time physicians and citizens were at the scene, rendering all the assistance in their power.

The coroner of Butler county has been sent for and he will begin the inquest immediately upon his arrival. All the trains were delayed, but the large force of men at work will soon clear the track.

Engineer Houghton was badly cut up and his face was hardly recognizable when he was taken from under the engine. He was aged about 40 years. Had been on the road since 1888 and was regarded as a faithful and competent employe. He was married and with his wife and three children lived at Bennett Station.

PRIZE FIGHTERS' TRIALS.

New Orleans, Sept. 25.—The prize fighting matter took a new turn yesterday. The grand jury virtually abandoned the indictments against Tommy Warren and Cal McCarthy for training for a fight, and yesterday indicted them for engaging in the fight. The men were arrested and furnished bonds. The trial will take place next Tuesday. The Olympic club is keeping the men here at its expense.

CHARGED WITH THEFT.

New York, Sept. 25.—A special cable dispatch from Valparaiso to the Herald says that Col. Carvallo, who left Iquimbo on an English steamer when that town was surrendered to the junta, was taken from the steamer when she stopped at Iquique on her way north. He was forcibly taken by a number of armed men on the charge of appropriating public money.

THE LAKE REGIONS

THE PREVALENCE OF CATARRH AND LUNG TROUBLES.

Something About the Nature and Result of the Disease—The Statement of Miss Schnuringer.

In the lake climate catarrh is unquestionably the cause of more deaths than any other disease. At first it is as a rule a little thing, merely a cold in the head. But in a climate like ours one cold is not entirely cured before another follows. A succession of cold constitutes chronic catarrh. A strong and healthy constitution will suffer only inconvenience from catarrh, but all others run a great risk from what may follow. The inflammation of the nose and back part of the throat gradually extends downward, involving first the larynx and vocal cords, ruining the voice for singing, and then proceeds on its march still farther. The trachea or windpipe is next attacked; following that the large bronchial tubes; then the bronchioles; and, lastly, the lungs themselves. The lungs, however, are not the only sufferer, for a great deal of this nauseating mucus secreted in the back part of the throat finds its way into the stomach, disarranges digestion, and produces various forms of stomachic and intestinal dyspepsia. "A long catalogue of evils to follow such a little thing as a cold, isn't it? And yet everyone of them might happen, and every one of them does happen in hundreds and thousands of instances. The health is broken, the constitution weakened, and, although the catarrh itself may not be the actual cause of death, still indirectly, by so weakening the system that it is unable to resist the attack of other diseases, it is."

Miss Louise Schnuringer, 1631 Michigan St

That Drs. Copeland and Buffett are notably if not wonderfully successful in treating and curing catarrh in this region the columns of the daily papers show beyond a doubt. Another of the ladies to furnish direct and emphatic testimony of the results of their treatment is Miss Louise Schnuringer, 1631 Michigan street. She says:

"I had what the doctors called acute throat trouble. It started with the sore throat, which caused a continual swelling, and although under treatment it could not be reduced.

"I at first paid but little attention to it, but as I was getting no relief I began to get alarmed. The mucous would gather in my throat and in the head, completely stopping up the nasal passage. After this I began to experience

"TERRIBLE HEADACHES.

"At this time my throat had assumed such a condition that I could take nothing but liquid food, and on this account each day I was gradually being reduced in weight. A short time ago my mamma brought me to Drs. Copeland and Buffett and placed me in their charge, and now I am

"ENTIRELY CURED.

"No more headaches, no more dropping of mucus. I can eat well and my throat has assumed its normal condition."

The story seeming truly wonderful, the writer was induced to call upon Louise's mother. She was graciously received, and in speaking of her daughter's case, says: "Yes, what my daughter says is really true. She was almost a wreck, and we had done all we could to have her cured. Why, when she wanted a drink of water I would have to hold her ears and nose in order that she might swallow. In addition to what my daughter has said, I would add that Drs. Copeland and Buffett have done wonders in her case and to any and all I will be only too glad to tell them of my daughter's recovery."

$5.00 PER MONTH.

CATARRH AND ALL DISEASES OF THE NOSE and THROAT treated for $5.00 PER MONTH. MEDICINES FURNISHED FREE.

Doctors Copeland and Buffett.

The Copeland Medical institute is permanently located at 706 Madison street DR. W. H. COPELAND, and DR. G. P BUFFETT consulting physicians. Specialties: Catarrh and all diseases of the eye, ear, throat and lungs. Chronic diseases. Office hours, 9 to 11 a. m., 2 to 5 p. m., 7 to 9 p. m. Sunday, 9 to 11 a. m., 2 to 4 p. m.

Nervous Diseases Cured.

Should be provided with Ayer's Pills. No other aperient is in such general demand or so highly recommended by the profession. Mild but thorough in operation, these pills are the best of all remedies for constipation, biliousness, heartburn, indigestion, flatulency, loss of appetite, liver complaint, and sick headache. They break up colds, fevers, and malaria, relieve rheumatism and neuralgia, and are indispensable to travelers, either by land or sea. Sugar-coated and compounded of the purest vegetable cathartics, they may be taken with impunity by old and young. Physicians recommend these pills in preference to any other. H. W. Hersh, Judsonia, Ark., says: "In 1853, by the advice of a friend, I began the use of Ayer's Pills as a remedy for biliousness, constipation, high fevers, and colds. They served me better than anything I had previously tried, and I have used them in attacks of that sort ever since."

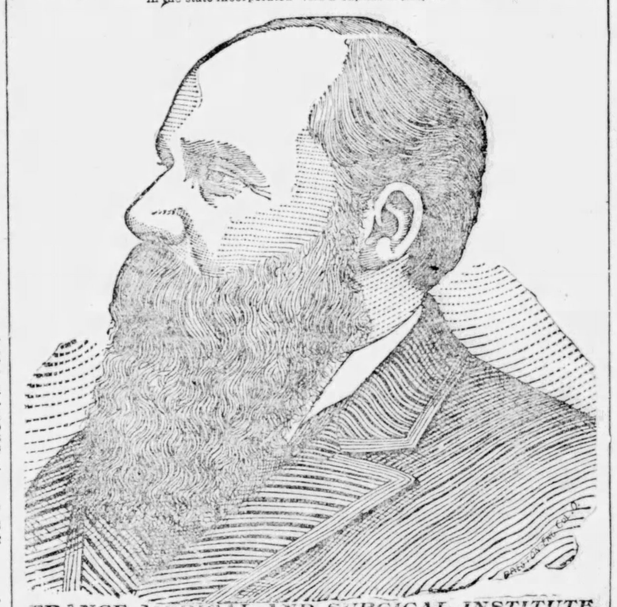
No Money Required of Responsible Parties to Commence Treatment.
DOCTORS FRANCE AND OTTMAN,
Formerly of New York, now of the France Medical and Surgical Institute, Columbus Ohio, by request of many friends and patients, has decided to visit
TOLEDO, WEDNESDAY, SEPTEMBER 30.
Consultation and Examination Free and Strictly Confidential in the Private Parlor of the Burnett House from 8 a. m. to 9 p. m. one day only.
The Doctors describe the different diseases better than the sick can themselves. It is a wonderful gift for any one to possess. Their diagnostic powers have created wonders throughout the country.
The France Medical and Surgical Institute of Columbus, Ohio, is the only Medical Institute in the state incorporated with a capital of $300,000.



FRANCE MEDICAL AND SURGICAL INSTITUTE,
38 & 40 W. Gay St., one block N. of State House, Columbus, O. Incorporated, 1886. Capital, $300,000.
DRS. FRANCE AND OTTMAN, of New York, the well known and successful Specialists in Chronic Diseases and Diseases of the Eye and Ear, on account of their large practice in Ohio, have established the FRANCE MEDICAL INSTITUTE, where all forms of Chronic, Nervous and Private Diseases will be successfully treated on the most Scientific principles. They are ably assisted by a full corps of Experimental Physicians and Surgeons, each one being a well known specialist in his profession.
CANCER positively cured without pain or use of the knife, by a new method.
IMPORTANT TO LADIES.—DR. FRANCE, after years of experience, has discovered the greatest cure known for all diseases peculiar to the sex. Female diseases positively cured by the new remedy, OLIVE BLOSSOM. The cure is effected by home treatment. Entirely harmless and easily applied. Consultation Free and Strictly Confidential. Correspondence promptly answered.

YOUNG MEN—Who have become victims of solitary vice, that dreadful and destructive habit, which annually sweeps to an untimely grave thousands of young men of exalted talent and brilliant intellect, may call with confidence.
DRS. FRANCE AND OTTMAN, after years of experience, have discovered the greatest cure known for weakness in the back and limbs, involuntary discharges, impotency, general debility, nervousness, lame-ness, confusion of ideas, palpitation of the heart, timidity, trembling, diseases of sight, or giddiness, diseases of the head, throat, nose, or skin, affections of the liver, lungs, stomach, or bowels—those terrible disorders arising from the solitary vice of youth—and secret practices, blighting their most radiant hopes or anticipations, rendering marriage impossible. Take one candid thought before it is too late. A week or month may place your case beyond the reach of help. Our method of treatment will speedily and permanently cure the most obstinate case, and absolutely restore perfect manhood.
TO MIDDLE-AGED MEN.—There are many from the age of 40 to 60 who are troubled with frequent evacuations of the bladder, often accompanied by a slight burning or smarting sensation, weakening the system in a manner the patient cannot account for. On examination of the urinary deposits, a ropy sediment will be found, or the color will be a thin or milkish hue. There are many men who die of this difficulty, ignorant of the cause, which is a second stage of seminal weakness. We will guarantee a perfect cure in all such cases, and a healthy restoration of the genito-urinary organs.
DISEASES OF WOMEN.—We have a special department, thoroughly organized, and devoted exclusively to the treatment of diseases of women. Every case consulting our specialists, whether by letter or in person, is given the most careful and considerate attention. Important card, and we get few which have not baffled the skill of all the home physicians) have the benefit of a full council of skilled specialists. In treatment of diseases peculiar to females, our success has been marked, over two-thirds of our patients being ladies, old, young, married, single, rich and poor. Our method is an irely free from objectionable features of the general practice. Painful, Painful, Painful treatment. We seldom find it necessary. We prepare remedies, constitutional and local, as the case demands, and instruct ladies how to treat themselves.
MARRIAGE.—Married persons, or young men contemplating marriage, aware of physical weakness, loss of procreative powers, impotency, or any other disqualification, speedily restored.
PRIVATE DISEASES.—Blood Poison, Venereal Taint, Gleet, Stricture, Seminal Emissions, Loss of Sexual Power, Weakness of Sexual Organs, Want of Desire in Male or Female, whether from imprudent habits of youth or sexual habits of mature years, or any cause that debilitates the sexual functions, speedily and permanently cured. Consultation free and strictly confidential. Absolute cures guaranteed. Medicines sent free from observation to all parts of the United States.
EPILEPSY OR FITS.—Positively cured by a new and never-failing method. Testimonials furnished.
FREE EXAMINATION OF THE URINE.—Each person applying for medical treatment should send or bring from 2 to 4 ounces of urine (that passed first in the morning preferred), which will receive a careful chemical and microscopical examination, and if requested a written analysis will be given.
WONDERFUL CURES Perfected in old cases which have been neglected or unskillfully treated. No experiments or failures. Parties treated by mail or express, but where possible, personal consultation is preferred. Curable cases guaranteed. No risks incurred. Cases and correspondence confidential. Treatment sent C. O. D. to any part of U. S. List of 130 questions free. Address, with postage, DR. FRANCE, Nos. 38 and 40 W. Gay St., Columbus, O.

Notice to Contractors.
Islington Street Paving.
SEALED PROPOSALS WILL BE RECEIVED by the undersigned, up to 12 o'clock at noon of
THE 5th DAY OF OCTOBER, 1891,
for improving Islington street, from Collingwood avenue to Fulton street, by paving the central twenty-six feet thereof with fire brick, cedar blocks or Trinidad asphalt, together with the necessary grading, curbing, crosswalks, drainage, etc.
The contractor or contractors who shall do the work herein provided for shall be paid in cash within ninety days after completion of the work and acceptance thereof by the city.
All bids must be written with ink and the price of each item shall be written out in full as well as in figures. Each bid must contain the full name of every person interested in the same. All parties bidding will be treated alike. A certified check on a bank doing a regular banking business in the city of Toledo, and accompanied by an agreement signed by the bidder and two disinterested persons, guaranteeing that if the bid is accepted a contract will be entered into—otherwise the amount deposited to be forfeited to the city; and in case a contract is entered into, said deposit to remain until first estimate of work done (or double the amount of deposit) is reported to the Common Council.
Bidders will be required to indorse their names on the outside of the envelope containing their proposal, and what the bid is for, the same to be filed with the city clerk. Bids not filed in accordance with the above requirements will be rejected.
Blank bids and envelopes can be obtained of the undersigned or of the city civil engineer.
Bidders must specify the time within which they will commence and complete the work after the acceptance of their bid.
Plans and specifications can be seen at the office of the city civil engineer.
The council reserves the right to reject any or all bids.
By order of the council.
C. H. DURIAN, City Clerk.

PRESAGES A VICTORY.

Democrats United and Very Aggressive.

An Incident of the Memorable Hoadly Campaign.

Senator McDonald's Medicine—Interview With Leading Democrats—Harmony All Along the Line.

Ottawa, O., Sept. 25.—(Special)—Putnam county, always good for a democratic majority of from 1,800 to 1,900, will roll up a majority of not less than 2,000 for Gov. Campbell, the gallant leader of the Ohio democracy, this year.

There never was a time when democrats were so enthusiastic and harmonious. Bickerings and party disputes have been dropped by the democratic party in northwestern Ohio, by common consent, and, in fact, the same state of affairs exists all over the state.

Whatever of fighting that will be indulged in by democrats this year, will be against the common enemy, the republican party, and its leader McKinley. The policy of that party is not directed in the interests of the common people, and as the campaign of education progresses, democrats become more aggressive and the enemy more defensive.

Putnam county democrats have not yet formally opened their campaign, but they have done considerable hustling and the good effect of this spirit of wakefulness is already perceptible. Democrats all over Ohio are up and doing and will continue the good work until the polls close on election day.

Hon. L. C. Cole, secretary of the democratic state executive committee, was here yesterday attending the senatorial convention, and he said to the writer:

"I have never seen so much enthusiasm as is displayed by democrats in Ohio this year. The committee is besieged from all portions of the state, by inquiries for documents and speakers, although the campaign is scarcely opened. The people seem to desire information on the tariff question, and we are sending tons of stuff out."

"What do you think of Gov. Campbell's prospects, so far?"

"Gov. Campbell will certainly be elected. He has regained his health and will take the road next Monday for two or more speeches per day. The last two weeks of the campaign he will make a grand tour of the state by special train, stopping long enough at cities and towns to make a flying speech. He will make from ten to fifteen speeches per day. McKinley has been challenged by the governor for eight joint discussions to follow the Ada meeting and he can scarcely do otherwise than accept.

"Gov. Campbell is a man of destiny, and we believe in his star. As an illustration of his luck, it may be stated that he won the opening and closing of the coming debate at Ada by flipping a silver dollar."

"What will the people's party do?"

"Difficult to tell, but it may poll thirty or forty thousand votes in the state. Many accessions to the democratic cause are reported daily, and in many cases the deserters are leading republicans who cannot stand the position assumed by Major McKinley on the tariff. We anticipate a glorious victory in November."

Representative McClure, of Putnam county, is confident of democratic success.

"Putnam county democrats," said he, "are thoroughly aroused and our majority will be increased this year. The people will not stand any more taxation, and the past record of the democratic party is sufficient to warrant the assertion that the ascendancy of that party will mean lower taxes and honest, economical government.

"So far as Gov. Campbell is concerned his election will mean much to the democracy of the nation. It will mean that the principle of protection as illustrated by the McKinley bill, and expounded by its author, are not American nor democratic, and that the opposition of the republican candidate will give the high-tax robbers a blow from which they will never recover."

So far as the nomination of Ryan and Canary is concerned there was nothing but a sentiment of universal commendation expressed. The ticket suited everybody.

Mr. W. T. Platt, of Hancock, said after the convention: "I was a candidate for one of the nominations, but it is perhaps better as it is. The ticket will have my hearty support and the democracy of Hancock county will roll up a majority for it."

Herman Groschner, of Napoleon, the new chairman of the senatorial committee, said:

"We will give Ryan and Canary a round 1,000 majority in Henry county. The ticket is unusually strong and the action of the convention insures its success."

Dr. Huber, of Ottawa, one of the leading democratic hustlers and an old citizen, is confident that the democracy of Ohio will achieve a wonderful victory this fall. Dr. Huber is a remarkably well-informed gentleman—jolly, good-natured and, best of all, every portion of his make-up is democratic.

They relate a laughable incident which occurred at Ottawa during the Hoadly campaign, at the doctor's expense:

Dr. Huber drove Gov. Hoadly over to Glandorf in his own conveyance, and as they journeyed along the governor kept making remarks about the country and the people.

"This is a very happy community, is it not, doctor?" interrogated the governor.

"Yes, sir, very much so," returned the doctor. "The people are industrious, contented, and at peace with the world."

Finally they passed the Glandorf burying ground, and the governor, noticing the large number of graves, said:

"Doctor, it appears strange that there should be so many people buried there. The population of that city of the dead seems to be greater than that of the town."

"That is not strange, governor," retorted the doctor. "I have been the family physician of these people for 30 years."

Dr. Huber tells another good joke on Senator McDonald, of Indiana, now deceased.

"The senator spoke here a few years ago," said the doctor to the Bee, "and at the close of his address he came to me and said: 'Doctor, I am sick and want some medicine. If you prescribe for me and it does not suit me, however, I will not take it.'

"All right, senator," said I "what's the matter with you?"

"Well I can hardly describe my feelings, maybe after speech you know, and am feeling badly."

"Senator," I said, "if I was in the speech-making business I'll tell you what kind of medicine I would take. I would take a good big drink of whisky before I began, and two after I had finished."

"Doctor, you have hit it. Just the thing I want. That's what I always do," responded Senator McDonald gleefully."

Another interesting tale is told of Dr. Huber. In the precinct of Glandorf there are no republican voters, and consequently the law requiring judges of opposite politics to sit at elections could not be complied with. Dr. Huber was a judge at an election held a few years ago. While the vote was being counted he was sitting a few feet away smoking.

The judges, strange to say, found a republican ticket. They were astounded and did not know what to do. They finally called on the doctor.

"What does this mean, doctor," said they.

The doctor took the ticket, looked it all over, and after scratching his head a moment, said:

"Count that ticket out. There's something wrong."

Capt. Berry will be assigned to make several speeches in Putnam county week after next, by the democratic state executive committee.

A SPECIAL INVITATION

To the Members of the Thirty-sixth Central Ohio Conference.

J. W. Greene & Co., the piano and organ dealers, extend a cordial invitation to the members of conference to visit their music rooms in the new Pythian Castle, and inspect the Vocalion organ they have just received. The Vocalion is truly a wonderful musical instrument costing but little more than the ordinary Cabinet organ, yet giving the full, rich Diapason tones as found in the large pipe organ. It is compact in form taking up but little space, making it specially desirable for small churches, of moderate means, enabling them to render their musical services with the same rich tone effects as larger and more favored churches using pipe organs. Messrs. Greene & Co. will take pleasure in showing this fine instrument to all members of the conference favoring them with a call at their music stores in Pythian Castle.

BLAZE IN MINNEAPOLIS.

A Terrible Calamity Narrowly Averted.

Unfortunate Firemen Hemmed in on the Top of a Building With Fire on All Sides.

Minneapolis, September 25.—The Flour City had a narrow escape yesterday afternoon from a terrible calamity, both to her brave firemen and to her flour mills. A fierce fire and a strong wind were the two elements of danger, and only through the noble and self-sacrificing efforts of the fire department and after serious injury and possible death of several of the brave firemen was the threatened disaster averted.

A brisk and blustering breeze was blowing in the afternoon, and when at 2:20 o'clock the alarm bell called the department to the corner of Ninth avenue south and Third street it was evident there was work ahead, and work of the hardest kind.

The fire was in the five story brick building of the Moore Wood Carving Machine company, and the inflamable nature of the goods and stock caused a rapid spread of the flames, which quickly burst through the windows and rolled rapidly up through the building. Within five minutes the fire burst through the roof and the buildings were doomed.

The firemen had to turn their attention to adjoining property to prevent the spread of the flames. Elevator C stood close behind the now blazing building, and the flames seized hold of it in spite of the many streams of water.

Soon the roof of the elevator was on fire, and although but fifteen minutes from the start of the fire the Moore building was gutted, and the firemen had barely escaped from it when the walls collapsed.

The better to fight the fire on elevator C, a score of firemen were on the roof of the annex, unconscious of danger beneath them. There was a sudden explosion, and a great stream of fire burst from the end, quickly followed by one to the left of the men, and through the roof, and then on the right.

The great crowd was appalled as the dozen firemen were shut from view by the columns of flame and smoke that rolled up. A momentary break showed that the men were fighting for life in a desperate attempt to get on the three ladders which stood near together.

The break assisted them, but a groan escaped from the multitude as four fell or jumped from their narrow footing. Again the smoke arose and cleared, and there, on the very verge, stood a fireman, apparently dazed, and not knowing what to do. "Slide on the hose," yelled the crowd. The man heard, and grabbing the big hose at his feet, he slid down through the scorching flames and reached the ground without dropping.

The work of rescuing the firemen was prompt from necessity. For a time it was thought the men had been dropped into the flames, but all have since been accounted for. The names of the injured are as follows:

List of the Injured.

Assistant Chief Canterbury, leg broken, badly burned, and internally injured.

Capt. Lent. No. 4 truck, badly burned.

Charles Mitchell, No. 8 hose, probably fatally injured.

Lieut. John Guise, badly burned, leg broken.

William Cole, badly burned.

Capt. Foster, badly burned, insensible, hip fractured.

Capt. William Malone, badly burned.

Sandy Hamilton, captain No. 11, leg broken, face burned.

S. M. Lockhart, pipeman, back injured.

Lieut. Kelly, of No. 5, burned.

Robert Vance, face burned and head gashed.

J. O. Hearn, burned badly.

William Mitchell, burned.

Peter Coleman, head and legs injured.

Billy O'Neil, No. 3 truck, badly burned.

James Hoffstadt, head hurt.

C. H. Miner, left arm broken and head gashed.

Ed Wilcox, back hurt.

Two or three of the injured are in a precarious condition, but were still alive at last reports.

The Loss.

Elevator C was owned and operated by Pratt & Porter, under the name of the Empire Elevator company. The capacity of the elevator was 140,000 bushels, and the stock of wheat on hand when the fire broke out was about 75,000 bushels. There are two large annexes to the elevator, whose combined capacity is 65,000 bushels. These were leased by the Milwaukee road of Pratt & Porter. The loss on the elevator and contents aggregates $100,000, on which there was $78,000 insurance. The Moore Wood Carving Machine company lost much valuable machinery, their loss reaching $50,000 with an insurance of only $8,000. The Kansas City Grain and Feed company's storehouse was consumed, loss $2,500, insurance $1,000. The block of frame and brick stores on Washington avenue, the yards of the Mill Wood company, and a few smaller structures were destroyed or badly damaged before the flames were under control. The loss on these will foot up about $25,000, with $2,000 insurance. The total loss is placed at $197,500, and the total insurance $107,000.

Taylor's Flour is selling just as low as a year ago, notwithstanding the great crop shortage in Europe.

CONSTERNATION SPREADING

Among the Lake Shore Railroad Agents.

Heads Being Chopped Off by the Wholesale—Other Railroad Matters of Local Interest.

Consternation is spreading among the Lake Shore agents. Heads are being chopped off right and left, and no one knows where or when the axe is going to fall next. Agents have been discharged at Painsville, Erie Clyde, Cleveland, Norwalk, Elyria, Oberlin and Adrian, and the reason for it all, it is said, is because the the agents have been detected in receiving commissions.

The agents say they must receive the commissions to make both ends meet at the wages they are receiving, most of whom along the line are mad at the way they have been and are being treated and it is rumored that there will also be a good many resignations.

Toledo Lines Forced to It.

A prominent general passenger agent of this city, speaking of the attitude of the Toledo lines toward the Chicago & Alton in the present boycott against that road, says: "The smaller railroads entering Toledo have not the slightest desire to continue the fight against the Alton in refusing to ticket passengers over that line, but they are compelled to for the reason that they have no direct connection with the Alton. They have to give their business to one of the larger east and west lines on which no ticketing over the Alton is done. If we were to issue a ticket as we desire it would only be refused when the passenger left our lines, so what are we to do but to submit to circumstances?"

Cinders Here and There.

The Lake Shore has ladies for agents at four stations.

The Wheeling & Lake Erie pay car is down the line to-day.

Chas. Tappin, of Buffalo, general manager of the Nickel Plate, is in town to-day.

A rate of $2 50 per ton has been authorized on sea coal from Cleveland to East St. Louis.

District Passenger Agent H. A. Wilson, of the C., H. V. & T., went down the line this morning.

Assistant General Freight Agent H. J. Booth, of the Wheeling & Lake Erie, is out of the city to-day.

Division Freight Agent J. M. Osborn, of the Wabash, is taking a trip over the Illinois division of the road.

General Manager J. M. Ferris and President Buck, of the Toledo & Ohio system, are on a trip over the line.

General Freight and Passenger Agent W. H. Bennett, of the T., A. A. & N. M., has returned from Chicago.

Roads in this vicinity have experienced a scarcity of water for the past month and the situation does not improve.

The earnings of the Toledo, Columbus & Cincinnati road for the third week in September amounted to $6,271, an increase of $68.

A rate of one and one-third fares for the round trip has been authorized to the Carriage Builders' national association at Cincinnati, Oct. 20-22.

The earnings of the Toledo & Ohio Central railroad for the third week in September, were $31,064, a decrease of $3,008 compared with the same week of last year.

The earnings of the Toledo, St. Louis & Kansas City railroad for the third week of this month were $41,469, an increase of $11,067 over the same week of last year.

The Central Traffic association has authorized a rate of 4½ cents per 100 pounds on bar, bolts and sheet iron in carloads, minimum weight, from Toledo to Detroit.

Excursion rates on the certificate plan have been authorized for the annual convention of the American Bankers' association, at New Orleans, November 11 and 12.

The rate of 12 cents per barrel on lime in car loads, authorized from Sandusky to Akron and New Portage, has been advanced by agreement of lines interested to 15 cents.

The Toledo & Ohio Central is out of water at Corning, and engines have to be sent from there to New Lexington, 12 miles distant, or to Gloucester, eight miles the other way.

Reduced rates have been refused to the Sixth Ohio Veteran Cavalry at Salem, O., Oct. 6; Church of God Ohio Eldership, Wooster, O.; Ohio German Conference of the United Brethren church at Cleveland, and the conference of the M. E. church at Toledo.

The statement in the BEE that the Sunday trains No. 21, 23, 29 and 30 on the Flint & Pere Marquette railroad, between Toledo, Addison, Marshall and Yorkville, have been taken off, should have referred to the C., J. & M. There is no change on the F. & P. M.

DETROIT ENTERTAINED,

Toledo City Officials and Others

Enjoy a Day's Outing Yesterday—Lunches Until One Couldn't. Lunch Any More and Entertainment Fit for Gods.

They just went to have a good time, and they had it. In fact it was a big surprise for them; they didn't expect a quarter of the ovation they received. It took their breath away and pleased them immensely. They were met with regal display, escorted, pampered, feasted, delighted in a thousand different ways, and nearly smothered with kindness. Midst all the music, din and clash of the meeting, the chief representatives of Toledo and Detroit clasped hands and pledged the eternal friendship of their respective cities.

The event referred to was yesterday's pilgrimage of Toledo's officials to Detroit. It was a great party. Anybody would turn twice to see it pass. One couldn't help admiring the tout ensemble. They were all there as the following roster shows.

Mayor V J Emmick, James Pheatt, Frank Tanner, Phil Hassenzahl, Chas Neuendorf, W J Albrecht, John Huberich, City Clerk Chas Durian, Chief of Police Edward O'Dwyer, Michael C Fogarty, Sam F Tanner, T W Wheeler, John Streicher, Henry Streicher, K P Swain, Chas. Schmahl, Wm Taylor, L W Walker, W A Caldwell, F E Cole, Jno R Miller, Henry Thorspeck, H J Bower, Wm Kirby, Police Commissioner Kruse, Herman Baumbach, John E Gunckel, Sanitary Sergeant Graham, Sergeant at Arms O'Sullivan, Dr. A. W. Fisher, Harry Houghton, John Skeldon, Thomas R. Wickenden, A. C. Graham and John Wernert.

They were escorted to the city building on their arrival in Detroit and officially welcomed by the mayor of that city. Refreshments were served, and the party, which had now assumed alarming proportions, boarded the steamer Garland for Belle Isle. Lunch was served on board, and lunch was again awaiting them at the island. It was lunch, lunch, from beginning to end and seemed to be waiting on every corner. Returning to Detroit at 4 o'clock a banquet was enjoyed at the Russell house.

Mayor Emmick then took occasion to thank the Detroit gentlemen for their ever generous and hospitable treatment that had almost overwhelmed the Toledoans. He invited them to Toledo, and afterward arrangements were made whereby they will surely come within a short time. A big reception is to be arranged for them that the Toledoans can in some way get even on the score of hospitality. Most of the visitors returned last night.

Taylor's Flour is used by all leading bakers because they can rely upon its quality.

Arundel Will give special trips to Put-in-Bay, Middle Bass and Catawba every Saturday, Sunday and Wednesday, leaving her dock at 9 o'clock a. m. city time. Fare round trip, 50c only. Other days the usual rates until further notice. S. CANFIELD, Manager.

Always go to Lamsons for reliable Black Silks.

THAT UNLUCKY THIRTEEN

Which Opened the Republican Campaign Hoodoos the Senatorial Convention.

The hoodooish effects of the unlucky thirteen with which the republican campaign opened in Druid Hall night before last is already felt.

When the first members of the Senatorial Convention reached Memorial Hall this morning they found the doors securely barred and admittance denied.

The janitor politely informed the gentlemen that he had been instructed not to open the hall or to allow the convention to be held there.

An indignant committee at once proceeded to City Auditor Walker's office and complained that they had been denied admittance to the hall.

Mr. Walker said that at a recent meeting of the board of trustees it had been decided that no more political meetings could be held in Memorial hall.

Here was a dilemma. After some skirmishing around Walbridge hall was secured and the delegates eventually found their way there.

It appears that Senatorial Committeeman Caldwell has not been attending to business, or else he thinks he owns the town. He called the convention for Memorial hall without any consultation with the trustees of the institution.

It was 11:15 when J. W. Caldwell rapped the convention to order.

He said he did not know why the convention was held in Walbridge hall. For years the convention had been held in Memorial hall, and it was only on his return to the city that he found that Memorial hall had been barred against political conventions. He named J. Kent Hamilton for temporary chairman.

This was the first blood for the anti-Shermanites.

Chairman Hamilton thanked the convention for the honor conferred, and said among other things that it was a high honor to be a member of the general assembly of Ohio. It was all important that this district be represented by republicans. He asked, "My friends, shall the senators from this district be democrats or republicans!" Even echo was silent and never an answer came to the query.

He said that McKinley was already elected. In the secret conclaves of the democratic party this fact was conceded.

He admitted that such men as Allen, Pendleton and Thurman were not unworthy representatives of Ohio to go to the United States senate.

Mr. Hamilton rehearsed the political falsehoods relative to the election of Payne and Brice.

He spoke of Sherman and Foster as candidates for the senate, but it was only when he mentioned Foraker's name that the hall rang with cheers.

"The gods are with us" he shouted, "the gods of the harvests are with us."

"Do the gods vote?" came from a low voice in the hall.

R. S. Parker was elected temporary secretary.

Mr. Parker of Wood county was nominated by Fred Kumler, and so this was another victory for the Shermanites. He made a little speech; representatives of republican press were made assistant secretaries, committees on rules and regulations, credentials, resolutions, and senatorial committees were appointed as follows:

Permanent Organization.

Lucas—J. D. Ford.
Hancock—Chas. S. Johnson.
Wood—Rob't Dunn.
Putnam—H. W. Saunders.
Henry—M. E. Luce.
Fulton—T. F. Hamm.

Resolutions.

Lucas—Judge Ritchie.
Hancock, W. B. Miller.
Wood—J. O. Troup.
Putnam—H. J. Saunders.
Henry—G. W. Russell.
Fulton—J. A. Kelley.

Credentials.

Lucas—J. H. Lloyd.
Hancock—H. A. Andrews.
Wood—C. W. Russell.
Putnam—John Sheets.
Henry—E. L. Viers.
Fulton—W. A. Scott.

Senatorial Committee.

Lucas—L. W. Morris.
Hancock—J. C. Laney.
Wood—J. B. Wilson.
Fulton—J. Q. Files.
Putnam—S. J. Werner.
Henry—U. Crocket.

The meeting of the Lucas county delegation resulted in a fight.

J. M. Brown nominated George Holmes for central committeeman, but George was not in it against L. W. Morris. Holmes only got 21 votes.

The convention adjourned to meet at 1:30.

Afternoon Session.

It was 1:45 when Chairman Hamilton called the meeting down to business. The Forakerits were jubilant over the result of the Lucas selection, and the Shermanites were despondent and disgusted.

The committee on credentials reported no contests.

The committee on permanent organization recommended that the temporary organization be made permanent, that nominating speeches be limited to 5 minutes, and seconding speeches to 3 minutes.

Judge Ritchie from the committee on resolutions made the customary report. It indorsed the Harrison administration; it ratified the nomination of Major McKinley, whom it designated "a patriot without guile;" it denounced ripper legislation, etc., etc.

After the adoption of the reports nominations were in order. On the roll of counties being called, Fulton, through W. W. Touville, presented John C. Rorick, of Fulton.

J. Campbell, of Napoleon, presented the name of J. B. Couch.

Hancock presented the name of T. H. McConica.

Clarence Brown, in a rattling speech, presented the name of Col. Isaac D. Smead, of Lucas. He desired to present the name of a man who has his opinion, a practical exponent of republicanism, a man who not only believes in the principles of protection, a man with a state and national reputation as a business man. In pursuance to a resolution adopted by the caucus of Lucas county delegates he presented the name of Hon. Isaac D. Smead.

Postmaster Sherman, of Ottawa, nominated T. J. Harbaugh, of Putnam.

Parker, of Wood, presented the name of M. P. Brewer.

Smead Gets It.

During recess the Lucas county delegation held a meeting and attempted to select a candidate for state senator. John F. Kumler and J. H. Southard absolutely refused to run. The delegates from the other counties resolved to put the following in nomination:

Putnam—T. J. Harbaugh, J. Rorick.
Hancock—J. E. Houk, T. H. McConica.
Henry—J. B. Couch.
Wood—M. P. Brewer. Wood badly divided in Brewer.
Fulton—John Rorick.

Lucas county delegates again met at 1 o'clock, and the fight between the Forsker and Sherman men waxed warm. Fred Kumler was chairman of the caucus, and every point he could score against the Shermanites he made. The name of Col. I. D. Smead was presented, and notwithstanding a big kick by Boss Brown it was decided to present his name to the convention. Smead is for Foraker.

It was decided to vote, no two candidates at a time.

Smead and Rorick are the choice of Lucas and it looks as if they would be nominated. It requires 127 votes to nominate.

First Ballot.—Smead, 105; Rorick, 118; Harbaugh, 67½; Brewer, 62½; Couch, 45½; McConica, 105.

Notes.

Nobody was tied the nomination badly.

The Shermanites had their knives sharpened.

The Ottawa Gazette is represented at the convention.

Tingle, of the Columbus Grove Vidette is in attendance.

Griffin was on hand button-holing the country delegates.

"Doc" Smith was on deck and did considerable hustling.

Rike kicked like a steer against Smead, but it did not count.

J. M. Brown said Smead could not and would not be elected.

George Holmes laid down the law in great shape to J. C. Rike.

Brewer had considerable opposition from Wood county delegates.

It was given out early that Wood county was solid for M. P. Brewer.

Flickinger is trying to lift the hoodoo of the thirteen-meeting at Druid hall by counting himself in as two. After election he will be nix, if Carl knows what nix means.

J. D. Ford was much sought after as a candidate before the convention.

Mayor Emmick showed up and Harry Cherry and he talked things over.

Moses Math was there of course. There could be no convention without Mose.

Waldorf is a good deal of a "mixer." He was everywhere and knew everyone.

The home made tin button (imported from Wales) were seen in many buttonholes.

John F. Kumler protested that he was not a candidate. John protests overmuch sometimes.

Ex Senator Geyser attended the convention but he appeared very lonely and out of place.

Emmick and Cherry tried to persuade John Romeis to take the nomination, John knew better.

Hon. Jacob Romeis and T. P. Brown had a long confab on the situation before the convention met.

The Federal building was well represented. Brown, Waldorf, Rike, etc. Talk of partisanship!

Read was in the hall but he seemed to have forgotten the circulars with which he hoodooed the last convention.

IN TRADING CIRCLES

Both at Our Home and Abroad.

Wheat Quotations for the Day—Price Current for Produce and Other Articles.

The market quotations in the BEE are compiled from United Press special dispatches and from reports received by the Toledo Produce Exchange, and specially arranged by Mr. Denison B. Smith, secretary of the Exchange.

OFFICE OF THE TOLEDO BEE, Toledo, O., Sept. 25.

London wheat market quiet, quotations 3 pence per quarter lower. Weather fine. Liverpool wheat demand improving, but quotations ½ pence lower compared with Wednesday. Corn quiet.

Liverpool received in past six days 1,220,000 bu wheat, of which 460,000 was American; and 96,000 bu corn.

The receipts of wheat at seven principal western points to-day are 984,384 bu, compared with 517,119 bu on the same day last year.

The London Times estimate the yield in Great Britian at 91.77 per cent. of an average; taking 30 bu per acre as a full average yield, this would mean that the outturn this year is 27½ bu per acre, and the total crop in the United Kingdom about 66,000,000 bu.

There is $6,445,000 in gold on the way to New York from Europe, and $1,750,000 has been received this week.

Wheat Situation of the World.—Beerbohm gives, in his London Corn Trade List of September 11 an exhaustive statement on the above subject, which is too long for our columns. We give his conclusions below: "The probable requirements of the importing countries are, consequently, about fifty-two million bushels above the maximum quantities which the importing countries can reasonably be expected to ship. If, therefore, absolutely no account were taken of the rye question there would still be a prospective deficiency in the wheat supply."

The simple question therefore is, can a further drain of 52,000,000 bu upon reserve stocks—now already much reduced—take place except under attractions of a decidedly higher level of price than that which obtained last year? The only reasonable answer is no!"

New Corn.

Mr. La Suer, of Defiance, O., has sent to the exchange samples of new corn, grown in Putnam county, Ohio. The ears are large and the kernels perfect from end to end. It is a comfort and joy.

"Bradstreet's figures on the available supply of wheat show an increase since August 1 of 12,400,000 bu east of the Rockies and 4,600,000 bu west of the mountains, a total increase of 17,000,000 bu.

Comment.—The available wheat, including the New York visible supply statement and the ocean stock, has increased since August 1 9,000,000 bu.

But the ocean increase is not to the United Kingdom. England has not been a large purchaser of our new wheat, and according to the statement of the New York Produce Exchange Weekly the supply of breadstuffs in that kingdom for 10 weeks ending September 12 was 4,424,000 bu less than the estimated consumption.

The same authority says there was cleared from New York the week ending September 12, 144 bulls—packs of flour—3,286,267 bu of wheat, of which there was shipped to English ports 45,353 sacks of flour and 756,200 bu of wheat. This re-inforces the truth of our statement above.

At present prices of corn at the seaboard it is exportable at a good profit, and it is going out of the country quite freely.

At the prices now quoted in England for winter wheat, if it represents American wheat, it is barely exportable in New York at present value, but we believe this quotation is manipulated, misleading and bogus. Last year to-day the Liverpool quotations for red winter wheat was two pence per 100 pounds under California and spring. Now it is quoted from 12c to 14c per bu less than those varieties.

Yesterday New York telegraphed that a cargo of wheat was re-sold there at 7 cents per bushel more than it was worth to go forward, and at the end of the market they reported 280,000 bu of wheat and 192,000 bu of corn sold for export. It looks quite as though somebody was lying.

The receipts of wheat to-day at seven principal western points are 467,265 bu in excess of the corresponding Friday in 1890.

The export clearances yesterday at four Atlantic ports were 459,678 bu of wheat and flour to an aggregate of 725,000 bu. Exports of corn, 203,292 bu.

English markets reported herein are quiet and lower. Later private cables state that prices are still lower, but the latter are not reliable.

The reports of depression in prices in foreign markets, which we believe is a good deal the result of management, has been the ruling influence in markets for wheat on this side and prices have been about 1c per bu. cheaper, all day until about 1 o'clock, when a firmer feeling was plainly observable, and a recovery of part of the loss, but before the close another wave of weakness took the tuck out of prices and they closed lower.

Corn seems to have touched bottom and has been well maintained.

New York closed ½c lower on December wheat and ½c upon corn. Chicago closed ⅝c lower on December wheat and ⅜c upon October corn. Oats at Chicago—September, 27c; October, 27⅝c.

In Toledo business in wheat futures has been very light. Orders for purchase or sale of wheat were scarce and the traders quite indifferent to business. Prices close ⅝c to ¾c easier. On the call Dec. wheat sold at $1 00⅝ to $1 00⅝ and May at $1 07. After the call October sold at 97½c and closed at that, a loss of ½c; December at $1 00⅝ and closed at $1 00⅞, a loss of ⅜c; May at $1 07 to $1 06½, closing $1 07, a loss of ½c.

Cash wheat very quiet and dull. No. 2 soft sold at 97½c, and at close 97½c was the bid, a loss of ½c. No 3 soft at 94½c to 94¾c; No 4 soft at 86c; rejected wheat 85c; No 2 October 75c to 74c; white at 70c.

Corn—No 3 at 50c. Nothing in oats; No 2 about 30c. Rye was much cheaper; No 2 at 86c; October, 85c; No 3 at 83c; rejected, 76c to 75c.

Clover seed was weak and lower, and all the symptoms of the late firmness are gone. Prime for cash at $4 50; October at $4 55 to $4 52½ and offered at $4 50; December at $4 60 and lower to sell; No 2 at $4 10 to $4 30.

McKinley went to Iowa, but he did not meet the Boies.

The boys are making it very warm for Admiral Charles A. Flickinger.

Congressman Mills will soon leave Ohio, but Congressman Springer is coming. So are the Campbells, and Ohio will soon resound with democratic acclamation.

Senator John Ryan is not an orator, but he is honest and efficient, and will be elected. All of his acts in the legislature have been in the interests of the people.

The Two Johns, Ryan and Canary, are representative democrats, and honest citizens. They will be elected, no matter who is nominated by the republicans to-day.

The democratic ward clubs in the city of Toledo should be put in fighting condition immediately. There is no time to be lost and there is something for everybody to do.

The democratic senatorial convention at Ottawa yesterday was harmonious and enthusiastic. The ticket nominated could not have been improved upon, and the party is to be congratulated.

The farmers and wage-workers of northwestern Ohio, have never been so well informed on the great questions, as at the present time. A grand democratic victory will be the result of this campaign of education.

Beginning next Monday Gov. Campbell will make from two to four speeches every day until election. His campaign will be aggressive and the point of attack will be the McKinley tariff. Our governor is in the saddle now.

McKinley has been challenged by Gov. Campbell for eight joint discussions in addition to the Ada meeting of October 8. Chairman Hahn, however, will, it is thought, decline the challenge. The flag of democracy will be well to the front from this time on.

"Elect Me, never mind McKinley." This plea in Candidate Andrew-Andreas' opening speech will scarcely serve its purpose. Mr. Flickinger should be sent out of the county for his own good, and for the sake of his party, before he makes another break such as he made at Ada hall.

Secretary Foster will make a speech for McKinley in Toledo next month. It will not do for any reference to be made while he is here to the observance of civil service reform in his department. One must be polite to company, and never ask questions it would embarrass a guest to answer.

"Will it be Blaine? That's the burning question," cries a republican organ. It is to be hoped the organ's zeal will not quite consume it before the New Year, because the question is one only Secretary Blaine can answer, and he has not the least intention of committing himself until he shall have heard how the November elections go. Then he will, perforce, say "No."

Our own prosperous land is not out of the long list of countries to suffer this year from unusual calamities. The forest fires in Minnesota and Wisconsin have destroyed hundreds of thousands of dollars' worth of property in timber, crops and buildings, and it must be feared there has been a greater loss in that more precious thing, human life.

Commissioner Raum's annual pension report is submitted, showing the amount disbursed during the year for pensions, expenses, etc., to have been in round numbers $118,550,000. The really interesting figures will come when a committee of investigation from the Fifty-second congress reports how much of this money went to old soldiers and how much to the pension sharks and frauds who have battened on that department during this administration.

The funeral services over the remains of W. L. Scott yesterday furnish a text over which every man in public life and absorbed in business affairs would do well to pause and ponder. The great financier and railroad magnate died in what should have been the prime of life, worn out with over-work and too many business anxieties. There is no room to doubt this, and it forces home the question, Are not the people of the United States very generally failing into this suicidal course? Do we not live too fast, and work too hard? Drive ourselves at a pace that too often means a wreck by the time we reach the meridian line of life?

GOOD ENOUGH FOR ANYBODY.

The election of two democratic senators from this Thirty-third senatorial district was practically decided by the excellent work done in the convention at Ottawa yesterday.

The nomination of Honest John Ryan to succeed himself was a foregone conclusion long before the day of the convention was set. His record in the Sixty-ninth general assembly of Ohio does not need to be repeated here. It is enough to say that his work there was such that his party with one voice demands he shall be returned to continue what he has so well begun. In the November election Senator Ryan will not only have the vote of every democrat in his district, but he will capture votes from the enemy.

The choice of the convention for the second senatorial candidate was no less happy. John W. Canary is a courteous and cultivated gentleman, a straight-built, sound-timbered, thorough Democrat. The head of the bar in Wood county, a lawyer with a large practice, he accepts the nomination at financial loss to himself, upon the demand of his party. He has a clean and honorable record and will go into the canvass, safe from personal attacks, to fight it out on the line of democratic principles.

The Ottawa convention earned the thanks of every true democrat in this senatorial district. It has given us two splendid candidates, to add to what was already a winning ticket. The gentlemen who received the unanimous indorsement of the delegates yesterday will have the unanimous support of the men of their party from now till election day. They are men whose election is worth fighting for, and the democracy of the Thirty-third will to a man go in for their election.

They will be elected. John Ryan and John W. Canary will be the next senators from this district, and the democrats from this section will have the satisfaction of knowing the men of their choice will help to elect the next United States senator from Ohio.

Henry Labouchere is of opinion that English manufacturers will not exhibit at the world's fair, as their goods are kept from American markets by the prohibitive tariff. On such manufactures as they do exhibit he would have the prices ticketed, "in order that Americans might see at what they really might buy goods were there no duty upon them." This would be an object lesson worth having.

The Central democratic club will hold a meeting to-morrow night at Friendship Hall. It will be a very important event. Hon. E. D. Potter, Jr., and others will explain the workings of the Australian ballot law, and all democrats in the city are invited to attend. It will be an enthusiastic meeting.

The Philadelphia Times reproves those who, not satisfied with taxing people "from the cradle to the grave, get it to the grave, as it were, and tax the dead." The Times must have heard of Griffin's tombstone bill.

It is a noticeable fact that Toledo republican papers ignore republican meetings in Toledo, which are addressed by colored orators. Why is this?

FORGERY FORAKER.

Forgery Foraker stepped into the Ohio campaign with his usual impudence last week, and for some reason gave a good deal of his harangue to personal abuse of the Hon. Calvin Stewart Brice. Col. Brice will survive the attacks of a man notorious throughout the country as the principal or accomplice in a detestable conspiracy to ruin the character of some of the best known republicans of Ohio. What credence can be given to such a person as Foraker whether he talks about men in his own party, or men in the democratic party?

It is, in fact, a disgrace to the state of Ohio and an evidence of a low tone of morality on the part of many of her citizens that a vulgar and brazen charlatan like Foraker has not been punished by general public contempt and ostracism for his sneaking and cowardly conduct in connection with the ballot-box forgeries. Betrayer of his friends, assassin of reputations, reckless of honor or truth in the pursuit of his coarse ambition, dripping with slimy intrigue and conspiracy, Foraker is still the idol of some of the Ohio republicans, and is still striving to supplant Mr. John Sherman, the experienced and accomplished statesman, to whom he has been false more than once.

Whatever happens in the Ohio canvass, this wretched, wriggling Foraker should be stamped upon and crushed out.—New York Sun.

TOLEDO'S CASE, TOO.

Mr. Blaine need not worry himself about Chicago's defenseless condition owing to the treaty which prohibits the presence of modern war vessels on the lakes. Chicago is more interested in building whalebacks than men-of-war just now, and only asks protection against politicians who are devoted to a system which seriously narrows the merchantman's field of activity.—Chicago Times.

FILLING ITS MISSION.

The prohibitive features of the McKinley bill show a falling off of $3,000,000 in the tariff receipts for the first 19 days of September as compared with the same period last year. The bill was drawn to give less revenue from higher taxes, and it is doing it.—St. Louis Republic.

HONEST DOLLAR TEAM.

McKinley, it is said, voted for the Bland act, and his whole previous record is pro-silver. He and his fiat-money friend, John Sherman, continue to make a more and interesting "honest dollar" team.—Boston Globe.

TELLING THE TRUTH.

While Mr. McKinley is carrying on a campaign of glittering generalities Gov. Campbell is telling the Ohio farmers some plain and pregnant truths.—New York World.

OHIO PENSIONS.

Buckeye Veterans and Their Dependents Who Have Been Granted Pensions.

Washington, September 25.—Pensions have been granted to the following residents of Ohio:

Original—David Fisher, Alfred A Gates

Theodore Gibbons, Emery Mathile, Henry H Luffe, Francis C Stanley, Eli Albright, Joseph M Gamble, Joseph Sims, Christopher C Wiseman, John Auls, William Fasebaugh, Woodman O'Kay, Richard Moore, Thomas Barrett, Thomas Haffo, Frederick Winterberg, William Winterrowd, Palykaro Gutermuth, Alonzo L Chase, Harvey Williams, Homer G Woodis, Henry Taylor, Lawrence Haughn.

Additional—Henry Frohleiser, George W Heath, Casper Paul, Thomas Semple, Isaac C Mefford, Jacob Straub, Franklin Hoshouse, James S Alexander, Lorenzo Harrison, Loren S Parsons.

Increase—Joseph McFarland, James E Todd, John F Cross, John Davis, James Powers, David Wilson.

Original widows, etc.—Sarah Russell (mother), Rebecca J Points (mother), Amarilla Crane, Sarah E Hall, Julia Johnston, Jane Perdue (mother), Ellen Halen, Elizabeth R Flowers, Elizabeth Leonard, Annie Iewine, Mary P Leveuler, Thomas Camero (father), Lydia M Voris, Adaline Miller, Anna Maria Bauer (mother), Mira Wilber (mother), Ann E Clark, Anna Eberly, Jane E Fisher, Mary J Moon, Mary Evans, Emma Ramsey, Mary D Beer, Mary E Jackson, Susanan Griffith, Mary W Davis (mother) Sarah Ammon, Luvinah Page, Annie E Hart, Rosetta Irwin, Eliza Lucasy (mother), Bridget Glaser, Eliza Kitzman (mother), Dorothy J Edgar, Harriet Bonley (mother), Martha Hine, Catharine Potter (mother), Elizabeta Wilson, Belle Shamate, Mary Lee (mother), Maria Especker, Elizabeth Kiefer, Martha Hart, Lucinda Chapman.

CANARY IS A HUMMER.

Wood County Citizens, Regardless of Party,

Turn Out and Serenade the Nominee.

A Rousing Time at Bowling Green Last Night, Which Foretells of Success at the Polls.

Bowling Green, Sept. 25.—(Special)—Hon. John W. Canary, who was one of the nominees of the democratic senatorial convention at Ottawa yesterday, was tendered a serenade by the citizens of Bowling Green last night, irrespective of party affiliations.

Mr. Canary is held in the highest esteem by his neighbors, who regard him as a clean-handed gentleman, and a man truly without guile.

About 8 o'clock the band marched to Mr. Canary's pleasant home, followed by a large crowd of his friends and admirers, republicans as well as democrats vieing to do him honor.

Upon arriving at his residence the band serenaded him, after which it and the citizens in attendance were invited to enter the house, where they were entertained in an elegant manner by one of the next senators of this district, assisted by his charming wife and daughter.

Speech making was indulged in, and Mr. Canary in a splendid speech devoid of political reference, welcomed the gentlemen to his home, and thanked them for the expression of their esteem and good will.

There is no doubt but that John W. Canary has as large a following of personal friends as any man in the district, and he will get many votes from republicans, who, in this case, will place man above party.

Mr. Canary has been upright and honest in his business transactions, and has never sought to injure or do a wrong to any man. He enjoys the respect and esteem of the community wherein he has resided so long, and republicans as well as democrats will rejoice in his election.

DEMOCRATIC MEETINGS.

Capt. Bell's Appointments in Northwestern Ohio

Capt. Geo. W. Bell, of Washington, who is in Ohio under the auspices of the New York Tariff Reform club, has been assigned to Northwestern Ohio for a few weeks. The following are his appointments made so far:

North Baltimore, Monday night, September 28.

Perrysburg, Tuesday night, September 29.

Findlay, Wednesday night, Sametmber 30.

Arlington, Thursday night, October 1.

Air Line Junction, Friday night, October 2.

Wauseon, Saturday night, October 3.

Capt. Bell is an able speaker and will do much good for democracy in this section of the state.

THE STATE MUST PAY IT,

Lucas County Relieved of McCartney's Expenses.

Money Expended for His Extradition Must be Made Good at Columbus.

Columbus, O., Sept. 25.—Attorney-General Watson has rendered an opinion on an interesting point at law. It is as to whether the state or the county shall pay the costs of contested extradition proceedings when a fugitive is captured in a foreign country.

The question arises in the case of McCartney, the Toledo forger, who fled to Canada and stood trial there as to whether he should be given up by the Canadian authorities.

It was necessary for the Lucas county authorities to employ attorneys to prosecute the case in Canada, at the expense of $432.06. The auditor of state refused to pay this bill until he had submitted the case to the attorney-general. The attorney-general decides that the state ought to pay the claim, basing his ruling on a construction of section 7332 Revised Statutes.

He holds that this section gives authority for the payment of the claim. To refuse to pay such cost bills would discourage county authorities from pursuing criminals who run away. Again he holds that the state gets the benefit of the labor of a criminal sent to the penitentiary, while the county gets nothing.

STAMPEDE IN A CHURCH.

Jacksonville, Fla., Sept. 25.—Just before 12 o'clock last night a panic occurred in Harmony Baptist church (colored), during which one woman was killed, three others received fatal injuries and about twenty people were seriously crushed and bruised. Suddenly the gaslights began to flicker, owing to defects in the pipes. The flickering of the lights at once appealed to the superstitious worshippers as a supernatural visitation. A stampede followed, with the above result.

FEARS OF ANOTHER GRIP EPIDEMIC.

New York, Sept. 25.—The health authorities are of the opinion that before the end of the week the people of this city will awaken to the fact that the grip is here again. So far this week, an increase of 49 deaths has been reported over the corresponding week last year from respiratory diseases. President Wilson, of the board of health, is one of the grip's victims.

MOREHOUSE OBSEQUIES.

Marysville, Mo., Sept. 25.—The funeral of ex-Gov. Morehouse took place this afternoon and was attended by Gov. Francis and staff. Mrs. Morehouse has not yet been told of the tragic death of her husband. Suspicion and anxiety, however, have prostrated her, and the confirmation of her suspicion will undoubtedly cause her death, as she now lies seriously ill.

GLASS MEN IN SESSION.

Columbus, O., Sept. 25.—A secret meeting of the glass manufacturers of the country is being held here. Representatives are present from Pittsburg, Wheeling, Chicago, Ottawa, Findlay, and other points. The session is an important one, and its object is to be to form some kind of a combination to control the prices of the product.

SUSTAINED UNDERWOOD.

St. Louis, Sept. 25.—At the session of the sovereign grand lodge of Odd Fellows, the celebrated Crabb case was settled by the lodge confirming Grand Sire Underwood's decision in suspending the lodge. The case has been pending for several years.

FOUND GUILTY.

Pittsburg, Sept. 25.—The jury in the case of Mrs. Lucy R. Fitzsimmons for the murder of Detective David Gilkinson, came into court after being out less than four hours, and found her guilty of murder in the second degree.

BACK TO WORK.

Bellaire, O., Sept. 25.—The roughers at the Aetna and Standard rolling mills, of Bridgeport, after a prolonged strike, returned to work to-day. One thousand men were out.

CURTIS IS PRESIDENT.

Saratoga, N. Y., Sept. 25.—George William Curtis was yesterday elected president of the Unitarian conference.

GAS TRUSTEES MEET.

Brief Business Session of the Board Last Evening

In the absence of President Parsons, who is out of the city, Vice-President Brown occupied the chair at the meeting of the gas trustees last evening. Elsewhere will be found something of interest relative to work already done on the pipe line.

When the minutes were read Mr. Backus asked that they be so far corrected so as to show he was not present when the board reconvened at the previous meeting.

Residents of Cherry street asked for a line on that street from Beacon to Bancroft street. The prayer was granted and the line ordered laid at once.

A petition to extend the line on Tecumseh from Fifteenth to Division, was also presented and granted. One from residents on Vance street for a line from Lenk to Fifteenth street, rejected at a previous meeting, was reconsidered and granted. Mr. Backus voting no.

Missouri, Lenk to Ewing; Orchard to Stickney avenue; 200 feet Tecumseh, from Lenk to Ewing; Marion, Western avenue 200 feet; Michigan from Washington to Monroe; Page, from Lagrange to Chestnut; Oak, from First to Fourth street, East Toledo. Lines were ordered laid on the above streets when one-half of estimated cost is paid in.

It was decided to lay a line around the block bounded by Washington, Monroe, Fourteenth and Fifteenth streets.

Wisconsin, from Lenk 500 feet west of Lenk.

Alley between Erie and Huron, from Washington to Short street.

Floyd, Horton 200 feet, Orange and Spellbusch between Dove alley and Canton avenue.

It was decided to make a contract with J B R Ransom for lines in Ransom's addition, the cost of making connections and making and furnishing lines to be paid by Mr. Ransom. The lines will be laid when Mr. Ransom pays in estimated cost.

Dr. Jones, from the committee on claims reported a schedule amounting to $745, and the same was ordered paid.

Manager Heston reported that Kerlin Bros. refused to tunnel under paved streets at the prices fixed by the board. A communication was read from the same firm relative to obstacles met with on certain streets that are being paved.

The appointment of Mr. Wm. Gerwin by Manager Heston was confirmed.

Petitions for service lines on the following streets were presented:

Whitney avenue between Bancroft and Virginia. Granted.

Sixth from Nevada to French, E. T. Granted.

Alley from Wisconsin to Collingwood. Granted.

Scott from Canton avenue to Cherry. Granted.

Alley between Franklin avenue to Vermont, from Franklin to Bancroft. Granted.

Alley between St. Clair and Erie from Harrison to Newton. Granted.

Crane lane and Lagrange from Ontario to Erie. Granted.

Bush, 300 feet. Granted.

A long list of petitions on which less than one-half of estimated cost had been subscribed, was referred to the committee on city plant.

Lines will be laid on the following streets:

Cherry and Orange from Ontario to Crane lane.

Walbridge avenue from Broadway to Dix.

Walbridge avenue, Broadway to Langdon.

Riverside from Ash to Buckeye.

Alley between St. Clair and Superior from Orange to Cherry.

Linden street from Western to Segur avenue.

Receipts amounting to $2,667 were reported since last meeting.

DO YOU WANT GAS?

The Gas Trustees Decide to Lay Six Miles.

Interesting Statement of the Amount of Pipe Laid in the Streets—Now is the Accepted Time.

Do you want city gas?

At the regular meeting of the board of gas trustees last evening applications were received from residents of 35 streets for service lines and in the majority of cases the petitions were promptly granted.

In all cases petitions must be accompanied by at least one half the estimated cost of construction. The way the people are getting after the city's gas may be seen from the fact that at the meeting last night it developed that it would require 31,495 feet, or about six miles of pipe to lay the lines petitioned for, and for which the money was advanced at this one meeting.

Applications for gas keep pouring in and contracts are being made at the rate of 70 a day.

Consumers along lines already laid should remember that first come first served, and that a month hence it will be impossible to get contracts executed.

The following report of Engineer Wright shows the amount of pipe now in use:

The following is amount of different lines laid in the city:

	No. of feet.
Walnut, Bancroft st west	556
Sherman, st from Walnut south	152
Maumee ave, 2 lines, Segur ave to L S Ry.	586
Segur ave, from Field ave to Carroll st, 2 lines	3,400
Robinwood, from Bancroft north	820
Scotwood, from Monroe north	1,700
Jerome, from Bancroft north	850
Kent, from Bancroft north	850
Erie, from Oak to Orange	850
Orange, from Erie to Dove Lane	600
Dov Lane, from Orange to Cherry	450
Cherry, from Dove Lane to Ontario	200
Baker, from Walnut to Lagrange	1,600
Collingwood, from Bancroft north	300
Division, from Wabash to Vance	200
Madison, from Michigan to Tenth	200
Scottwood, from Collingwood west	2,600
Hicks, from Ewing north	2,600
Bancroft, from Lawrence ave east	9,000
Bush, from Erie st east	435
Parkwood ave, from Bancroft north	425
Maplewood, from Monroe to Virginia	1,850
Glenwood, from Bancroft north	854
Fulton, from Bancroft to Floyd	740
Scottwood, from Bancroft north	850
Madison, from Water to St Clair	554
St Clair, from Madison south	83
Alley, bet Superior and Huron, from Oak to Adams	500
Seneca, from Elm south	929
Warren, 2 lines Bancroft to Woodruff	1,650
Dove lane, from Elm to Lagrange	900
Eagle lane, from Elm to Lagrange	900
Wabash, from Cook to Fifteenth st	2,640
Nebraska ave, from Lenk to Fifteenth, 2 lines	5,200
Maplewood ave, from Delaware to Virginia	1,868
Orange, from St Clair to Y M C A building	100
Total number of feet laid	13,692

In addition to this add the four miles in the Fifth and Ninth wards let to Lafayette Construction company and about completed.

Also eight miles in the Third and Seventh wards let to Parks, Foster & Co., and nearly completed, making a total of 20.41 miles of low pressure lines.

In addition to this we have about fourteen miles of high pressure lines in the first, second, third, seventh, eighth and ninth wards which consumers are allowed to tap and use gas through a regulator making a grand total of 34.41 miles, now laid in the city.

If you want a line on your street or to make a contract for city gas, now is the time.

BOOM FOR SHERMAN.

Judge Lawrence Insists That the Mansfield Sage Is a Great Man.

Judge Wm. Lawrence, of Bellefontaine, is a prominent figure among the lay delegates in attendance upon the Central Ohio Methodist conference. Judge Lawrence has not only had an excellent career in the affairs of the nation, but he is also an earnest church worker. In politics he is a republican, and in this connection is an ardent Sherman man.

"Down in our district," said he to a BEE, "we have just nominated a candidate for senator who is a strong Sherman man. In that convention I don't believe there were ten men who were not for Sherman. Our whole district is of the same feeling, and nine-tenths of the people are for the senator. There should not be any question as to his re-election, for it is just now that the country needs the services of such a man. All sorts of financial complications are threatened besides the other great questions that are before the government, and he is just the man needed in the senate.

"In my opinion Senator Sherman is the ablest statesman in the country to-day."

The judge also had a good word for McKinley, and felt confident of his election.

Highest of all in Leavening Power.—U. S. Gov't Report, Aug. 17, 1889.

Royal Baking Powder

ABSOLUTELY PURE

LUCKEY GETTING EVEN.

Van Horn, a Foraker Man, Nominated

For Senator in the Thirtieth District.

How James Taylor Petty Was Beaten—Sherman and His Friends Were Not in It.

Jim Luckey, of Elmore, is a very shrewd politician, and when John Sherman turned him down and appointed David Austin collector of customs, there were many who predicted that he would even matters up with the sage of Mansfield when he got a chance.

That his work of vengeance has begun there can be no doubt especially with those who are on the inside as regards the republican senatorial convention at Norwalk Wednesday.

James Taylor Petty of Fremont has been for months an avowed candidate for the nomination, and up to within a day or two of the aforesaid convention there was no outspoken opposition to his nomination.

At sometime Dr. Petty had evidently been foolish and impolitic enough to declare that John Sherman ought to be returned to the United States senate.

Dr. Petty may have made this assertion inadvertently, or he may not have made it at all. In fact, as he is a man of superior attainments and much good sense, the latter supposition is entirely probable.

In any event Luckey was of the opinion that Petty was a Sherman man, and he gave forth the edict that the Fremont man could not have the nomination under any circumstances. He accordingly made a candidate of Mr. Van Horn, who is in no sense D. Petty's equal in any respect, and succeeded by reason of his superior skill as a manipulator in knocking Dr. Petty out on the first ballot.

"I'm his driven the first nail into Sherman's coffin," remarked one of Luckey's friends at the close of the convention, "and he will drive a few more."

Senator Zimmerman, of Fremont, a democrat and a remarkably well informed man, is in the city to-day, and he said to a BEE:

"There is no manner of doubt but that Petty was defeated by Jim Luckey because the former had expressed a preference for Sherman as against Foraker. Petty is an elegant, well informed gentleman, and would have been a strong candidate, but Luckey packed the convention and knocked him out.

"Van Horn is a pronounced Foraker man, and should he by any chance be elected, will vote to relegate Sherman. It was an out and out Luckey victory."

LAKE BUSINESS.

The Past Season Better Than Was Expected.

Seaboard, of New York, this week speaks editorially as follows:

The improvement in lake transportation has been away ahead of the expectations of the most sanguine at the beginning of the present season. The feeling was then widespread that 1890 would mark the darkest year for lake traffic that had ever been experienced. Many vessel owners refused to bring their boats out, and the formal opening of the season was delayed until the 15th of May. When the boats did go into commission the rate of all classes of freights verified the fears of vessel owners, and for a time their boats were run at a loss. At Chicago, grain shippers made their own terms, and the ore on Lake Erie docks, together with the strikes of the handlers, and the trouble at Lake Superior mines combined to put the rate for ore so low as to make profit impossible. Added to this was a very light demand among iron manufacturers for ore, which kept back shipments.

About two months ago, however, a change began to manifest itself. Grain commenced flowing eastward in increasing volume, the surplus ore upon the docks was moved southward, the increase in manufacturing created a good demand for ore and prices went up in the transportation line because shippers of grain no longer made the prices for its transportation, and the ore to be moved gave shipowners the whip hand.

Our Lake Crusier this week shows to what a height the rates have advanced and the probability of their continuance as at present is quite strong.

Under these circumstances, and inasmuch as rates for lake transportation have been continuously at a good profit for the larger part of the season, it is demonstrated that the wisest of vessel owners are unable to predict the course of lake traffic at the beginning of the season. We are aware that the extraordinary demand for grain could not have been foreseen, nor could the demands of iron merchants be properly gauged.

The result of the changed conditions while sufficient to insure a profitable season, all things considered, has brought into use all available tonnage, without having a visible effect upon rates. The rates, it is generally believed now, will be maintained till the season closes. Confidence in the future, however, has not been emphasized by any considerable orders for new ships, the belief apparently being general that the present tonnage is capable of taking care of the business, at least through next season.

AT THE THEATERS.

The Opera Martha at Wheeler's This Evening—The Magician Herrmann Comedy.

This and to-morrow evenings and to-morrow afternoon the Lizzie Annandale Opera company will appear at Wheeler's. This evening they will sing Martha, to-morrow evening Carmen and to-morrow afternoon Bohemian Girl. The company contains some celebrated singers, such as Miss Lizzie Annandale, Miss C. Whiteman, Miss Eva Cummings, Miss Kate Maddock, Miss Nellie Franklin, Miss Effie Chamberlain, Senor Michelena, S. S. Partello, Senor Pache, Senor Chorasto, George Williams T. J. Johnson, William Broderick, John Moore, and R. W. Guise.

Good Opera at the People's.

The Chinese opera, Pearl of Pekin, is drawing good houses and giving excellent satisfaction at the People's. The company is in the main good and the music, which is bright and catchy, is well sung. The comedians are very funny and the opera is a go from beginning to end. It is a performance well worth witnessing.

Hermann Coming.

The great Herrmann, who has mystified the cleverest people in all countries with his magical performances, will be at Wheeler's Monday and Tuesday evenings with something entirely new and wonderful. He has with him a new illusion that recently started the Parisians and Londoners thinking.

A HORSE'S MAD PLUNGE.

Stung by a Yellow Jacket He Becomes Vicious.

Prof. Spence, of Fisk University, Seriously, and Perhaps Fatally Injured in a Runaway.

Washington, Sept. 25.—Prof. A. K Spence, dean of the faculty of Fisk university, Nashville, Tenn., with his wife, daughter and R. C. Edmonston, of the war department, had an almost miraculous escape from death yesterday while driving along the Ft. Myer road.

Descending the steep military road from Ft. Myer, the horse was stung by a yellow jacket. The animal plunged down the road and over a bridge, carrying vehicle and passengers with it, a distance of 20 feet, into the water.

Prof. and Mrs. Spence were pinioned under the vehicle until extricated by Miss Spence and Mr. Edmonston, who escaped with slight injuries. The injured parties were brought to the Emergency hospital.

The bones of Prof. Spence's face were broken, his shoulder bone crushed, skull slightly fractured, and his right eye almost torn out.

Owing to the feeble condition of Prof. Spence, his physicians are unable to state whether his injuries will prove fatal. Mrs. Spence's injuries, while not fatal, are very painful.

MUSIC

SONG CLASSICS. VOLS. I AND II.
Two volumes, each with about 40 classics songs of acknowledged reputation.

PIANO CLASSICS. VOLS. I AND II.
Two large volumes, full music size, containing 44 and 31 pieces respectively.

THE FACTS
OF
THE CASE

Are that you should own your own home. No matter what your occupation is--business man, lawyer, laboring man, mechanic--you can have your own home and live more economically than in any other man's house. More comfortably, too, for you can build your house and if you haven't the ready money to pay for it you can have all the time you want. It's cheaper than paying rent and in a few years you'll not need to pay anything.

In furtherance of this object we can now offer you your choice of lots in Brandon Heights, the new addition on Cherry St., in a locality of which the richest need not be ashamed and at prices the poorest can afford. Just beyond the intersection of Franklin avenue with Cherry street, a 13-acre tract has been platted, the streets graded and paved, sewers put in, etc., and with the street cars on Cherry street, gas and water,, is one of the finest places in the city for a home.

BRANDON HEIGHTS

If you'll admit that it is a good thing for one to own his home; if you'll admit that common sense, economy, comfort and your friends who already own one, dictate that it is better to have your own home; if you'll admit that it is cheaper to pay a few dollars taxes than a few hundred dollars rent every year; if you'll admit that it gives a man better standing in his community, gives him better credit and a feeling of independence never before experienced to own some Real Estate, then why don't you own some? You can. Look at Brandon Heights for instance.

All the above are in good repair, having been through our shops and put in order; they are bargains. Come and see them. JOHN BLADON & SON, Carriage Makers.

MRS. GRAHAM'S
Cucumber
and
Elder Flower Cream

Is not a cosmetic in the sense in which that term is popularly used, but permanently beautifies. It creates a soft, smooth, clear, velvety skin, and by daily use gradually makes the complexion several shades whiter. It is a constant protection from the effects of sun and wind and prevents sunburn and freckles, and blackheads will never come while you use it. It cleanses the face far better than soap and water, nourishes and builds up the skin tissues and thus prevents the formation of wrinkles. It gives the freshness, clearness and smoothness of skin that you had when a little girl. Every lady, young or old ought to use it, as it gives a more youthful appearance to any lady, and that permanently. It contains no acid, powder or alkali, and is as harmless as dew and as nourishing to the skin as dew is to the flower. Price $1.00, at all druggists and hair-dressers, or at Mrs. Gervaise Graham's establishment, 103 Post street, San Francisco, where she treats ladies for all blemishes of the face or figure. Ladies at a distance treated by letter. Send stamp for her little book "How to be Beautiful."

Sample bottles mailed free to any lady on receipt of 10 cents in stamps to pay for postage and packing. Lady Agents wanted.

MRS. GRAHAM'S
Face Bleach.

Cures the worst cases of Freckles, Sunburn, Sallowness, Moth-patches, Pimples and all skin blemishes. Price $1.50. Harmless and effective. No sample can be sent. Lady Agents wanted.

The Druggist in this town who first orders a bill of my preparations will have his name added to this advertisement.

My preparations are for sale by wholesale druggists in Chicago and every city west of it.

STIRRING THE JAM.

I remember a white-washed kitchen,
Its windows and doors flung wide,
Where indolent summer breezes
Were stealing from side to side.

O'er the fire hung the great brass kettle,
Where the jam seemed to mutter and sigh,
And perch'd on the table stirring
Was a boy—and the boy was I.

My mother had measured the spices,
And now stitched away in the shade,
With a vigilant glance through the doorway,
If the stirrer a moment delayed.

I remember how, outside the window,
Stretched the meadows, shade-dotted and cool,
And down where the wee brook widened
The cattle stood in the pool.

I thought as I stirred that next winter,
On Thanksgiving, or some such day,
As the company sat at the table,
Some one would be sure to say:

"This jam is really delicious;"
And mother would smile, no doubt,
While of the fellow who did the stirring,
No one would question about.

My father came up through the sunlight
To the door with his quiet tread,
I told him of what I was thinking,
And he smiled, with his hand on my head,

While he said: "Yes, my boy, I know it,
And you'll find it's the old world's way,
That the fellows who put in the spices
Will get the most of the pay."
—Exchange.

BEESWAX.

A small gold chain was found last week imbedded in a lump of coal which had been picked up in Indiana.

Engine No. 63, on the Panhandle road ran 350,000 miles in three years' time, and was still in good condition at the end of her service.

The largest locomotive yet built in Europe was recently sent out of the Hirshau works in Munich. It is 46 feet over all and weighs 84 tons.

Damp weather in a town in Kansas caused a package of 5,000 postage stamps to become glued together in a solid block, making it necessary to return them all to Washington.

It is said there is a girl living in Barrard, Vt., thirteen years old, who weighs 250 pounds; also that there are three women living in the same town whose united weight is 1,000 pounds.

Jean Ingelow is now a gray-haired little old woman of 63 years. She is a kind friend of the poor, and at regular intervals gives them what she calls "copyright dinners" from the proceeds of her books.

Athanasios, the Greek brigand, enjoys a larger income from the railway companies than the shareholders, in addition to which he compels the sultan to pay him tribute in the shape of ransoms for the foreigners whom he seizes.

A Chinese laundryman in Texas advertises his establishment in the newspaper of the county in which he is located with display type and a quarter column humorous cut showing the Mellcan man driving in donkey carts to his store.

Some military manœuvres to be tried in Bohemia are thought to be so important as involving a new problem in tactics that a cordon will be drawn around the whole district, and people living in it will not be allowed to leave their houses for two days.

A spring that gushes forth soda water and in reality forms a huge natural soda water fountain, has been discovered in Oregon. The water is sparkling and effervescent, and when flavored and bottled cannot be distinguished from the artificial beverage.

Mrs. Isabella Beecher Hooker wants to see the statute of Queen Isabella which the Queen Isabella association of Chicago is working for erected in Washington beside that of the Father of his Country; and she would have it so designed that Columbus kneels at the feet of the queen.

There are some peculiar incidents in the family history of John Threlkeld, of Harrodsburg, Ky. He will be 87 years old on the 6th of November; his mother was born on the 6th of November and died on the 6th of November, and he had three sisters, all of whom were born on the 6th of November.

After the passage of an electric storm there is quite an appreciable amount of ozone in the atmosphere, so much so that its presence may be frequently detected by exposing a piece of bolting paper, previously dipped into a solution of starch and iodide of potash, when it will be turned blue.

It appears that the government's rain-making process is a patent affair, the owner being an aged confederate officer, Gen. Dome. Ruggles. Gen. Ruggles' application is dated at Austin, Tex., February 22, 1879, and his papers were filed in the patent office June 7, 1890. The patent is entered "Method of precipitating rainfalls."

A most remarkable alloy of gold and aluminum is now under the examination of scientists. It is of a beautiful, rich purple color. This royal metal will make a hard gold addition to those now used for purposes of adornment. From all accounts it seems amenable to the methods of jewelers in making their gold ornaments.

It is a remarkable fact, yet to be explained, that while a young infant can fall out of a train window without the smallest injury, and a desperate criminal jump from a train going at full speed without risking a scratch, a well-grown, law-abiding, valuable citizen cannot take a step out of a moving car without disaster, swift and serious, befalling him.

A huge toad-stool has appeared every fall for the last 10 years on a low branch of an elm tree near Woideck park, near Berlin. It stands about twenty-five inches high and has a cap almost two feet in diameter. Two years ago a policeman picked it and cooked it and ate, and suffered no bad results from the meal. On September 3 the big toad-stool sprouted for the eleventh time.

A criminal in Philadelphia attempted to escape arrest by counterfeiting death. Several tests were applied in order to produce some signs of life, but the desperate man bore the jabbing of pins and the shock of cold water without a single muscular movement. When the full force of an electric battery was applied to the soles, the "dead" man became a very vigorous and active being.

The sale of keys is an important trade in the eastside tenement house region, because of the constant shifting of tenants. Most eastside junk dealers carefully treasure all the second hand keys they get, and some such men have on hand thousands of keys. The price is ordinarily 5 cents, and it is rare to find a tenement house lock that cannot be fitted with a key from the junk dealer's collection.

Few people can form an idea of what is involved in the expression, 'an inch of rain.' It may aid such to follow this curious calculation: An acre is equal to 6,272,640 square inches, and an inch deep of water on this area will be as many cubic inches, which, at 226 inches to the gallon, is 22,000 gallons. This immense quantity of water will weigh 220,000 pounds or over 100 tons.

Congressman Mills is not often seen in the hotel lobbies of Washington or other places in the capital where men congregate. He is almost a hermit in his fondness for seclusion. The Texan is a tall, stalwart man, with a florid face and a white mustache. He strides along the street with head in air, oblivious of surroundings. His most intimate friend is Senator Carlisle, of Kentucky.

The retail flower market of New York is peculiarly sensitive to the play of demand and supply. Now that the world is returning to town, prices have risen, but they are the same for scarcely any two days together. Roses that sell to-day for 60 cents a dozen fetch $1 to-morrow, and perhaps $1.25 next day. Two days of warm sunlight will reduce prices all along the line, and a single dull, cold day will cause a 10-per-cent. rise.

A scientist has been engaged in computing the amount of soot deposited from London air, and arrived at the following conclusions: "He collected the soot deposited on a patch of snow in Canonbury, about eight inches in extent, and obtained from it two grains of soot. As London covers more than 100 square miles this would give for the whole area 1,000 tons. As a quantity measured fell in 10 days, a month's allowance would need 1,000 horses to cart it off, and these stretched in a line would extend four miles.

Delaware and the eastern shore of Maryland still retain in their geographical names traces of an early peninsular hero. Augustine Heerman, who ruled like a prince in New Castle county, Delaware, and Cecil county, Maryland, has left his name to Augustine creek, sometimes called St. Augustine, and the Delaware & Chesapeake ship canal was a cherished project of his more than 200 years ago. It is a Delaware tradition that Heerman leaped with his horse from a place of imprisonment in New York city and escaped by swimming the animal across the Hudson. Heerman's tomb is on Bohemia Manor, part of his once princely possessions, and still one of the finest tracts of farming land in America.

THE THIRD DAY.

Continued from First Page.

marks were listened to with closest attention.

On the second ballot Rev. E. D. Whitlock was chosen, and a third ballot was then taken.

Dr. Barnes was successful on the third ballot.

The names of members who did not vote on the women question yesterday were called and 14 more votes were cast, changing the totals as follows: On the consensus, ayes, 130; noes, 32; on the amendment of the second restrictive rule, ayes, 123; noes, 32.

Dr. Barnes, presiding elder of Findlay district, then read his report, as follows:

FIND[illegible] DISTRICT.

Rev. Dr. Bar[illegible] Close View of Its Condition.

I come before you again to render an account of stewardship and also to report progress. At our annual gathering one year ago and for weeks succeeding I was seriously sick. Since recovering my health has been firm and the full measure of work performed. With memories that will never perish and enduring gratitude shall I cherish the kind words and Christian helpfulness of my brethern during that protracted illness.

Without delay every man went to his own place and entered upon the discharge of his appropriate duties. These pastors have been abundant in labors, as the result great and lasting good has been accomplished. New churches have been erected, parsonages built, others repaired and beautified, debts discharged, souls converted, the weak strengthened, the mourner comforted, the back-slidden reclaimed, the broken-hearted healed, the cutposts of Zion extended, God's banner lifted up and advanced movement taken place all along the line.

Benevolences have been cared for with so loyal an earnest a heart and hand that it is quite fair to predicate the statement that Findlay District not only holds her former place of honor as the banner district in the conference but will very likely take her position when scaled according to eastern accumulations of wealth far beyond the million and a quarter line, and will most likely show the largest congregations, the largest church membership, and the largest contribution to the cause of missions. Pastoral support has been liberal. Twelve charges out of the twenty-five made to their pastor an increased allowance over that allowed the year before, only one fell below; and the deficiency on the district will perhaps be less than on any previous year.

No minister has to move by limitation of time—all might be returned for another year.

Ada, a college town, heads the column. Under the inspiring leadership of her young and popular pastor, the parsonage has been renovated, spiritual interest has been good, membership has been strengthened, benevolence been advanced and consultation with the Oracle outlines in the not very distant future a much needed, beautiful and commodious new church.

Adrian holds on the even tenor of her way. All the interests of the church have been well cared for and as a field shows the result of careful tillage.

Arcadia is one of the most substantial and helpful charges in the conference. Her devotion has not declined, nor her hands slacked. Loyal to every interest of Zion she invites a devoted minister to complete the utmost limit of the pastoral term.

Bairdstown and Portage was swept by a wave of intense revival interest, scores brought to the cross, and a new and beautiful church, the creation of sacrifice and heroism, marking a signal victory in the name of the Lord, was dedicated March 8th.

Bettsville, tried, honored and steadfast, possesses the land in peace and holy triumph. The old parsonage has been overhauled and made more fitting as the abode of a Methodist minister's family; a splendid brick church, costing six thousand dollars, was solemnly set apart for the worship of God, at Amsden, early in the year.

Bluffton, strong and steady, on our western border, has steadily advanced during these years with no thought of backward step, has religiously resisted the siren songs which so insidiously have been wafted from Lima District, has made church and parsonage repairs amounting to over $400, has seen the standard of Christian living and scriptural holiness faithfully advanced and many souls garnered for the Lord.

Carey is a thriving town, good railroad point, is located in the heart of a pleasant land and famous for half a century for superior business qualities. The debt on the church lot, which for many years cumbered the ground, has been entirely discharged. The new church which one year ago seemed almost in sight still lingers below the horizon's hem. We hope ere long to behold it risen, full orbed and glorious, and this consummation can be realized if the church there so decrees.

Columbus Grove, officered and commanded by the, in some respects, youngest preacher in the district, walking the quarter-deck, supported by most enterprising laymen, has scored a most decided success. This youthful pastor, during the year, has preached 165 times and made over 800 pastoral visits. The corner-stone of the new brick church, estimated to cost $7,500, was laid Aug. 25th with appropriate ceremonies, and is now receiving the slate roof.

Dunkirk on the southern line, with girdle and shield, easily holds the gate against all comers and offers an overgrown Colossus of the south, and rejoices in a pastorate which keeps even step and abreast with every advanced thought and advanced enterprise of church and state.

Findlay, the second city in the conference in population, business enterprise, splendid homes and magnificent distances The First church easily holding place as The largest and most important charge among us, seizes the opportunity to break the record and surpass all competitors in numerical strength, efficiency of church work, amount of salary paid, and amount of benevolent contributions; presenting the parent missionary society an offering of and uniting with the Women's Home and Women's Foreign an aggregate contribution of $2,000. This is a magnificent showing. The pastor has quite recently obtained great favor of the Lord, having found an excellent wife in the Preceptress of Albion college.

Howard has perhaps the largest and most prosperous Sunday school in the city; is well located in the heart of a very growing portion of the town, full of factories, railroads and enterprise, a very elegant church, but to some extent weighted and handicapped by debt.

Third church is planted in the sides of the north, and I must say of her, "Well done." With two large factories consumed by fire during the year on which she largely depended for support, yet this heroic band of men, and if possible yet more heroic women, have struggled on and come to this annual greeting with claims all met and salary all paid, more missionary given in proportion to ability than any other charge in the conference; and eager for the labor, sacrifice and victory of another year.

Fostoria is a strong and prosperous church, one of the very best, and was perhaps never in better condition than now, will show large gains along all lines of church work. The heavy indebtedness which rested on this church for years is cleared off.

Fostoria Circuit has taken no backward step. During the four years of my Eldership sixteen quarterly conferences have been held on this charge and at no time has there been a failure to pay the preachers their full claims, with money left in the treasury. Let me say to all others, "Go and do likewise."

Fremont is a delightful city, located at the head of navigation on Sandusky river. Never has this charge done better work than in the past year. A large increase has been made in all church work, many members added to the Church, improvement in matters of finances and large liberality in caring for connectional enterprises.

Gilboa was only at the last conference added to this district, has four appointments, is located in a section of great natural and acquired fertility and a large hearted and whole souled people. Have enjoyed excellent revivals. Heretofore they have been without a parsonage, but under the leadership of their devoted pastor, who cries "This one thing I do," they have erected, completed and paid for a very neat and comfortable preacher's house.

Houcktown has been blessed with a gracious spirit of revival, is in good shape every way; would be delighted to continue the present pastoral relations.

Hoytsville, composed of the remains of old North Baltimore circuit has but three appointments left. While contending with smallness of numbers and roads for months bottomless, yet they have pushed forward, made a creditable showing; had good revivals and have a snug and convenient parsonage enclosed and will be ready for the preacher who may be sent.

McComb is one of the strong and steady charges, has two churches and in some respects to my mind is one of the most desirable appointments in the conference.

Mt. Blanchard has made no marked advances, has well held her own, discharges all obligations, pays up the salary, makes good collections, stands by the preacher and all the church interests, and is the place the Bishop delights to honor.

North Baltimore: Four years ago this charge consisted of five appointments, lay in an unwieldly shape, almost impossible of service much of the year on account of roads, guards our northern border and confronts the Northern Bear. Two years ago a splendid parsonage was completed and the strongest country appointment moved out by herself. One year ago North Baltimore set up housekeeping on her individual responsibility and also with great vigor set about a new house of worship, which was dedicated according to the service of the church July 12, costing $9,400 and is a gem of sacred architecture. So this young city, with a population of four

REV. J. L. ALBRITTON, OF FREMONT.

thousand, electric lights, promised water works, unlimited stores of oil and gas thoroughly furnished with all appliances and an increased church membership mostly through a great revival of about a hundred, starts out to answer the call of her Lord.

Rawson holds on the even tenor of her way. Loyal, liberal and devoted, she is coming to be one of the most desirable charges. Fourteen hundred dollars have been raised for a new parsonage, which will soon be the preacher's home.

South Ada lies adjacent to and surrounding the college town, fairly holds her own. The parsonage needs to be thoroughly repaired which I trust will be accomplished the ensuing year.

South Bluffton is still awkwardly constituted as it was before and in spite of embarrassments moves steadily on and would like to maintain the present pastoral relations for another year.

Vanlue, honored in the past, holds fast to the present faith. Churches and parsonage, all in good repair, free from debt held to the church by warrantee deeds.

I find many times that boards of trustees are not religiously careful to see that the property which they hold in trust for the church is properly insured. This ought not to be. I find many times that the committe on church records, regarding its creation more for ornament than utility, neglects to see that the church records are properly kept. As we are making history, upon the accuracy of which so much depends, this ought not so to be.

Two district conferences have been held both well attended by pastors and people and have proved themselves occasions of great interest and profit. I think there are fifteen Epworth leagues and Bands of Hope, which have largely enlisted the interest of our young people without at all diminishing their respect for and devotion to the other services of the church. Sunday School work is well held up. Our own church literature almost without exception brought into use, the spiritual life insisted upon, and yet perhaps more and better things are possible if every where we would seek as the subjective point the conversion and salvation of our children and youth. I notice that our ranks are crowded, many are knocking at the door. This in itself is right. The motive as I discern and analyze it is twofold: First and always to be commended an overwhelming sense of "Woe is me if I preach not the gospel." Then there is inseparable from this and never to be divorced an absorbing and soul consuming desire to rescue the pershing, save souls, make the world better and bring forth fruit unto holiness and the end everlasting life. Then at long intervals we find examples of those who seek the ministry as a profession with the thought it is clean and respectable and an occupation to be sought because it brings its votaries into good society and secures a living and competence with comparative ease. The unworthy obtain, as they did in Eli's day, when they came pleading for a piece of silver and a morsel of bread, saying, "Put me, I pray thee, into one of the priest's offices that I may eat a piece of bread."

It is appointed unto man once to die. Rev. James William Shultz died in Gilboa Ohio, January 19, 1891. He was promptly at his post, to him a new charge, and entered upon the discharge of his duties with lofty courage and devotion, had passed his first quarterly meeting, organized his work, and commenced revival efforts, when he was prostrated by an attack of lung fever. In a few weeks the toiling hands were folded, the weary feet were at rest, and the faithful Herald of the Cross had passed to his heavenly inheritance. He leaves to the watch-care and helplessness of the church his young wife and five little children. I commend their needs to the consideration of the board of stewards.

On January 20, 1891, died in good hope of immortal life, in Jennings, La., Mrs. Emma H., wife of our dear brother Rev. P. A Drown. For thirty-two years she wrought in the vineyard of our Lord as pastor's wife, conscious of no higher ambition than the salvation of the lost and the prosperity of Zion. Removed to the south, that better health might come to herself and family, but these fond desires proved delusive. She hallows her southern home with her precious dust and the pure spirit passes to the rest that remains to the people of God.

It may not be out of place for me to say that the day before the last Christmas I laid beside the wife of his youth, with whom he had kept even step in a journey of 55 years my honored father, at the ripe age of 90 years, and who for three-quarters of a century, or nearly three generations of living men, had truly, as did Enoch, walked with God, and had the testimony that he pleased God. For 53 years he served as exhorter and local preacher in the Methodist church. So, in a good old age, full of years, the true riches, the esteem of many friends, love for the church which he loved as he loved his life, and of faith unfeigned, he was laid, for God took him.

And now these brethren dear, having rendered their several accounts, stand girding their loins, eager for the fray for new labors, fresh duties, more arduous toils, fiercer conflicts, a closer walk with God, more and more illustrious victories under the leadership of the Captain of our Salvation until called from the church militant to join the church triumphant which is without the Throne of God.

After the first ballot was announced, some of the pastors in the Findlay district reported, announcements were made and Rev. J. H. Bethards reported the following assignment of pastors to the city churches for Sunday. The pastors first named will preach in the morning and the second one will fill the pulpit in the evening:

Pastors who will Preach on Sunday.

At Memorial Hall, 3 p. m.—Bishop Newman.

Westminster—Rev. J. M. Avann, Rev. A. B. Leonard.

First Baptist—Morning, Rev. L. A. Belt; evening, H. C. Jameson.

First Presbyterian—Dr. E. D. Whitlock, Rev. J. M. Mills.

Central Congregational—Rev. W. G. Williams, Rev. T. T. Wiltsie.

Washington Street Congregational—Rev. J. H. Fitzwater, Rev C. W. Taneyhill.

Third Presbyterian—N. B. C. Love, D. F. Helms.

Fifth Presbyterian—Rev. Frank Money, Rev. Jacob Hoffman.

Ashland Avenue Baptist—Rev. W. W. Lance, G. B. Wiltsie.

Clark Street M. E.—Rev. A. E. Smith, Rev. W. H. Leatheman.

Bethany—Rev. L. B. Rowand, Rev. E. S. Dunham.

West Toledo—Rev. W. R. S. Schultz in the morning.

Detroit Avenue—Rev. D. R. Cook, Rev Joseph H. Carter.

Albany Street M. E.—Rev. J. C. Clemmons, Rev. Wm. Hook.

Erie Street Colored M. E.—Rev. George Mathews, Rev. J. L. Hellman.

Walnut Street German M. E.—Evening. Rev. J. J. Harshbarger.

Lagrange Street—Rev. W. W. Winter, Lagrange Street—Rev. W. W. Winter, Rev. J. Williams.

Heston Street Baptist—Rev. J. W. Hill, Rev. L. B. Cook.

East Side Baptist—Rev. H. J. Bigley, Rev. W. H. Smith.

Memorial Baptist, East Toledo—Rev. R. H. Balmer, Rev. Fred Miller.

Segur Avenue—Rev. Jason Young, Rev. J. W. Holland.

Colored Baptist—Rev. W. G. Littell, Rev. J. Baumgardner.

St. Paul's M. E.—Dr. Bashford, Rev. F. L. Wharton.

Broadway M. E.—Rev. B. F. Crozier, Rev. Stewart Baumgardner.

Third Street—Rev. J. L. Albritton, Rev. M. M. Figley.

Sunday at St. John's.

At St. John's church Sunday the conference love feast will be held at 9 o'clock, followed by preaching and ordination of deacons and elders, after which will be held memorial exercises. In the evening Dr. D. H. Moore, editor of the Western Christian Advocate, will preach.

THE LIMA DISTRICT.

Heavy Advance Along the Line In Presiding Elder Henderson's Care.

In reviewing the work of another year, we have great cause for thankfulness to God for his blessings upon the pastors and their families, and upon the charges of the membership. The messenger of death has not entered any pastor's home during the year. At the last conference Brother Rouch and his wife were quite low with typhoid fever; but God was gracious unto them, and in six or seven weeks after conference Brother Rouch was able to commence his labors on his new charge. Sister Rouch has not been fully restored. Brother Seuman, on account of nervous prostration caused by la grippe, disqualifying him for effective work, asked in May to be relieved. Brother Albert F. Smith, of York Center, Delaware district, was appointed to Celina by Bishop Andrews. His success for the five months he has labored in this new field has transcended my most sanguine expectations. His benevolences are 110 per cent. over last year. The charge is in a very hopeful condition in regard to a new church, so much needed. I confidently expect, and the people of Celina fully believe, that one year from this time a new church, costing not less than $10,000, will be far on the way to completion.

Spiritual Work.

The spiritual condition of the district has improved during the year. The quarterly love feasts have been largely attended, and have been occasions of spiritual fervor. Class meetings have in a general sense improved in attendance, and in their spiritual tone.

The district has been blessed with gracious revivals. Every charge save one has shared in the blessed work. The charges that have shared most largely in the soul saving work are Elida, West Lima, Convoy, Dixon, Ohio City, Delphos, Van Wert circuit, Cridersville, Lafayette and Middlepoint. On each of the first four named charges the conversions were between 100 and 200. On each of the other six named the conversions were between 50 and 100. On the 14 charges not named the conversions ranged between 8 and 50. Total conversions in the district, 1,355; total accessions, including those received by letter, 1,245. This good work was done by the pastors and the members by the use of God's ordained means of salvation. While I believe there is a sphere and a work for true evangelists, yet I do believe that every one whom God has called to preach should in a measure be an evangelist and should have soul-saving as one of the chief ends of his ministry.

Sunday Schools.

I believe there has been more thorough and spiritual work done in the Sunday schools than ever before. The Epworth league movement has been an inspiration and an addition to the Sunday schools. There is a disposition on the part of too many of our Sunday schools to use all or a very large part of the money contributed for the running expenses of the schools. I am glad to report that the pastors have faithfully endeavored to have all our Sunday schools organized according to the discipline and brought into sympathy with the missionary cause.

Children's Day has been more largely observed, and has awakened as a more interest and enthusiasm than in any former year. As to the offerings, I cannot report, whether they have been in advance of last year or not.

Material Work.

Early in the year the beautiful brick church at Elida, costing over $6,000, was dedicated. Much credit is due Bro. Leatherman, who was sent to this charge one year ago, for bringing this church edifice to such a speedy and happy consummation. A new brick church at Wesley Chapel appointment on St. John's charge, costing nearly $3,000, is nearly completed. J. W. Hill, the pastor, is to be congratulated for his success in the management of this new edifice. Soon after the conference Brother Simms moved into the new parsonage at St. Mary's, which he and his excellent wife had labored so hard to build. It was a great achievement under the circumstances; it is a beautiful, convenient and commodious frame building costing about $1,800. Since Grace charge, Lima, was organized, a parsonage has been a great necessity. Brother and Sister Cook entered upon the work of securing means for the building of a parsonage in the early spring. The result has been a beautiful and convenient frame building, costing, including the lot, about $3,000; $1,000 of this amount has been funded at from three to five years,—it being impossible to secure more than $2,000 from the membership, who have done nobly.

Ministerial Support.

At the beginning of the year, on account of the great failure of the corn crop last year and the short wheat crop, there were great fears entertained in regard to the payment of the salaries. The abundant crops this year have greatly relieved the case, but there will be a larger deficit than there ought to be in spite of all that we have endeavored to do in urging the charges to bring up the salaries in full.

Epworth League.

The Epworth league movement has been a great success and blessing on the district. Rev. J. H. Fitzwater, the district president, has been zealous and enthusiastic in this movement. His charge, Van Wert, has a senior and junior chapter, numbering about 285. There are in the district 17 chapters, with a total membership of 1,056. This movement, properly managed, is destined to become a great spiritual and aggressive power in the church. It has a direct tendency to bind our young people together and to make them useful in church work, and to restrain them from indulgences in forbidden amusements and worldly dissipations.

Benevolences.

On account of the depression during the former part of the year, occasioned by the great failure in the crops of last year, there were serious apprehensions that there would be a falling off of the benevolences. The preachers, hoping that the spring would open up more auspiciously, deferred their collections to a later time in the year than usual. The hopes of the preachers were more than realized by the promise of a great wheat crop and fair prospects of a good corn crop. I am gratified to report an advance over last year. Eighteen charges report an advance over last year on all the benevolences, including the Woman's Foreign and Home Missionary societies and the conference claimant fund of $1,410. Seven charges report a decrease of $402. If the charges that report a decrease had simply contributed the amounts they gave last year, the district would have advanced on all the benevolences $1,812, and on missionary $715. There have been some local causes for a little reduction on two of the charges that have reported a decrease. While our advance is not as great as we desired, and not as great as might have been realized, if all the pastors had shown an equal zeal and enthusiasm in working the benevolences, the advance would have been over $2,000. I am thankful that the report is as creditable as it is.

The Vote on the Woman Question.

According to the directions of the last general conference, a vote was taken on each charge, and at each society on the eligibility of women to seats in the general conference as lay delegates. The result of the vote was as follows: For their admission, 1,020; against their admission, 219, or 82.3 per cent for their admission, and 17.7 per cent against their admission.

In closing my report I wish to join all the pastors and the charges and members in heartfelt thanks and praise to our blessed Lord and Savior for the unity and peace that have so generally prevailed during the year, and for all the success that has attended our efforts to build up and enlarge his kingdom.

THE TOLEDO DISTRICT.

Presiding Elder Parker P. Pope Gives an Account of His Labors.

The 33 pastors of Toledo district have labored earnestly and zealously to build up the kingdom of their Lord during the past year, and have without doubt earned their Master's plaudit, "Well done, good and faithful servant." As their reports will show, to every interest committed to their care they have been true.

At the beginning of the year some changes became necessary, changes understood as probable when the appointments were made. Dustin Kemble, stationed at Perrysburg, was transferred to the North Ohio conference, and J. C. Shaw was appointed to fill the vacancy at Perrysburg. Under the direction of Bishop Andrews, Carlisle B. Holding, a member of the Michigan conference, was secured to supply Clark Street and Bethany, and has done admirable service on that young charge. R. B. Olive was secured to supply the vacancy at Gibsonburg, and has gained a warm place in the hearts of the people there. Other supplies were secured and appointed at the conference session.

In July, C. Jones, a local preacher from Findlay district, was obtained to fill the vacancy at La Carne, made by the withdrawal of Charles E. Wharton.

The district conferences of the year were largely attended, and both were occasions of unusual interest and profit. The various interests of the church were studied and discussed to the advantage of all who attended the sessions.

The Epworth league interests are growing, 22 leagues and four junior leagues being now organized; five other young people's societies also exist and co-operate with them. An enthusiastic district league was held at Clark street church, Toledo, on August 26, with an attendance of about 100 delegates. The spirit of prophecy is with our young people, and that charge and pastor are to be congratulated where a live league exists.

Revival services were held during the winter on every charge, and at nearly every appointment upon the district, and many were added unto the church. Every charge received additions, some most gracious revivals occurred, and nearly 800 conversions were reported.

The spiritual condition of the various charges is encouraging. In many places the class meetings are well attended. The congregations have never been better than during the past year. The week night prayer meetings are seasons of refreshing. The appointed means of grace do not languish. Christ is honored in testimony and remembered at the communion table.

Our Sunday schools are under careful management. They are loyal to Methodism, use our Methodist literature, give to the missionary cause, study the scriptures and in many places commit the church catechism, and are taught in children's classes. Quarterly conference reports indicate that the church periodicals have been carefully presented, and the number of Advocates taken has been increased. The church paper ought to be in every Methodist home. The pastors have faithfully sought to extend its circulation. We welcome the proposition of the publishers to help them.

Every benevolence of the church was apportioned to the charges early in the conference year, the apportionments amounting in all to about $6,000. We have constantly urged, and the pastors have seconded our efforts, that every collection be faithfully presented and every blank be filled. As nearly as an estimate can be made, an increase will appear in most of the collections and the large advance of last year on missions and superannuated funds will be maintained, though one or two charges have not been able to maintain the record of last year, because of unforeseen calamities. Yet others will advance sufficiently to cover the loss. $3,250 was apportioned for missions and $900 for the superannuated collection.

The Woman's Foreign Missionary society has shown its accustomed activity, under the leadership of Mrs. S. W. Flower, of St. John's church, as district secretary, and an advance has been made in the contributions to that society.

The Woman's Home Missionary society has vigorously prosecuted the work they have undertaken and have made a very satisfactory record. The figures in this case are found in the tables of our statistics.

The admission of women occupied the attention of the membership during the month of November, and the vote was taken in every charge. About 22 per cent of the membership voted, the result on every charge favoring admission, and the aggregate vote numbering: For admission, 1,035; against admission, 183.

The stringency and uncertainty of the money market have made the work of meeting financial claims unusually difficult in some of the charges, and some deficiencies will be found, but in most cases earnest work and the loyalty and honor of the membership will carry these well-earned claims to be met. A well laid system well worked all the year through would raise with ease every allowance that was made, and would have put some to a much more reasonable figure.

The material improvements have kept pace with former years. The church at Elmore has paid $400 on old indebtedness and improvement, and is at last wholly free. Gibsonburg has paid $150 on parsonage debt, has secured a lot and a subscription is being for a new church that will afford room for the congregation there. The subscription for a new parsonage at Liberty Center makes it a certainty, and it will be built at once. Money is raised and improvements are under way at West Mill Grove and Jerry City on Freeport circuit. At Bethany, East Toledo, the church has been made beautiful and comfortable at an expense of $800, all paid. Lakeside has enlarged the chapel on Lakeside grounds and paid for the improvement, but the congregation has grown and the church must be enlarged again. Repairs have been made upon the church and parsonage at Perrysburg, Waterville, Maumee, and Third street. Genoa has cancelled its indebtedness; Pemberville has raised and paid $300 on debts and purchased a new organ. A much needed addition has added greatly to the comfort of the parsonage and the parson and his family at Oak Harbor. Wauseon has refitted the Sunday school rooms in their commodious church. The church at Swanton has paid the last claim against that society. Street improvements have been made at St. John's and Broadway at considerable expense. Nineteen charges owe no man anything, and four others owe less than $100. The entire indebtedness on all church property in the district is less than $10,000, and less than $2,000 of that is unprovided for. Five churches have been dedicated during the conference year. One at Port Clinton, costing $14,500, was dedicated October 19. Rev. C. W. Taneyhill has enjoyed the fruit of his labors in the use of that delightful place of worship during the past 11 months. Shoup's church, Freeport circuit, built under the direction of Rev. H. W. Hill, a local preacher of that charge, was dedicated by the presiding elder on Feb. 8. It is a neat brick structure, an honor to God and a blessing to the neighborhood. Albany street church, built many years ago, has in recent times been seated and furnished and the indebtedness provided for at an expense of $1,400, $800 of which was raised under Rev. J. C. Shaw's pastorate and $600 was sub

THE THIRD DAY.

Continued from Fifth Page.

gation rejoice together in overcoming the calamity so speedily.

A handsome frame church has also been built at Bradner, Freeport circuit, the result of the inspiration, faith and hard labor of the pastor, Rev. W. U. Spencer, and a noble band of believers. It was dedicated, the debt all provided on Aug. 28. The church contains three class rooms and cost $2,700.

At McClure, Grand Rapids circuit another neat and commodious church has been built costing $3,000, under the labors of Rev. J. C. Sinclair. The church is finished, and stands waiting to be dedicated, which rite we expect to perform the first Sunday after conference. This will make the sixteenth church finished and dedicated on Toledo district in four years, or one every quarter. Subscriptions are being taken and plans arranged which bid fair to continue like results for some time to come.

Eight churches and eight parsonages ought to be built on the district in the next two years. Faith and works will do it; whether these will be found in sufficient abundance remains to be seen.

By constitutional limitation Rev. J. H. Bethards completes a most successful pastorate at St. John's, Toledo, and leaves to his successor a loyal and united congregation, with a large body of young people and the largest Methodist Sunday school in Toledo.

The Toledo District Methodist has been printed in the interest of Methodism on Toledo district for two years; 3,000 copies have been distributed monthly. It has proved a benediction in many ways, uniting the charges in closer sympathy, bringing the people and preachers nearer together, while helping and not hurting the Advocates.

With devout thanksiving to Almighty God do we record the fact that our lives have been precious in his sight. Death has not been permitted to deplete our ranks. Only once has death entered any of our homes. He came into the home of Brother Hocking in early spring time, and in a day, almost without warning, claimed as his prey their little daughter, a bright and beautiful child. They laid her body in the grave with true parental sorrow, but confiding in God who doeth all things well.

With heartfelt gratitude for the continual kindness and encouragement, the confidence and love shown me uniformly by my brethren, and from the laity likewise, as I have labored with them, is this report written.

W. F. M. S. ANNIVERSARY.

Interesting Meeting Yesterday Afternoon Addressed by Dr. Gracy.

The Women's Foreign Missionary society anniversary, yesterday afternoon, was largely attended and was very interesting. A splendid address was delivered by Rev. J. T. Gracy, D. D., F. O. S., on the "Religion of the Coming Man." He is a very able and entertaining speaker, and handled his subject in a masterly manner. He contended that the world is becoming better all the time and religion is constantly being extended. He spoke of the missions the world over, and gave high praise to the women workers in the fields at home and abroad. The women are the hope of the church, and their influence is to be felt everywhere.

LAST NIGHT'S MEETING.

Drs. George and Green Talk on the Subject of Miss ons

The large auditorium of the St. John's church was crowded to its utmost last evening, the event being the Missionary anniversary. After the conclusion of the opening exercises, Rev. Dr. George, of Jersey City, an earnest and devoted missionary worker, was introduced.

Dr. George is a man of striking presence, possessing an address that is pleasing and entertaining. He is thoroughly conversant on missionary enterprise, and during his short talk conveyed to his audience in a most convincing and interesting manner, the extension of the missionary work and the good that is being accomplished. He gave a sketch of mission work, stating that the human race was but an offering of missionaries; that our present knowledge of God, and the gospel came through the teachings of the apostles, inspired with the divine love and spirit of Christ.

He then spoke most feeling of Dr. Thomas Koch, the famous English missionary, who hazarded the dangers of sea voyage after voyage, in times when such trips were attended with extreme peril, to implant in America the word and teachings of God.

In speaking of the money contributed and expended in missionary work, he referred to the "Heathen at Rome," and stated that if the American people would stop and consider the vast sums of money expended in this country every year for churches and other purposes of a like nature that the heathen at home could and were taking advantage of the expression "Heathen at Home" would never be voiced again.

Dr. George was a missionary to Arizona and Mexico, and related several interesting incidents in the life of a missionary on the border, illustrating the success and good that has been and is being accomplished. He spoke of Stanley and the avenue to civilization he had thrown open through the wilds of Africa by his untiring efforts, and utter disregard of the dangers and exposure and privations of such an errand. He eulogized in a most touching manner the name and memory of David Livingston, relating a pleasing sketch of the noted explorer, closing with a tribute to the grand achievements of this man.

Dr. Green, who has spent years as a missionary in Mexico, and who is at present actively engaged in the work, was next introduced.

Dr. Green is a man of powerful stature and of a firm disposition that conquers and never fails. He is plain spoken, and his sketches and incidents of life in Mexico, were received with great interest by his hearers.

He confined his talk to the habits, superstition and ignorance of the natives and of the difficulties a missionary had to contend with when among them. One of the difficulties, he said, confronted the missionary as soon as he set foot on Mexican soil, and that was, his total ignorance of the Spanish language. He related an amusing incident of his first experience in this regard, and said that he often envied the most miserable cur in the streets, as it understood more Spanish than he did. He then told several humorous and decidedly interesting stories of the way a tutor in the Spanish language will invariably mix it up with English.

Dr. Green speaks Spanish fluently, and with an expression that is pleasant to hear. He spoke of the ignorance of the people, which, coupled with their superstitious fears, is a great impediment to the success of a missionary. He illustrated with an interesting story. He bought 14 mats of a native at 25 cents each. He gave the fellow $3 50, who at once exclaimed that it was not right, that there should be $4 more. Mr. Green then went into the house and returned with 14 quarters. He told the dealer to lay down a mat and keep count. He laid a quarter on each mat, until the fourteen were thus purchased. He then figured it up and the result was $3 50, but the peddler was still firm that there should be $2 more. He didn't know why, but knew there should be $2 more anyhow. He touched on the religious belief of the natives and their affection for images or household gods, of the perils of the life, and many other incidents of life in Mexico.

The Farley Select Committee.

The select committee of nine, investigating the charges against Rev. G. H. Farley, met yesterday afternoon, at which meeting proper charges were preferred and the investigation proceeded. The committee continued its work this afternoon, and thus far it is impossible to tell what the outcome will be.

That Class in Logic.

The members of the second-year class who failed in logic, but were passed on condition that they make up their studies, have changed their position to a very different one from yesterday. It will be remembered, that yesterday the class claimed that they had not had a fair examination in this study, and that Rev. O. B. Wiltsie had given them questions from a book other than the one prescribed in the course. They demanded another examination at once, and this was granted them by the conference.

Last evening, however, when they met to be examined, the class backed down and resolved not to take the examination, but to study up and take the examination next year in regular form.

Considerable bad feeling was caused by this incident, and now the members of the class are blaming each other for causing the row. Rev. Wiltsie, naturally felt hurt over the charge that he had not given them a fair examination, and he states that it was all from the proper books. The class apologized to him last evening.

THE PROGRAM

For This Afternoon and Evening and the Rest of the Week.

3 p m—Proposed joint session of clerical and lay conference.
7:30 p m—Freedman's aid anniversary, address by Rev. G. W. Gray, D. D.

SATURDAY.

8:30 a m—Conference session.
3 p m—W H M S anniversary, in charge of Mrs W G Williams; address by Rev T L Wiltsee, M A.
7:30 p m—Missionary sermon by Rev Daniel Carter, of Spencerville.

SUNDAY.

9:00 a m—Conference love feast.
10:30 a m—Preaching with ordination of deacons and elders.
3:00 p m—Sermon by Bishop J P Newman, D D LL D, at Memorial hall.
7:30 p m—Preaching service.

Notes.

Deputy Postmaster Wm. Corlett visited the preachers last evening.

Rev. W. H. Sloan, of the First Baptist church, visited the conference this morning.

The conference trustees, the board of stewards and several committees held meetings last evening.

Dr. Sanford Hunt, of the M. E. publishing house at New York, arrived today and occupied a seat beside the bishop.

A committee of three laymen from Lima arrived yesterday to look after the new pastor who is to be sent them.

A large number of the preachers and laymen take advantage of the bishop's invitation and visit him in the evening.

A large amount of electioneering was done about the church last evening by the candidates for delegateship, both lay and clerical.

The side remarks and sayings of Bishop Newman while presiding are most interesting and lighten the routine work of the conference.

Elder Gavitt is one of the most regular attendants at the conference, occupying a front seat at every session and taking great interest in the proceedings.

The ladies of St. John's church have proven a wonderful help in taking care of the conference. They spare no pains in making the visitors feel at home.

Judge Martin Perkey, of Defiance, a superannuated member of the conference, arrived this morning, and was on hand to vote for delegate to the general conference.

When the preachers were making their reports Bishop Newman insisted that they state the results of their revivals. "I want a little salvation with this routine work," said he.

Presiding Elder Albright, of Delaware district, announced this morning that he had just received a numerously signed petition asking for the return of Dr. Waters to Marysville, and he hoped it would be considered.

At the meeting of the conference trustees last evening it was decided to ask for the appointment of Rev. John W. Donnon to act as agent during the year for the collection of funds for the endowment of the central Ohio conference.

The preachers hold a sort of reunion and reception in the Sunday school room of the church every evening, and so spend several hours together very pleasantly. Many citizens, even outside of the Methodists, visit the church for the purpose of meeting the clergymen.

Rev. J. M. Mills, of Defiance, is one who is not anxious about next year's work, as he will be returned to his present charge. He has always served full time at his charges, being pastor of five charges in 15 years. Defiance is his sixth appointment.

A large amount of gossip is prevalent as to the appointments of pastors to various charges, and no doubt some of it is with good foundation. Still it is probable that part is not, and no one can tell just what will be done until the announcements are made on Monday. The BEE therefore refrains from adding to the flame.

A number of the members were very indignant over the public ballot taken on the women question yesterday. "Those who voted against the proposition will be placed in the light of opposing the advancement of women," said one, "when such is not the case at all. The open ballot was simply an attempt to intimidate all into voting for the proposition."

Bishop J. P. Newman will speak in Memorial hall Sunday afternoon, and the indications are that the great hall will be filled. The ushers for that occasion will be F. H. Tanner, J. W. St. John, Dell Jones, Charles Tanner, Arthur Emmick, Waite St. John, Frank Eckhardt, J. W. Callard, G. W. Bartlett, Floyd Webster, Will St. John and James McClean. These are requested to be at Memorial hall promptly at 1:30.

BIOGRAPHICAL.

Brief Mention as to the Lives of Members of the Central Ohio Conference.

The Bee has endeavored in the past few weeks to gather data relative to the personnel of the membership of the Central Ohio conference. The efforts have not been entirely successful, either from the modesty of the preachers or lack of time on their part. The usefulness of such knowledge of the make-up of the body cannot be overestimated, but since the same could not be had of all those secured are given, which, it is hoped, will prove interesting:

J. L. ALBRITTON

Was born in Graves county, Ky., on the 13th of September, 1847, and was converted August 18, 1866. He was licensed to preach on the 7th of December, 1867, and recommended for reception into the traveling connection at the same time. He was received into the Kentucky conference in the spring of 1868, and appointed as junior preacher to the Harrisburg circuit and was reappointed in charge of the upper part of the same work the next year. He next served two years at Louisa, one at Coalton, two at Paintsville, one at Concord, three at Shinkle chapel, Covington, and three at Wesley, Louisville, and one at Ludlow and West Covington. In 1882 he was transferred to the Central Ohio conference and appointed to Lima, South charge, and remained there one year, during which time Grace church in South Lima was built and dedicated. In 1883 he was appointed to St. John's, Toledo, and remained three years, then to Bellefontaine for four years, during which time the church there was built, at a cost of some $34,000, and paid for. He has just closed his first year at Fremont. Mr. Albritton was ordained as deacon by Bishop Thompson in 1870, and elder by Bishop Scott in 1872. Six churches have been built under his pastorates. While a good preacher, Mr. A. is also handy with his pen. For the last five years he has represented the Bee at the annual sessions of the conference, and his reports have been spicy, besides having his share of the newspaper man's delight known as "scoops."

W. W. WINTER.

W. Wilshire Winter was born in Londonville, Ohio. His father was born in New Haven, Connecticut, in religious profession—a Quaker. His mother, Christina Tingley, was a sister of Bishop Simpson's mother, and of an old Methodist family of Virginia. Both grandfathers, Johnathan Winter and W. Tingley, were soldiers in the American revolution. The latter was in the battle of Yorktown, and at the surrender of Lord Cornwallace. The grandmother Tingley was in hearing distance of the clash of arms, and sat in an apple tree listening to the conflict of armies that decided the fortune of a nation and the life of a companion—she dying at the age of 97 years. The subject of this sketch was converted in Nashville, while there teaching, Feb. 22, 1840, under the pastorate of Rev. James McMahon. He was educated at Norwalk seminary and Oberlin college, working three hours a day to pay his board and room rent, and teaching a three months' school during vacation to replenish his wardrobe and pay for books and tuition. He was received into the Delaware conference in 1842, Bishop Simpson presiding, ordained a traveling deacon by Bishop Morris in 1844, and an elder by Bishop Waugh in 1846, serving the following charges: White Sulphur Springs Mission, Little Sandusky, Marysville Circuit, Bellefontaine Circuit, St. Marys, Greenville, Wauseon, Bryan, Degroff, Bluffton, Defiance, Devers, Upper Sandusky, Galion, Napoleon twice, Bellefontaine, Kenton twice, Lima twice, South Toledo, St. Paul's church at Toledo, Broadway at Toledo, Fremont, and the Findlay district four years. Dr. Winter was elected and served as delegate in the general conference in 1876, and has just closed the third year on Dunkirk charge. As his peroration, Mr. Winter repeats from Solomon: "Let another man praise thee and not thine own mouth; a stranger and not thine own lips." The gentleman has spent an honorable life in the ministry, and the world cannot fail to be better as a result of his arduous labors.

S. J. COLGAN

Is a native Ohioan, born in Williams county January 20, 1848. His parents were among the first settlers of the county, and their cabin the first preaching place within its lines. His education was secured at what was then known as the Bryan academy, and in after years took a pastoral course in the Boston Correspondence school. Mr. Colgan united with the United Brethren Church and Conference in 1879, remaining with that denomination for seven years. He was received on his credentials from that church into the M. E. Church and Conference September, 1866, and has since been the pastor at Sherwood, Gilboa and Holgate, being at the latter place now. He was ordained elder by Bishop Glossbrener, September, 1883.

I. M. JAMESON

Now bears a superannuate relation to the conference. Born in Hancock county, Ohio, August 9, 1843, of religious parents, his father being a local preacher in the M. E. church, and his mother a faithful member, he thus had good advice and example in early life. When quite young he was converted and united with the Methodist church. Licensed to exhort in 1868, he served and then joined the Ohio Central conference in 1871. He was only able to give nine years' work to the church before his health failed, and was compelled to go on the superannuate list. He resides at Longley, on the Hocking Valley road.

JASON WILCOX

Came with his parents to Ohio in 1834, settling in Westfield, Medina county. His family resided prior to this in Martinsburg, Lewis county, N. Y., where Mr. Wilcox was born. Father and mother were members of the M. E. church, and consequently it is difficult for the subject of this sketch to remember a time when he was not surrounded by Christian influences. Converted at 17, Mr. Wilcox felt a call to labor for the spread of the gospel. His connection with the church dates from the early part of 1839. License to exhort was granted in 1841, and in 1845 became a local preacher. Educational advantages were such as afforded by the common district schools of that day, the village select school, and several terms at the Norwalk Seminary in 1842, '43 and '44.

Mr. Wilcox was admitted on trial in the North Ohio conference in 1853 at Mt. Vernon, and appointed to Cherokee circuit. Subsequent appointments were Huntersville, Mt. Blanchard, Spencer, Allentown, Elida, Montpelier, Woodville, Fort Recovery, and Arcanum. At the session of the conference in 1865, he was granted a supernumary relation and removed to Cass county, Mo. Here he served the church for nine years without compensation, save that which came from an effort to do good. In 1874 he returned to Ohio, since which time he has preached as often as opportunity offered. In all these years Mr. Wilcox has endeavored to serve and build up the church which has honored him with membership in its fold and ministry. He now resides at Norwalk.

WILLIAM W. LANCE, A. M.

This gentleman was born in York, Pa., May 28, 1846. He, like most of the members of the conference, is a graduate of the Ohio Wesleyan university, at Delaware, finishing his studies in 1871. He received the degree of A. M. in cursu in 1874 from the same institution. He entered the Central Ohio conference in September, 1871, and has served the following charges: Middletown, two years; Marseilles, three years; Carey, three years; Dunkirk, one year; Bryan, three years; Van Wert, three years; Defiance, four years, and Sidney, one year. Mr. Lance is one of the popular preachers of the conference.

JOHN L. HILLMAN

Was born July 8, 1865, near Newark, O., and is therefore a comparatively young man. He studied in the common school, and received the degree of A. B. from the Ohio Wesleyan university in June, 1886, and S. T. B. from Boston University School of Theology June, 1889. Mr. Hillman was admitted to the Central Ohio conference September, 1886, and was pastor of the North Reading M. E. church, North Reading, Mass., for four months; Union Church of Christ, Dennis, Mass., 18 months, and at West Liberty for the past two years.

ELI MYERS.

This member was born in Hancock county, southeast of Findlay, April 11, 1859. He studied one year in the normal school at Vanlue, two and a half years at Findlay, and then three years at the Delaware university. He at once entered the active work, and served in four appointments: Gilboa, Williams Center, Ayersville, and Kalida, all in the Defiance district, being at the latter place at present.

D. B. RINEHART

Is an Ohio boy, having been born in Fairfield county November 21, 1825. In early childhood he moved with his parents to Shelby county, where he received a common school education. At the age of 11 he lost his mother and therefore his home, going into a grocery store as clerk. At 32 Mr. Rinehart was converted and united with the M. E. church. Ten years later, in 1842, he entered the local ministry, and traveled as a supply at Caldwell's for two years and Spencerville one year. In the fall of 1869 he was admitted to the Central Ohio conference, and has filled the following charges: North Van Wert, Little Sandusky, Mt. Victory, Larue, Fowler City, Hardin, Rushsylvania, West Cairo, and Wilshire. His health then gave way, and he has been on the superannuated list for the past three years at Anna. Mr. Rinehart enlisted at the breaking out of the war, and remained until August, 1865, retiring with the rank of captain.

A. L. HUGHES.

Was born in Summerfield, Noble county, Ohio, February 23, 1866. Attended the Ohio Wesleyan university, but graduated at Concord, Virginia. Before entering the ministry, he taught school. Beginning preaching in the West Virginia conference, his first charge was Mercer circuit, which lay partly in West Virginia and partly in old Virginia. Two years were spent there, after which he was sent to Raleigh, Va., one year, and to Point Pleasant one year, when he transferred to the Central Ohio conference, and has just closed his first year's work at Jackson Center.

J. WILLIAMS

Was born in Carroll county, Ohio, September 22, 1846, and was educated at Mount Union college. On leaving college, his health being somewhat impaired, he was advised by Dr. William Cox, presiding elder of the Canton district, East Ohio conference, to rest a year. He at once procured a position as book-keeper and cashier with C. E. Holden, of Mineral Point. During this year he preached every Sunday to the miners, and built a church costing $2,500, paid for it, and saw it dedicated by Dr. Pershing of Pittsburg, Pa. The following year Dr. David Rutledge, presiding elder of the Delaware district, procured him for Scott Town charge. At the end of his first year he entered the Central Ohio conference on trial. He has served the following charges, at the

Scott Town, two years; La Rue, three years; Quincy, two years, where he built a new church at Pemberton, and left it free from debt. He also served Detroit Avenue, Toledo, two years, and Delta three years, where he was instrumental in erecting one of the finest churches in the northwest, which was dedicated by Dr. Cranston, the debt being provided for in full.

In June, 1861, Mr. Williams enlisted in Company A, Ninety-eighth Illinois V. I., and was taken prisoner of war before he was 17 years old; veteranized in the One Hundred and Sixty-fifth O. V. I., and was taken to Gen. R. S. Granger's headquarters, where he remained until the close of the war. He is now serving a fine congregation at McComb.

C. R. HAVIGHORST.

This gentleman was born December 28, 1862, in Alton, Ill., and was licensed to preach in 1880. He was educated in the Iowa Wesleyan university, the German college at Mount Pleasant, Iowa, and the Boston University School of Theology, and received the degrees of A. B. and A. M. in cursu. Mr. Havighorst was principal of the Napoleon schools for three years, and filled a similar position in the Fremont schools, also for three years. His first appointment as pastor was at the First church in Findlay, to fill out the unexpired term of Rev. L. E. Prentiss, and next went to Hicksville for two years. Last year he was appointed to Bellefontaine, and has just closed a very successful year.

RICHARD WALLACE

Mr. Wallace resided in Knox county, Ohio, until 14 years of age, having been born May 14, 1849. The family moved to Wood county, settling near Perrysburg. When 16 years old young Wallace went into the war, enlisting in the 182d O. V. I., and remained until its close. Returning to Perrysburg, he went to school, and finished his education in the Baldwin university, at Berea, O. Mr. Wallace joined the Central Ohio conference in 1871 at Kenton, since which he has served the following charges: Springfield and Swanton circuit, one year; Stryker, two years; Delta, three years; Bowling Green, two years; Fostoria, three years; Trinity church, Lima, three years. He is at present located at Marion, where he has just closed his fourth year. During his ministry Mr. Wallace has built six churches and one parsonage, the church at Marion being a fine edifice.

C. S. BARRON.

Entered the Central Ohio conference September 19, 1883, at Findlay. He was born in Ligonier, Westmoreland county, Pa., June 8, 1854. Received his preparatory education at the Ligonier academy and Mount Union college, and completed it at the Northwestern University and Garrett Biblical Institute, Evanston, Ill. He received the degree of A. B. May 25, 1880, and that of B. D. May 17, 1883. Mr. Barron has been located at Mendon, Florida, Montpelier, Versailles and Spencerville circuit.

JOSEPH H. CATER.

The pastor at Bettsville, was born at Martin Fenn, near Lincolnshire, England, November 9, 1836, and came to this country with his parents at the age of 17, settling near Oberlin, Ohio. He attended Oberlin college for four years, but did not graduate in any course. He was one of the charter members of the M. E. church at Oberlin. Mr. Cater was licensed to exhort while there in 1859, and for the next 11 years farmed as an occupation near Norwalk. During that time he preached quite frequently as a supply, and for six years of his time was superintendent of a Sabbath school near by.

Mr. Cater began active work as a supply in 1870 at Joppa, Lorain county. In 1871 he filled a station at New London, took into the church 65 members, and built a parsonage. In 1872 he was received into the Central Ohio conference and went to Ayersville, Defiance county, where he remained for two years. In 1874 he was ordained a deacon and stationed at West Unity, remaining three years. Bishop Ames in 1876 ordained him elder and he has since filled the following appointments: Sylvania, Forest, Celina, Wapakoneta, Dunkirk, Vanlue, and Bettsville.

Mr. Cater was married at Oberlin in 1862 to Miss Hannah Bodin, of that place, who is still living. There are two daughters in the family, both married.

M. C. HOWEY

Is an Ohio man, born at Patterson, Hardin county, December 19, 1858, and has turned his 32d year. He spent his boyhood days on a farm in Hardin county, and was converted at 18 under the pastorate of Rev. T. H. Wilson. In August following Mr. Howey was licensed to exhort by Rev. Daniel Carter in the year 1879. He attended the union schools at Patterson and Kenton one year each, and next went to the Ohio Wesleyan university for three years, and was a member of the class of '85. Leaving school, he went to Chicago and graduated in a school of elocution. Coming back, he entered the Central Ohio conference at the session held in Sidney, September 15, 1882, and was appointed to the charge at Gibsonburg, and has since served at Adrian, Florida, Paulding, and Montpelier, his present charge. In June, 1891, Mr. Howey completed a classical course at Taylor university, and received the degree of B. A. in cursu.

WALTER H. LEATHERMAN.

Was born at Versailles, O., and was raised on a farm. He learned to toil with head and hands. Taught school three years, and worked his way through two colleges. He was graduated from the Ohio Weslyan university in 1885 in the Classical course, receiving the degree of A. B., and a few years later the degree of A. M. He was graduated from Drew Theological seminary, Madison, N. J., May, 1888, receiving the degree of Bachelor of Divinity. He took three special courses at the same institution, as follows: Metaphysics, Belles-lettres, and Ancient and Modern Hymnology.

During his last two years at Drew seminary he had the work of assistant pastor in Cornell Memorial M. E. church, New York City, spring of 1886 to 1887, and was pastor of Fifty-sixth Street M. E. church from the spring of 1887 to 1888. In May, 1888, Mr. Leatherman returned to Ohio and was appointed to Saint Paris, in the Central Ohio conference, to fill out an unexpired term. He entered the Central Ohio conference in September, 1888, and was returned as pastor at Saint Paris until September, 1890, when he was sent to Elida charge where he still remains. Good success has attended his work, and more than five hundred people have been converted in meetings held.

GEORGE MATTHEWS.

Who has just closed his fourth year on the Leipsic charge, was born in Staffordshire, England, in the year 1846. He was converted to God and united with the Primitive Methodist church at Hanley, England, in 1866, and came to the United States in 1868, with credentials as a local preacher in training for the itinerancy. He was ordained elder at the Protestant Methodist conference at Bellbrook, O., September 3, 1871, and for two years and Spencerville one year. In the fall of 1869 he was admitted to the Central Ohio conference, and has filled the following charges: North Van Wert, Little Sandusky, Mt. Victory, Larue, Fowler City, Hardin, Rushsylvania, West Cairo, and Wilshire. His health then gave way, and he has been on the superannuated list for the past three years at Anna. Mr. Rinehart enlisted at the breaking out of the war, and remained until August, 1865, retiring with the rank of captain.

A. L. HUGHES.

Was born in Summerfield, Noble county, Ohio, February 23, 1866. Attended the Ohio Wesleyan university, but graduated at Concord, Virginia. Before entering the ministry, he taught school. Beginning preaching in the West Virginia conference, his first charge was Mercer circuit, which lay partly in West Virginia and partly in old Virginia. Two years were spent there, after which he was sent to Raleigh, Va., one year, and to Point Pleasant one year, when he transferred to the Central Ohio conference, and has just closed his first year's work at Jackson Center.

J. WILLIAMS

Was born in Carroll county, Ohio, September 22, 1846, and was educated at Mount Union college. On leaving college, his health being somewhat impaired, he was advised by Dr. William Cox, presiding elder of the Canton district, East Ohio conference, to rest a year. He at once procured a position as book-keeper and cashier with C. E. Holden, of Mineral Point. During this year he preached every Sunday to the miners, and built a church costing $2,500, paid for it, and saw it dedicated by Dr. Pershing of Pittsburg, Pa. The following year Dr. David Rutledge, presiding elder of the Delaware district, procured him for Scott Town charge. At the end of his first year he entered the Central Ohio conference on trial. He has served the following charges, at the

Scott Town, two years; La Rue, three years; Quincy, two years, where he built a new church at Pemberton, and left it free from debt. He also served Detroit Avenue, Toledo, two years, and Delta three years, where he was instrumental in erecting one of the finest churches in the northwest, which was dedicated by Dr. Cranston, the debt being provided for in full.

In June, 1861, Mr. Williams enlisted in Company A, Ninety-eighth Illinois V. I., and was taken prisoner of war before he was 17 years old; veteranized in the One Hundred and Sixty-fifth O. V. I., and was taken to Gen. R. S. Granger's headquarters, where he remained until the close of the war. He is now serving a fine congregation at McComb.

C. R. HAVIGHORST.

This gentleman was born December 28, 1862, in Alton, Ill., and was licensed to preach in 1880. He was educated in the Iowa Wesleyan university, the German college at Mount Pleasant, Iowa, and the Boston University School of Theology, and received the degrees of A. B. and A. M. in cursu. Mr. Havighorst was principal of the Napoleon schools for three years, and filled a similar position in the

CONFIRMED.

The favorable impression produced on the first appearance of the agreeable liquid fruit remedy Syrup of Figs a few years ago has been more than confirmed by the pleasant experience of all who have used it, and the success of the proprietors and manufacturers the California Fig Syrup Company.

THE LAY DELEGATES

Meet in Quadrennial Conference

And Name Judge Lawrence and A G Williams as Delegates—Levi Meredith and J. W. Tilton Alternates.

Over one hundred delegates of the lay Central Ohio conference met at St. Paul's church this morning in convention to elect two representatives to the general conference, to be held in Omaha, Neb., in 1892.

Candidates were numerous and some lively campaigning was indulged in.

The delegates were late in getting together, and considerable delay was experienced in getting down to business.

The convention was called to order by Mr. E. R. Hull, and W. Z. Davis, of Marion, was unanimously elected to temporary chairman. He acknowledged the honor in a few choice words.

Dr. W. A. Bolt, of Kenton, was selected as temporary secretary.

The chair then called for the appointment of committee.

It was suggested and approved that one delegate from each district be appointed on the committee on credentials.

The following were nominated: J. L. Pray, Toledo; B. W. Brown, Delaware; J. Winnig, Defiance; J. S. Siemmons, Findlay; A. Butler, Bellefontaine; C. McCurry, Lima.

The chair suggested that the delegate vouch for the district to save time.

Mr. Beatty stated that the delegates had credentials and it was no more than proper that they should be represented so that it could be ascertained who and how many were present.

This point raised led to the question as to the vote of a delegation, whether it should be entitled to a vote as a whole, whether full membership was present or not. The chair stated that this question was not before the convention and determined it out of order.

Mr. Hiett moved that a delegate from each district be named to serve on a committee on permanent organization.

Several names were presented when a point of order was taken on the ground that it was out of order to select committeemen before the committee on credentials had reported. It was stated that one name had been presented who was not an elligible member of the convention.

The chairman entertained the motion to appoint members of the committee on permanent organization and the following names were reported: Austin Bishop, Toledo; A. Earls, Delaware; D. J. Taylor, Defiance; J. B. Wagner, Findlay; Marion Guthridge, Bellefontaine; E. L. Durbin, Lima.

A recess of 15 minutes was then taken, for these committees to deliberate.

At the expiration of this time the chair called the convention to order, and received the report of the two committees. The committee on credentials was first to report, which was made by district, each showing its number and names of delegates present, who were eligible to a vote in the convention.

The committee on permanent organization recommended that the temporary organization be made permanent, which report was approved.

On motion of Mr. Hiett, the secretary was directed to read the names of delegates present.

The question was then raised as to how the delegation should vote, by those present, or the number allowed to each district.

It was moved that only the votes from delegates present be counted. Before the motion was submitted considerable discussion was incurred on the subject. On taking a vote the motion prevailed.

The secretary reported 111 delegates present, distributed by districts as follows: Delaware, 16; Toledo, 36; Findlay, 9; Defiance, 17; Bellefontaine, 15; Lima, 17.

Delegates came in later and presented credentials, and their names were enrolled, adding four to the Defiance and one to the Lima district.

It was resolved that a majority be necessary to a choice.

Mr. John Freeman, of Marion, was appointed assistant secretary.

On motion of E. R. Hiett, it was resolved to call the ballot by districts, according to the printed list.

A motion to adjourn for a recess of 15 minutes, in order to caucus a little, was made and required a standing vote to decide, and resulted 58 to 38 in favor of a recess.

At the end of 15 minutes the convention was again called to order and proceeded to ballot.

A motion prevailed to vote for two candidates at one ballot, and nominating speeches be limited to five minutes.

A resolution was presented that the delegates elected be instructed to vote and cast their influence for admitting women to the general conference. No second was heard and the resolution was dropped.

The nomination of a candidate was then in order.

H. R. Finneyfrock, of Fremont, in a neat speech presented the name of H. J. Lockhart, of Fostoria, as a candidate.

J. W. Zeller, of Findlay, presented the name of Dr. E. T. Nelson, of Delaware.

William Haines, of Marysville, in a short speech presented the named of J. W. Tilden, of Marysville.

A. Butler, of the Bellefontaine district, presented the name of Judge Lawrence, of Bellefontaine.

S. F. De Ford, of Ottawa, was then put in nomination by F. Livengood, delegate from Defiance district.

A. G. Williams, of Perrysburg, was nominated by Judge Nearing.

Levi Meredith, of Van Wert, was then nominated, which completed the call of the districts, and a ballot was taken which resulted as follows:

Messrs. Zeller and Beatty were appointed tellers by the chair, who retired and counted the votes, with the following result: Lockhart, 17; Nelson, 15; Tilton, 32; Dr. Ford, 20; Williams, 52, Meredith, 24; Lawrence, 65.

Mr. Beatty, of the Toledo district, moved, and it was seconded by Mr. E. R. Hiett, also of Toledo, that the secretary be instructed to cast the ballot of the delegates for Mr. A. G. Williams, as the second lay delegate, Mr. Lawrence had secured an election on the first ballot. This motion carried.

It was then moved and seconded that the two candidates having the next largest vote should be declared elected as alternates, which fell upon Messrs. Tilton and Meredith.

The conference then adjourned to meet at 2 o'clock, when a visit will be paid to the ministerial conference.

LOOK AT THIS.

Are these not healthy and bright children? Their appearance does not misrepresent them; they are both healthy and bright. They are the son and daughter of Mr. J. P. Wiley, of Dorchester, Mass., and he has an interesting story to tell in regard to them. The story is as follows:

"In 1885 my wife, accompanied by my little boy, at that time 11 months old, was visiting relatives in Scranton, Penna. The little fellow was suffering untold agony cutting his teeth. My wife was told to try Dr. Hand's Teething Lotion. The effect was magical. It did not simply 'dull,' as most remedies of this character do; it simply soothed the pain of the burning and aching gums. I might write a volume, had I the time, praising this remedy, and then not express my feelings fully or do it justice. It is simply marvelous. After her return to Boston she wanted another bottle, but I found that it was unknown in this city. I corresponded with Dr. Hand, and received in reply a sample of each of his remedies. I used them on both my children, recommended them to all my friends, and have yet to find the person who, after using the remedies, especially Teething Lotion and Colic Cure, that could not praise them. People may say, and have said to me: 'Oh, there must be something in that Teething Lotion that affects a child's brain.' In reply to this, I will say I have two children, a boy and girl, who have been treated with Teething Lotion since time of beginning to end of teething, and I challenge any person to furnish two with any clearer brains. I cheerfully recommend them to parents who love their little ones."

A little book, illustrated, full of sense and suggestion, or sample bottle, will be sent to any one in the land, FREE.

THE GERM THEORY.

Within the past few years a new theory of disease has arisen with the Medical profession, known as the GERM THEORY, which has developed into a distinct branch of science, called Bacteriology. According to this Theory, all endemic, epidemic and contagious diseases are produced by minute infecting germs or microbes (micro-organisms) peculiar to each disease, which enter the system as mentioned in our treatise, page 12, under the heading "WHAT IS BLOOD POISON?"

It has heretofore been held that the unbroken skin presents an impenetrable barrier against the exit of these microscopic germs (micrococci, bacilli, etc.) when they have once found their way into the system, and as it has been demonstrated that a remedy which would destroy these germs would also kill the patient, it has been a great want of the profession to know just how to treat the disease brought on by these microbes. But recent investigations in this branch of science, by Prof. Von Bumer-Zurick, as reported to the Congress of Surgeons at Berlin, and confirmed by a report of Prof. Eiselberger, of Vienna, show that these germs can be expelled from the system through the pores of the skin. It was demonstrated clearly that these germs can pass, do pass, and can be forced to pass from the blood, and from the tissues through the healthy skin to the surface of the body and thus relieve the system of disease.

To prove this Theory, experiments were made with two men, with a horse, a dog, and a hog, six times in a week—and in every instance the germs or microbes were found in the perspiration, showing that they had been eliminated through the skin.

Now, as *SWIFT'S SPECIFIC* has for about sixty years been relieving humanity of disease in just that way, we think we can but add the result of these experiments to the thousands of testimonials which we already have. S. S. S. has been for more than half a century forcing out these germs, or pathogenic microbes, from the blood and tissues, thus bringing health and happiness to thousands, and it is a part of science at this late day to corroborate our Theory and show just how it is done.

We claim, then—and not only claim, but prove by these reliable witnesses—that *SWIFT'S SPECIFIC* forces out these germs of poison; and it does more than that, it forces out the poison itself after the body has been infected and polluted with it. For instance, in the disease of Scrofula, if there should be an ulcer or a sore, the poison will be forced out through that sore or ulcer, and the germs will be forced out through the pores of the skin; and it is the same way with any other infection—when there are no sores or ulcers the germs are forced out through the skin which sometimes causes redness and a rash, and even swelling, as mentioned in the general directions.

THE WORLD OF TOILERS.

Women Must Be Organized to Keep Wages Up.

The Boston Knights' Big Procession.

Life Insurance Is Self-Protection—General and Local Labor Matters of Interest to the Wage-Workers.

At the concluding session of the Master Car and Locomotive Painters' association convention, recently held in Washington city, Mrs. Charlotte Smith, president of the Woman's Industrial league, offered a memorial, which was adopted by the association, praying that the same pay be given women employed in painting cars that men receive for the same work. It was a matter of self-protection for the delegates to take this action, for women are making such a success of car painting that they will soon drive men from the work unless their pay be equalized. It is said the car decorating done by brushes in women's hands has a high order of merit, that it is genuinely artistic. It follows, then, that women have found one more avenue for occupation, where they will succeed in doing good work. The next step is naturally to see that they get the wages good work has a right to command.

It is not chivalry but self-defense that must move these representative organizations of men to demand equal pay for equal work without regard to sex, and women workers must learn the lesson workingmen have learned, to organize. On every hand the evidence is given that the wage-level can be lowered below the life-line, if women's competition for work is not regulated. On this point Mr. Sydney Webb writes in the London Times:

The average earnings of women in manufacturing industries are from one-third to two-thirds those of men. But it is noteworthy that in Lancashire the women, who are as strongly organized in trades unions as the men, have for at least two generations received the same piece work rates as the men, and skilled hands have earned as much per week. Women compositors (who are not trade unionists) handicraft receive in Edinburgh and Paris, as well as in London, not only lower time wages than men, but also distinctly lower piece work rates for work of exactly equal quality. Facts given as to other occupations of women, where no organization of workers exist, show a general inferiority of women's wages."

A book of interest to intelligent wage-workers is a treatise on economics recently published in English from the German. The writer is Dr. Brentano, professor of political economy in the university of Leipsic. The following is a synopsis of Dr. Brentano's position:

He finds three principles at work in the present relations of labor to law. They are authority, free competition and association. The control of authority is not necessary for the individuals who are able to take care of themselves; but for the protection of women and children such authority as has been exercised in England and in this country is regarded by him as indispensable. The intervention of the state is the only way in which the weak members of the industrial family can escape from the abuses of economic power.

On the other hand, the self-activity of the great body of the industrial population is far better than any plan which the socialists have devised for the common good. They plan for a community where each individual is up to a certain moral standing, and make no allowance for the weak and the wicked who come in for their share of the fruit of production, and are unwilling or unable to earn it.

Dr. Brentano believes that this very freedom which the free competition of individuals implies needs to have put upon it the restraint which comes from the organization of the weak with the strong in industrial co-operation.

By carrying out the regulation of the labor relation explained through the self-help of the united laborers and through legislation, he believes that each one of the three principles which he recognizes as necessary for the proper direction of the labor movement obtains recognition to the degree that is demanded by the needs of this century.

Over four thousand knights were in line in the deferred Labor day torchlight procession of the Knights of Labor of Boston and vicinity last Saturday evening. They were reviewed from the steps of the state house by Governor Russell, who is a great favorite with the organized laborers of Massachusetts on account of the cordial support he has given their demands whenever that support was asked for. It happens his opponent for gubernatorial honors, Col. Allen, of Lowell, made a bad record in this line when a member of the state legislature, voting against every labor bill that was presented. It looked, on Saturday night, to those who witnessed the ovation the marching societies gave Gov. Russell, as though the men and women in line were thinking of those things. The Herald said:

The paving department saluted the governor by blowing the whistle of their steam drill, and the health department recognized his excellency by discharging a number of colored rockets and Roman candles. The members of the other assemblies contented themselves with doffing their hats and giving cheer after cheer.

The spectators paid a great deal of attention to the governor, and more than one enthusiastic individual called for three cheers for the next governor of Massachusetts. The throng of people about the state house were nothing loathe to applaud the head of the commonwealth, and they sent up three times three cheers for William E. Russell with a mighty roar.

The local assemblies in line are all attached to D. A. 30, which has headquarters in Boston. The illuminated transparencies displayed suggestive mottoes, some of which were as follows: "The Australian ballot is our protection." "We protect our men when they try to protect themselves." "No favors; fair treatment is all we ask." "Give the parks to the people." "We can stand the Saturday half-holiday all the year round." Reversed: "Eight hours the day, two seventy-five the pay." "No cigarette smokers allowed in our ranks." While the reverse of this said: "Welcome to the abolition of the poll tax as a voting prerequisite." The next banner contained the following description: "Are we behind the times?" And "We are cutting hay with a machine patented in 1774." Then came some instructions to the merchants of Boston in the following: "To the merchants of Boston we say, encourage us and your business will thrive." As the banner carrier spun it around the other side read: "Everything we earn is spent in Boston."

Ben Franklin assembly L. A. 5463, printers, carried a large transparency, reading on one side, "We freely acknowledge our indebtedness;" on the other, "To Russell's administration we owe much." Most of the organizations were in uniform. The printers wore dark suits with white felt hats.

Killing Workingmen.

Within a comparatively short time many lives have been lost in new buildings going up in this city or during reconstruction of old ones. The cause has been either failure properly to support the walls or to provide safe appliances. It is not always easy to place responsibility, but it lies between owner and contractor. The law making employers responsible for lives lost in consequence of criminal carelessness or lax provisions is not sufficient to prevent gross recklessness on the part of builders nor brutal indifference or criminal ignorance on the part of capitalists. The law should be made more specific, its penalties more prohibitory.

It is true that the extension of insurance, which is now made to cover nearly every conceivable phase of human risk, assures the family of workingmen who resort to it something in case the provider of their needs is killed while at work. But insurance does not cover their loss. Owners and contractors must be made to realize that they cannot through parsimony, neglect or unskilfulness trifle with the limbs and lives of human beings.—Chicago Herald.

Nor are the benefits of accident and life insurance sufficiently realized by workingmen. It too often happens that the sudden death and disabling of the head of a family leaves wife and children without money and without any resources whatever. It is hard on the earner of small wages to set aside any part of his earnings for insurance, but if he has others dependent upon him it is reckless and criminally negligent of him not to do so. There are many good insurance companies; there are fraternal organizations whose sole purpose is mutual insurance; almost all labor organizations have insurance and beneficiary features. In some one or more of these every working man should try to invest the little that will bring good returns to his family if death or disaster overtake him.

Local Labor News.

The Central Labor union met last evening and the matter of non-union barber shops came up for discussion. It was stated that a movement was on foot to keep barber shops open on Sundays and evenings. Every effort will be made to head off this movement.

The secretary of the Central Labor union is quoted as having said anent the bricklayers at the central body:

"In the BEE it was stated that the delegates from the Bricklayers' union had been refused admittance to the Central Labor union. This statement is not correct, but as stated in the Commercial the Central Labor union has invited the bricklayers to send delegates, but that body has refused."

No such statement appeared in the BEE, and the secretary should be more careful in his statements.

Some evil disposed persons have circulated the report that Flowers' barber shop on Jefferson street is non-union. This is untrue. The shop remains union, and all the old men are still at work.

After Ballot Reform.

The Central Labor union had a lively debate over politics at its meeting in Clarendon hall Sunday. The committee appointed to wait on the People's Municipal league reported in favor of the proposed new ballot law prepared by the league.

The bill provides for the Australian system, with the addition that each party is furnished with an emblem opposite the name of each of its candidates for the aid of illiterate voters. Of the sample ballot exhibited by the committee the democratic candidates were marked with a spread eagle, the republicans with a star, the prohibitionists with a glass (supposed to contain water), the labor men with an arm and hammer, and the league men with a sun.—New York Herald.

Some Startling Facts.

When the bread-winner of a family—we mean the natural bread-winner—can earn but $346 per year, the consequence must be that his family, his wife from the day of his marriage, and his children, as soon as they are able, are compelled to assist him.

This is plain enough, and it is also plain that as soon as they have learned to do his work they become his competitors for labor, cheapening his wages and furnishing the employer with a weapon with which he can fight him. The following startling, painful and disgraceful figures, taken from the census, show how true this is:

In 1870, 13 per cent. of all the children in the United States, between 10 and 15 years of age, were employed in the industries.

In 1880 the percentage had increased to 17. To-day it must be at least 20 per cent., or over 1,000,000 of our infants.

In 1880 37½ per rent., of these children were girls. To-day about 40 per cent.,—nearly half a million of the future maternity of the country dwarfed and stunted within factory walls.

In 1880, of all the women in the United States, 17 per cent., were employed in the industries.

Between 1870 and 1880 the greatest increase among all the classes of breadwinners was among girls between 10 and 15 years of age, and the smallest increase was among the natural bread-winners, the men between 16 and 59.

And all over the country able-bodied men are continually crying for work at reasonable wages.—True Nationalist.

Carnegie Found Out.

Well Mr. Andrew Carnegie is being so severely handled by the English press representing the governing class, it seems that the working people over there are also giving him the cold snoulder. An English paper states that on a recent occasion a trade demonstration was held at Peterhead. The corner stone of a new free library, to which Mr. Carnegie had subscribed £1,000, was to be laid. After the ceremony Mr. Carnegie appeared in the music hall, with the intention of addressing the people. Only eleven people heard the beginning of his speech, and it took considerable effort to secure him anything like a fair size audience. Reynolds' Newspaper gives the following explanation as to why Mr. Carnegie's hearers on that occasion were so few:

"The fact is, Andrew is being found out as a bit of a humbug. Men read of him refusing to employ union men in his works at home and of his firm reducing wages 20 per cent. below the standard and, though they accept his 'silver' as a kind of conscience money, they don't believe in the man himself, and refuse whenever possible to listen to his inflated spread-eagle oratory."—Pittsburg Trades Journal.

Industrial Notes.

Fifty-four official organs of trade unions are now being published in Germany.

A Labor day parade of cowboys on their broncos took place in Canon City, Fremont county, Col.

Advances in wages for carpenters have been greatly conceded all over Great Britain this year.

The trade unions and socialists of Great Britain expect to elect 30 candidates by the next parliament.

The labor commissioner of Missouri says that the forthnightly pay law, recently enacted, meets with general observance.

The dining room girls at the St. Nicholas hotel in Lafayette, Ind., refused to wait on the scabs who had come from Chicago to take the places of the strikers on the Erie railroad.

The electricians are hurrying forward work for electrical roads, and the patent office is busy passing upon applications for new patents in which electricity plays a prominent part.

A thousand men are employed on the Chicago exposition, and work is prosecuted day and nights in three shifts. Contracts have been made for buildings to cost over three million dollars.

International labor congresses mean that we are at the beginning of a great revolt against the existing conditions under which the production and distribution of wealth are regulated.

Prof. Schultze-Gevernitz, of Leipzig, has written a book tracing the English labor movement from the Chartists up to "the present stage of peaceful evolution," which he believes will result in a gradual transformation of industrial society.

In southwest Louisiana is the largest farm in the world. It measures 25 miles by 100 and contains over 1,500,000 acres. It is owned by a syndicate of northern capitalists, who cultivate rice, sugar, corn and cotton. All the farming is done by steam power.

Within 16 years the number of criminals convicted under 21 years of age has increased in France from 27,081 to 34,588, and prominent lawyers and economists ascribe such increase to the fact that the increasing employment of children in factories and workshops has decreased the chances of moral development.

Lift a man, give him life, let him work eight hours a day, give him education and books, and you will starve out his lower appetites. Give a hundred men in this country good wages and eight hours' work and ninety-nine will disdain to steal. Give a hundred women a chance to earn a good living, and ninety-nine of them will disdain to barter their virtue for gold.—Wendell Phillips.

Girls working in the cereal works of Akron, O., after submitting to a 50 per cent. reduction for two weeks, struck and issued an appeal to the Knights of Labor and the people. The appeal concludes: "We wish you to publish this company far and near that it may warn the people to kill the trusts, or the trusts will kill us us and the country with us." The firm for which these girls work paid good wages until they were forced into the trust. Further, this trust is one of our infant industries that needs protection, and it gets it too. But the girls are not in it.

MERELY SUGGESTIONS.

A Woman's Den and What Should Go In It—The Comfort of a Hammock.

If you want your bedroom to look warm and cozy this winter tint the walls with a delicate shade of pink and drape them with sheer lace hangings, says the New York Advertiser. Nottingham is inexpensive and very pretty. Around the top arrange a lace flounce about fifteen inches deep. An iron bedstead, enamelled, dainty wicker chairs with pink cushions, bassocks and a few good water colors will form an effect which will surprise you.

Does the top of your ornamental mantel in the parlor form a deep shelf, or can it be made to do so? Yes? Then take away from it the scarf which has been draped on it until you have grown weary of the sight. Arrange in this way:

In the center of the shelf set a small palm. In front and on each side of this place smaller plants, ferns, geraniums or anything you prefer. Bank it into a glowing mass of color. Then round the edges, front and side, train small, dainty vines to droop over the mantel mirror or to climb upward on invisible wires. You will have to mount a step-ladder to water it every day, but the effect is one of which you will never tire.

A unique shade lamp? There are dozens of them just out. But here is one which seems worthy of the time required to make it.

The shade is of silver or gold stars and crescents arranged between two layers of azure silk. The upper and lower rims are trimmed with clouds of yellow India silk. On a lighted lamp—well, try it.

It is simply impossible to have too many sofa cushions. They are in order in divans, in hammocks, in chairs, and even on the floor if you have an inclination to lie on the fire-rug before the grate. They can be made in plush, velvet and figured or plain China silk, with or without rosettes, embroidered or sweetly simple, as your taste dictates.

Speaking of hammocks, do you know what an immense amount of comfort you can get out of one in your library or den?—for every true woman deserves and should have a "den."

But to return to the hammock; just swing it across the corner from the window to the opposite wall, fill it with cushions, have a little table at the head with a reading lamp—and let the world go by.

WHAT IS A "LIMITED TRAIN?"

The following definition of a limited train, given by an official of a big road, is clear, plain, and will be of interest to thousands: First, it is limited as to its time. Second, it is limited as to the number of cars and weight of train. Third, it is limited as to the class of cars. Fourth, it is limited as to the number and class of passengers permitted transportation thereon. This last limit being adopted so that every passenger may have ample accommodation, not to be crowded or interfered with by other passengers. The fact that an additional fare is charged on a limited train, and, further, that nothing but first-class tickets are accepted for passage, tends to limit the class of travel which is carried.

Chronic Malarial Diseases.

Periodical Neuralgia Caused by Malarial Poison.

The Greatest Remedy of the Age for Fever and Ague, Chills and Fever, and All of the Irregular Forms of Malarial Diseases.

Extract from a Lecture by Dr. S. B Hartman, Columbus, O.

Malarial headache (or hemicrania) is a pain extending above the eyebrows around the head, with regular intervals, coming on about 1 or 2 p. m., growing more severe from 4 to 5 p. m., and finally disappear after sundown. It may occur in the morning, or at noon, and in some cases at sunrise, increasing until noon, gradually disappearing in the afternoon, giving a perfect intermission during the night.

Malarial neuralgia generally attacks one side of the face or head, either the temple or above one eye. The regular appearance and disappearance of the neuralgia is precisely the same as in other forms of malarial disease, presenting a regular recurrence and distinct interval of relief. It may also attack any other part of the body—face, teeth, shoulder, muscles of the chest, etc., etc. Whenever a pain is caused by malaria it has either a distinct intermission, as in intermittent fever, or a remission, as in remittent fever.

A lady called to see me some time ago who was complaining of a most excruciating pain of her right knee, which returned at 2 p. m. and continued with great severity till 6 p. m., gradually lessening, entirely ceasing at 10 p. m., returning the next day at 2 p. m. This has been going on for two months without cessation. She had been treated with quinine in small and large doses; had cut and blistered the knee; used electricity and many varieties of liniments. It was a typical case of malarial neuralgia of the knee. I ordered her to take, during the intermission, a wineglassful of Peruna every two hours until four doses were taken, after which a tablespoonful every hour during the remainder of the intermission, until the time for the next spell has passed. And when the disease stopped a teaspoonful every two hours during the day for ten or fifteen days, or until the cure should be certain to be permanent. This treatment is exactly what I would advise in all the above prescribed cases of chills and fever or other malarial diseases when there is a distinct intermission. In cases of indistinct malaria, without any positive chill or fever, Peruna should be taken as directed on the bottle.

For a complete treatise on Malaria, Chills and Fever and Ague, send for the Family Physician No. 1. Sent free by the Peruna Medicine Company, Columbus, Ohio.

TOLEDO,

The Bee.

The BEE will give the people all of the news and advertise their wants, having a circulation much greater than any other Toledo daily paper it is much the best advertising medium. It secures quicker and better returns. Consult your interests by advertising in the BEE when you want anything or have anything to sell.

Parties advertising in these columns and having the answers addressed in care of THE BEE, will please ask for check to enable them to get their letters, as none will be delivered except on presentation of check. All answers to advertisements should be inclosed in envelopes.

Advertisements of Wants, For Rent, For Sale, Lost, Found, etc., not exceeding four lines (35 words), will be inserted in these columns for 50 cents a week, two weeks $1; one month $2. For one insertion 20 cents, two times 25 cents, three times 30 cents and four times 40 cents will be charged. Over four lines at proportionate rates, payable in advance. Parties desiring situations will be given three insertions free.

No credits allowed for advertisements ordered in for a certain number of times and stopped before expiration.

Dr. Backer was called and an examination found the man to be suffering from brain fever, and had him at once removed to the hospital.

A GRATEFUL MOTHER.

How perfectly natural the following reads; it was communicated by Mrs. J. D. Howard, No. 222 Bouch avenue, Buffalo, N. Y., and addressed to Dr. D. B. Hand.

"I happened to be in a drug store and overheard your agent talking about your Children's Remedies. Having a sick child at the time, I purchased a bottle of the Pleasant Physic and Diarrhoea Mixture, used them according to directions, giving a dose of Pleasant Physic every other day and the Diarrhoea Mixture every two hours. My doctor had been treating the child two weeks without relief, and your medicine cured it in four days. I write you this to encourage you in your good work." This is the sentiment and experience of thousands of mothers over all this broad land of ours.

For sale by R. C. Spohn, D. Harpster & Co., Bowers & Friederich, Geo. C. Nill, Thos. Vanstone.

The "Bee" will remove to its new home to-morrow (Saturday) evening, and the Bee on Monday will be issued from its new building.

HERBERT DON'T WANT IT.

Washington, Sept. 25.—Congressman Herbert, of Alabama, has written to Senator Fugh, of that state, announcing his withdrawal from the contest for a place on the interstate commerce commission. Col. Herbert's friends prevailed on him to take this course because the Farmers' alliance might capture his seat in the house in the event of his appointment as a commissioner.

To-morrow, Saturday, Sept. 26, will be the last day the Bee will be issued from its old quarters, which it has so completely outgrown in the past few years. Its new home is one of the finest in the city.

A GREAT STRIDE FORWARD.

Prof. J. C. Chambers' New Electric Sanitarium and Supply Co.

Last week Prof. J. C. Chambers, the experienced electrician, organized a stock company with $50,000 capital for the establishment in various cities of the country of electric sanitariums. The name of the new company is "Chambers' Electric Sanitarium and Supply Co." Prof. J. C. Chambers is president, Charles C. Wilmot, of Grand Rapids, vice president, and Thomas Robinson, once an extensive furniture dealer in Marshall, Mich., is secretary and treasurer. The head office will be at 60, 62 and 64 Washington avenue, Detroit, which Prof. Chambers has occupied since the fall of 1888. Since the professor's settlement in Detroit he has perfected numerous appliances, protected by letters patent for the treatment of various forms of disease by means of electricity, and the success that has attended his practice has rendered necessary the enlargement of his field of operations. Branches are now established in Jackson, Grand Rapids, Toledo and Pittsburg, each meeting with marked success. The professor will have absolute charge of the supply department and establish sanitariums as soon as practicable in other cities of the union. The thousands of testimonials in his possession from patients who have been successfully treated in the sanitarium here are highly prized by him as evidence of the merits of his method of treating disease.—Detroit Free Press.

Just how an alterative medicine cleanses the system is an open question; but that Ayer's Sarsaparilla does produce a radical change in the blood is well attested on all sides. It is everywhere considered the best remedy for blood disorders.

Seeing is believing; look through our black goods department.

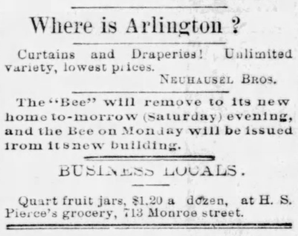
First pub Friday, September 11, 18 and 25.

SYRUP of FIGS



ONE ENJOYS

Both the method and results when Syrup of Figs is taken; it is pleasant and refreshing to the taste, and acts gently yet promptly on the Kidneys, Liver and Bowels, cleanses the system effectually, dispels colds, headaches and fevers and cures habitual constipation. Syrup of Figs is the only remedy of its kind ever produced, pleasing to the taste and acceptable to the stomach, prompt in its action and truly beneficial in its effects, prepared only from the most healthy and agreeable substances, its many excellent qualities commend it to all and have made it the most popular remedy known.

Syrup of Figs is for sale in 50c and $1 bottles by all leading druggists. Any reliable druggist who may not have it on hand will procure it promptly for any one who wishes to try it. Do not accept any substitute.

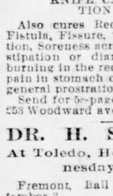
LOUISVILLE, KY. NEW YORK N.Y.



Cook's Cotton Root COMPOUND.

A recent discovery by an old physician. Successfully used monthly by thousands of ladies. Is the only perfectly safe and reliable medicine discovered. Beware of unprincipled druggists who offer inferior medicines in place of this. Ask for Cook's Cotton Root Compound, take no substitute, or inclose $1 in letter, and we will send, sealed by return mail. Full sealed particulars in plain envelope, to ladies only, 2 stamps. Address POND LILY COMPANY, No. 4 Fisher Block, Detroit, Mich.

NEW ADVERTISEMENTS.

JAS. KEARNES, Secretary.

Notice of Application of Thomas Skehan for a Pardon on His Own Behalf.

To whom it may concern: Notice is hereby given that Thomas Skehan who was, on the 10th day of March, 1891, by the Court of Common Pleas of Lucas county, State of Ohio, convicted of the crime of burglary and larceny, and by said court sentenced to the Ohio penitentiary for the period of one year, will, on his own behalf, make applica ion to the Ohio State Board of Pardons, on the 15th day of October 1891, or as soon thereafter as he may be heard for a pardon. THOMAS SKEHAN.

By his attorneys, Merrill & Hone. 24sep3

CARTER'S LITTLE LIVER PILLS.

CURE

Sick Headache and relieve all the troubles incident to a bilious state of the system, such as Dizziness, Nausea, Drowsiness, Distress after eating, Pain in the Side, &c. While their most remarkable success has been shown in curing

SICK

Headache, yet CARTER'S LITTLE LIVER PILLS are equally valuable in Constipation, curing and preventing this annoying complaint, while they also correct all disorders of the stomach, stimulate the liver and regulate the bowels. Even if they only cured

HEAD

Ache they would be almost priceless to those who suffer from this distressing complaint; but fortunately their goodness does not end here, and those who once try them will find these little pills valuable in so many ways that they will not be willing to do without them. But after all sick head

ACHE

is the bane of so many lives that here is where we make our great boast. Our pills cure it while others do not.

CARTER'S LITTLE LIVER PILLS are very small and very easy to take. One or two pills make a dose. They are strictly vegetable and do not gripe or purge, but by their gentle action please all who use them. In vials at 25 cents; five for $1. Sold everywhere, or sent by mail.

CARTER MEDICINE CO., New York.

Small Pill. Small Dose. Small Price.

EXCITEMENT!

Is running high over the wonderful bargains offered in Cushing's Lawrence Ave. Sub-Division of 24 choice city lots, situated on Lawrence Ave., between Bancroft and Virginia Sts., one block from Monroe. These lots are in the most rapidly developing and by all odds the handsomest residence portion of the city, and

AT THE

low figure at which we are holding them at present, and with the improvements about to be made, they are the best investments in the Toledo market. To those desiring a home in a growing locality, where building restrictions insure a fine neighborhood, no such inducements are offered anywhere as in this sub-division The

OUTING CLUB

and the Monroe Street School are but a stone's throw from these lots, whilst the Electric Belt Line and Monroe Street Cars are within hailing distance. Call at our office and let us drive you out to see these beautiful lots before they are all gone. It will cost you nothing and we would be happy to do so.

W. BAKER & CO.'S Breakfast Cocoa

from which the excess of oil has been removed, is *Absolutely Pure and it is Soluble.*

No Chemicals

are used in its preparation. It has *more than three times the strength* of Cocoa mixed with Starch, Arrowroot or Sugar, and is therefore far more economical, *costing less than one cent a cup.* It is delicious, nourishing, strengthening, EASILY DIGESTED, and admirably adapted for invalids as well as for persons in health.

Sold by Grocers everywhere.

W. BAKER & CO., Dorchester, Mass.

GRATEFUL—COMFORTING.

EPPS'S COCOA

BREAKFAST.

"By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well-selected Cocoa, Mr. Epps has provided our breakfast tables with a delicately flavored beverage which may save us many heavy doctors' bills. It is by the judicious use of such articles of diet that a constitution may be gradually built up until strong enough to resist every tendency to disease. Hundreds of subtle maladies are floating around us ready to attack wherever there is a weak point. We may escape many a fatal shaft by keeping ourselves well fortified with pure blood and a properly nourished frame."—Civil Service Gazette.

Made simply with boiling water or milk. Sold only in half-pound tins, by grocers, labelled thus:

James Epps & Co. Homœopathic Chemists, LONDON, ENGLAND.
